- 19 - APPENDIX F – DAVIS BACON WAGES – BUILDING
- 20 - APPENDIX G – DAVIS BACON WAGES – HEAVY AND HIGHWAY

SHOULD ANY OF THE ABOVE DOCUMENTS OR PAGES BE OMITTED, PLEASE CONTACT THE HOUSING, ZONING AND BUILDING OFFICE 716-366-9858 FOR INFORMATION.

NOTICE TO BIDDERS

Sealed bids will be received at the office of the City Clerk, City Hall, Dunkirk, New York no later than **2:00 P.M. EST on March 3, 2015** and publicly opened at that time for the ASBESTOS ABATEMENT of the following RESIDENTIAL STRUCTURES:

108 MOFFAT STREET
66 W. SECOND STREET
101 PARK AVENUE
423 SWAN STREET

to be used by the City of Dunkirk, New York in accordance with specifications to be procured from the Housing, Building, Zoning Office, City Hall, 342 Central Avenue, Dunkirk, New York 14048. Specifications and other contract documents may be obtained or examined at the Housing, Building, Zoning Office City Hall, 342 Central Avenue, Dunkirk, New York 14048.

The City reserves the right to waive any informality, accept the bid deemed most favorable to the City or to reject any or all bids.

Each bidder must deposit with his bid a bid bond or certified check in an amount as outlined in the specifications.

Adv. February 11,12,13 2015

Nicole Joiner
City Clerk

INSTRUCTIONS TO BIDDERS

1. Sealed bids shall be addressed in care of the City Clerk, 342 Central Avenue, City Hall, Dunkirk, New York with the item or items bid upon so stated on the outside of the sealed envelope.
2. Bids shall be submitted on the Proposal Sheet provided with these specifications.
3. Non-Collusive Certificate must be completed, signed and returned with the Proposal Sheet.
4. Unless otherwise provided, all bids shall be submitted on the forms provided. Unsolicited bids not conforming to the specifications or forms shall not be considered.
5. The City of Dunkirk reserves the right to accept or reject any and all bids and award the contract to the bidder deemed most favorable to the City. The City of Dunkirk shall be the sole judge of all equivalencies.
7. Total cost for asbestos abatement of all four structures shall be submitted. Individual cost for each structure shall be submitted in the total cost.
8. Cost of the asbestos abatement shall conform to the specification documents provided.
9. If there are any questions concerning these specifications, please contact the Housing, Building and Zoning Office, City Hall, Central Avenue, Dunkirk, NY 14048 or telephone (716) 366-9858.
10. Each proposal must be accompanied by a certified check or bid bond in the amount of five percent (5%) of the bid for those items bid upon. Such certified check or bid bond is to be made payable to the City Clerk of the City of Dunkirk, NY and is to be held as a guarantee that in the event the bid is accepted and a contract awarded to the bidder, the contract will be duly executed and its performance properly secured. In default thereof, said guarantee will be forfeited to the City of Dunkirk as liquidated damages.
11. The successful Bidder shall be required to execute a City "AGREEMENT FOR SERVICES/MATERIALS" contract upon City acceptance, a copy of which is provided herein. The bidder shall conform to the "ADDITIONAL TERMS AND CONDITIONS" contained on the Agreement form.
12. The successful Bidder, upon City acceptance, shall provide the City Attorney insurance as required. The City's "STANDARD INSURANCE CERTIFICATE" is provided herein. The standard form shall filled out by the insurer and be submitted to the City Attorney for approval. For this bid, Vendor Classification "A" shall apply.

13. Iran Divestment Act - By submission of this bid, each bidder and each person signing on behalf of any bidder certifies, and in the case of a joint bid each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each bidder is not on the list created pursuant to paragraph (b) of subdivision 3 of Section 165-a of the State Finance Law.

ADDITIONAL INFORMATION

1. The work performed herein is in furtherance of the City's participation with the Chautauqua County Land Bank Corporation involving, in whole or in part, funding received by and through the State of New York Office of the Attorney General ("OAG") and the OAG's Community Revitalization initiatives. All work and required reporting shall be undertaken in conformance with such program and all requirements contained in the agreement by and between this Chautauqua County Land Bank Corporation and this City, including any and all attachments, exhibits and appendices, which are specifically incorporated herein by referenced. A copy is available through the City's Housing, Building and Zoning Officer.
2. All work shall be performed in strict conformance with applicable federal, state and local rules, laws, and regulations.
3. Bid price shall be good for one (1) calendar year commencing on the date of the bid of the bid year.
4. Successful bidders are required to provide a qualified representative to provide on-site progress to the Housing, Building and Zoning Officer.
5. The Housing, Zoning and Building Inspector shall be notified of the beginning and the completion of the asbestos abatement of each structure.

CITY OF DUNKIRK HOUSING, BUILDING AND ZONING OFFICE
OFFICIAL BID FORM

Asbestos Abatement of 4 houses

This is to certify that I have read the attached bidding documents completely, have inspected the site and that the work to be furnished will meet or exceed the attached specifications.

ASBESTOS ABATEMENT SPECIFICATIONS

SECTION 028213 – ASBESTOS ABATEMENT

PART 1 - GENERAL

1.1 RELATED DOCUMENTS:

A. Drawings and general provisions of Contract, including General and Supplementary Conditions and Division-1 specification sections, apply to this section.

1.2 SUMMARY:

A. This project consists of the removal of asbestos materials as part of planned renovations. Work areas are designated on the contract drawings.

B. This section specifies the procedures for removal of existing asbestos containing/ contaminated building materials, disposal of removed materials, and the encapsulation of building surfaces and/or components where asbestos containing materials have been removed AFTER FINAL CLEARANCE AIR MONITORING HAS BEEN SUCCESSFUL.

C. Disturbance or dislocation of asbestos containing materials may cause asbestos fibers to be released into building's atmosphere, thereby creating a health hazard to work persons and building occupants. Consistent with asbestos control work, Contractor shall appraise all of his workers, supervisory personnel, subcontractors and consultants who will be at job site of the seriousness of the hazard and of proper work procedures which must be followed.

D. Where in the performance of the work, workers, supervisory personnel, subcontractors, or consultants may encounter, disturb or otherwise function in the immediate vicinity of any identified asbestos containing materials, appropriate, continuous measures as necessary to protect all building occupants from the hazard of exposure to airborne asbestos shall be taken. Such measures shall include the procedures and methods described herein, regulations of the U.S. Occupational Safety & Health Administration (OSHA), U.S. Environmental Protection Agency (EPA), and the New York State Department of Labor.

E. Definitions: The following definitions apply throughout the Contract Documents:

1. Aggressive Sampling: A method of sampling in which the person collecting the air sample creates activity by the use of mechanical equipment during the sampling period to stir up settled dust and simulate activity in that area of the building.

2. AIHA: The American Industrial Hygiene Association
2700 Prosperity Ave., Suite 250
Fairfax, VA. 22031

3. Airlock: A system for permitting entrance and exit while restricting air movement between a contaminated area and an uncontaminated area. It consists of two curtained doorways separated by a distance of at least of three feet, such that one passes through one door way into the air lock, allowing the doorway sheeting to overlap and close the opening before proceeding through the second doorway, thereby preventing flow-through contamination.

4. Air Monitoring: Employment of sampling techniques and the process of measuring the fiber content of a specific volume of air in a stated period of time. Analysis of air samples shall be by Phase Contrast Microscopy in accordance with the OSHA reference method or Transmission Electron Microscopy in accordance with EPA methodology.

5. Amended Water: Water to which a surfactant has been added to a ratio according to the manufacturer's directions.

6. Area Air Sampling: Any form of air sampling or monitoring where the sampling device is at some stationary location using non-aggressive techniques.

028213-2

7. Asbestos Contractor/Supervisor: A person who has attended the training course for

contractor supervisor and has successfully passed the test under a program certified by the USEPA and as described within NYSDOL ICR #56.

8. Asbestos Handler: An individual who installs, removes, applies, encapsulates, or encloses asbestos containing material, or who disturbs friable asbestos or asbestos containing material, and as defined within section 56-2.2 (C) of NYSDOL ICR # 56.

9. Asbestos Handling Certificate: A certificate issued by the New York State Commissioner of Labor to a person who has satisfactorily completed an approved asbestos safety program.

10. Asbestos Handling License: A license issued by the Commissioner of Labor pursuant to the provisions of Part 56, Title 12, NYCRR to a contractor engaged in the installation, removal, application, enclosure or encapsulation of asbestos or asbestos containing material or the disturbance of friable asbestos.

11. Asbestos Project: Work undertaken by a licensed contractor which involves the installation, removal, encapsulation, application or enclosure of any asbestos or asbestos containing material, or the disturbance of friable asbestos. At the time that such disturbance occurs, the project shall become an asbestos project and all further work on that portion of the project, which resulted in such disturbance, shall be conducted in accordance with the requirements of this specification. Where all asbestos work on a project is subcontracted to a contractor with an Asbestos Handling License, only that part of work involving asbestos shall be deemed to be an asbestos project.

12. Asbestos Removal/Abatement Operations: All herein specified procedures pertaining to the removal of asbestos containing materials and disposing of these materials at an EPA approved site.

13. Authorized Visitor: The building owner, his or her agent or representative, any party contracting for services on an asbestos project whether on his or her own behalf or on the behalf of another, insurance appraisers or inspectors, utility company representatives, the Commissioner (NYSDOL) or his/her agents, and personnel of any regulatory or other agency having jurisdiction over the project.

14. Clean Equipment Room: A room between the holding room and non-work area which is part of the equipment decontamination enclosure system. This room shall remain uncontaminated at all times.

15. Clean Room: An uncontaminated room which is part of the work decontamination enclosures system, with provisions for storage of workers' street clothes and protective equipment.

16. Critical Barrier: A unit of temporary construction which provides the only separation between an asbestos work area and an adjacent, potentially occupied space. The critical barrier will be comprised of a minimum of two independent and intact sheets of six mil polyethylene sheeting.

17. Curtained Doorway: A device which consists of at least three overlapping sheets of plastic over an existing or temporarily framed doorway. One sheet shall be secured at the top and left side, the second sheet at the top and right side, and the third sheet at the top and left side. All sheets shall have weights attached to the bottom to insure that the sheets hang straight and maintain a seal over the doorway when not in use.

18. Decontamination Enclosure System: A series of connected rooms separated from the work area and from each other by air locks, for the decontamination of persons, materials and equipment.

19. Differential Air Pressure System: A portable, powered HEPA filtered system used to exhaust air from the work area to outside the building. A differential pressure condition must be maintained at any point in the work area no less than -0.02 inches water gauge relative to the pressure at any point outside the work area.

20. Encapsulant: A liquid material which can be applied to asbestos containing material and which controls the possible release of asbestos fibers from the material by creating a membrane over the surface (bridging encapsulant) or by penetrating into the material and binding its components together (penetrating encapsulant).

028213-3

21. Encapsulation: All herein specified procedures necessary to coat asbestos containing material or asbestos contaminated surfaces with an encapsulant to control the possible release of asbestos fibers into the ambient air.
22. Equipment Decontamination Enclosure System: A decontamination system for materials and equipment consisting of a designated area of the work area for a washroom, holding room, and clean equipment room.
23. Equipment Room: A room which is part of the worker decontamination enclosure system, with provisions for storage of potentially contaminated clothing or equipment. The equipment room shall be kept clean from suspect asbestos containing debris at all times.
24. Final Clearance Level: Air samples for analysis using Phase Contrast Microscopy will be collected under aggressive sampling conditions.
25. Fixed Object: A unit of equipment or furniture in the work area which cannot be removed from the work area.
26. HEPA Filter: A High Efficiency Particulate Air (HEPA) filter which has a tested and documented efficiency for trapping and retaining a minimum of 99.97% of a 0.3 micrometer (aerodynamic diameter) Dioctylphthalate (DOP) test aerosol.
27. HEPA Vacuum Equipment: Vacuuming equipment with a HEPA filtration system capable of collecting and retaining asbestos fibers.
28. Holding Room: A room between the washroom and clean equipment room in the equipment decontamination enclosure system. The holding room comprises an airlock, and must be maintained in an uncontaminated condition at all times.
29. Movable Object: A unit of equipment or furniture in the work area which can be removed from the work area.
30. Personal Air Monitoring: A method used to determine an individual's exposure to airborne fibers. The sample is collected outside the respirator in the person's breathing zone.
31. Plasticize: To cover floors, walls, ceilings, and other surfaces with plastic sheeting as herein specified.
32. Pre-cleaning: The process of cleaning (decontaminating) all objects, ceilings, walls, and floors of a proposed work area using wet cleaning methods, HEPA vacuuming equipment, etc. before abatement work area preparation activity commences.
33. Protection Factor: The ratio of the ambient airborne concentration of fibers to the airborne concentration of the fibers within the employee respirator face piece.
34. Shower Room: A room between the clean room and the equipment room in the worker decontamination enclosure system equipped with a shower with hot and cold running water controllable at the tap. The shower shall be suitably arranged for complete showering during decontamination with a sufficient supply of soap at all times. The shower room comprises an airlock between the equipment and clean rooms.
35. Static Air Sampling: Air monitoring without the use of fans or air circulating devices.
36. Visible Emissions: Any emissions of particulate material that can be seen without the aid of instruments.
37. Washroom: A room between the work area and holding area in the equipment decontamination enclosure system. The washroom comprises an airlock.
38. Wet Cleaning: The process of eliminating asbestos and particulate contamination from building surfaces and objects by using cloths, mops, or other cleaning tools which have been dampened with amended water, and by afterwards disposing of these cleaning tools as asbestos-contaminated waste.
39. Work Area: Designated area within a work site where an asbestos project occurs which either is contained or to which access is restricted under the NYS DOL ICR.

1.3 SCOPE OF WORK:

A. All work under this contract shall be performed in strict conformance with applicable federal, state and local rules, laws and regulations.

028213-4

B. The specifications are to be used in conjunction with the contract drawings for this project. A copy

of each shall be maintained at the job site at all times.

C. Contractors shall verify all project conditions and material quantities prior to bidding the project.

D. The Contractor shall be responsible for obtaining any Site-Specific Variances needed to complete the abatement work. Provide copy of Variance Petitions to Owner's Representative for review and approval prior to submission to Dept. Of Labor, Engineering Services for processing.

E. The contractor shall furnish all labor, materials, services, employee training, permits, insurance and equipment to remove asbestos and building materials in locations indicated on contract drawings including, but not limited to the following:

101 Park Avenue

1. Remove from the areas indicated on the contract drawings, all asbestos containing flooring materials down to the bare subfloor. Asbestos containing flooring materials include, but are not limited to, linoleum, floor tile and floor tile mastic. Contractor shall remove all layers of flooring and dispose of as asbestos contaminated waste. Removal shall be in compliance with NYS ICR 56-11.7.

2. Remove from the area indicated on the contract drawings, the stainless steel sink with asbestos containing insulation on its bottom in its entirety and dispose of as asbestos contaminated waste. Removal shall be in compliance with NYS ICR 56.

3. Remove from the exterior as indicated on the contract drawings, all asbestos containing transite siding. Contractor shall remove the transite siding in its entirety and thoroughly clean any fasteners remaining on the structure. All removed materials shall be properly disposed of as asbestos contaminated waste. Removal shall be in compliance with NYS ICR 56-11.6.

4. At the areas indicated on the contract drawings, the contractor shall remove the window and frame in its entirety down to the bare substrate. Asbestos containing materials include, but are not limited to; exterior window caulk and window glazing compound. Contractor shall thoroughly scrape the caulk from the rough opening using wet methods to ensure complete removal of the asbestos containing material. All removed materials shall be properly disposed of as asbestos contaminated waste. Removal shall be in compliance with NYS ICR 56-11.6.

5. Remove from the roof areas indicated on the contract drawings, all asbestos containing repair tar/mastic down to its bare substrate. Removal shall be in compliance with NYS ICR 56-11.6

108 Moffat Street

1. Remove from the area indicated on the contract drawings, all asbestos containing transite piping and debris. All removed materials shall be properly disposed of as asbestos contaminated waste. Removal shall be in compliance with NYS ICR 56-11.6.

2. At the areas indicated on the contract drawings, the contractor shall remove the window in its entirety and properly dispose of as asbestos contaminated waste. Asbestos containing window glazing compound is located on the indicated windows. Removal shall be in compliance with NYS ICR 56-11.6.

3. Remove from the roof areas indicated on the contract drawings, all asbestos containing repair tar/mastic down to its bare substrate. Removal shall be in compliance with NYS ICR 56-11.6

028213-5

423 Swan Street

1. Remove from the areas indicated on the contract drawings, all asbestos containing floor tile. Contractor shall remove all layers of floor tile and dispose of as asbestos contaminated waste. Removal shall be in compliance with NYS ICR 56-11.7.

2. Remove from the areas indicated on the contract drawings, all asbestos containing counter mastic in its entirety. Removal shall be in compliance with NYS ICR 56.

3. At the areas indicated on the contract drawings, the contractor shall remove the window or door system in its entirety down to the bare substrate. Contractor shall remove the window and frame in its entirety and/or the door and frame in its entirety including all asbestos containing caulking from around the perimeter of the door and window frames. Contractor

shall thoroughly scrape the caulk from the rough opening using wet methods to ensure complete removal of the asbestos containing material. Removal shall be in compliance with NYS ICR 56-11.6.

4. Remove from the roof areas indicated on the contract drawings, all asbestos containing repair tar/mastic down to its bare substrate. Removal shall be in compliance with NYS ICR 56-11.6

66 East 2nd Street

1. Remove from the areas indicated on the contract drawings, all asbestos containing flooring materials down to the bare subfloor. Asbestos containing flooring materials include, but are not limited to, linoleum and floor tile. Contractor shall remove all layers of flooring and dispose of as asbestos contaminated waste. Removal shall be in compliance with NYS ICR 56-11.7.

2. Remove from the area indicated on the contract drawings, the stainless steel sink with asbestos containing insulation on its bottom in its entirety and dispose of as asbestos contaminated waste. Removal shall be in compliance with NYS ICR 56.

3. Remove from the roof areas indicated on the contract drawings, all asbestos containing repair tar/mastic and adhered caulk down to its bare substrate. Removal shall be in compliance with NYS ICR 56-11.6

1.4 QUALITY ASSURANCE:

A. Contractor shall provide and assure that the quality of work practices and procedures are consistent with the below listed agencies. Contractor shall utilize the latest edition, including all addenda, revisions and supplements for all regulatory agencies codes, etc., including but not limited to:

1. Environmental Protection Agency (EPA).
2. Occupational Safety and Health Administration
3. State of New York codes and laws.
4. All local codes.

1.5 QUALIFICATIONS:

A. The following qualifications must be met by all prospective bidders:

1. Contractor Experience: Contractor shall have completed a minimum of three asbestos abatement projects of similar scope and nature, and hold a valid Asbestos Handling License issued by the Commissioner of the State of New York Department of Labor. Provide project names, locations and Owner Representative's Name and Phone Number. The contractor shall have held and currently hold a valid license for the past three consecutive years.

028213-6

2. Personnel: supervisors, foreman and workers shall have received training in applicable regulations and expertise in safety and environmental protection by participation and successful completion of a workers or contractors/supervisors training course offered by an EPA approved educational institution, and hold an Asbestos Handling Certificate issued by the New York State Department of Labor.

3. Personnel Experience: all personnel including supervisors, foremen, and workers shall be experienced in asbestos abatement work as evidenced through participation in a minimum of three previous projects.

1.6 REGULATIONS:

A. All work under this contract shall be performed in strict accordance with all applicable federal, state, and local regulations, standards, and codes governing asbestos abatement and any other trade work done in conjunction with the abatement including but not limited to those listed in Section 1.7 below.

B. The most recent edition of any relevant regulation, standard, document, or code shall be applicable to the work. Where conflict among the requirements or with these specifications exists, the most stringent requirements are applicable.

C. Copies of all relevant standards, regulations, codes, and other applicable documents and subsequent amendments thereto, listed in this section and including this Specification, shall be

available at the work site in the clean change area of the worker decontamination system.

1.7 SPECIFIC REQUIREMENTS:

A. Occupational Safety and Health Administration (OSHA)

1. OSHA regulations governing asbestos abatement include, but are not limited to:
 - a. Title 29 CFR 1926.1101, occupational exposure to asbestos in construction.
 - b. Title 29 CFR Section 1910.134, general industry standard for respiratory protection.
 - c. Title 29 CFR Section 1910.20, access to employee exposure and medical records.
 - d. Title 29 CFR Section 1910.1200, hazard communication.
 - e. Title 29 CFR Section 1910.145, specifications for accident prevention signs and tags.
 - f. Title 29 CFR Section 1910.95, noise regulation.

B. Environmental Protection Agency (EPA)

1. EPA regulations governing asbestos abatement include, but are not limited to:
 - a. Title 40 CFR Part 61, Subparts A and M, national emission standard for asbestos.
 - b. Title 40 CFR Part 763, asbestos - containing materials in schools, final rule and notice.
 - c. Title 40 CFR Part 763, Subpart G, regulations for asbestos abatement projects.

C. New York State Requirements

1. State regulations governing asbestos abatement include, but are not limited to:
 - a. New York State Department of Environmental Conservation (NYSDEC), Title 6 NYCRR, Part 360 and 364, the New York State hazardous waste management regulations.
 - b. Part 56 of Title 12 of the official compilation of codes, rules and regulations. aka "Code Rule 56".
 - c. Chapter II: Title 10, Part 73 of the New York Code of Rules and Regulations: Asbestos Safety Program Requirements.
 - d. Part 23 of Title 12 of the Official Compilation of Codes, Rules and Regulations.

D. American National Standards Institute (ANSI)

1. ANSI standards governing asbestos abatement include, but are not limited to:

028213-7

- a. fundamentals governing the design and operation of local exhaust systems, Publication 29.2-79.
- b. practices for respiratory protection, Publication Z88.2-80.

E. Compressed Gas Association (CGA)

1. Pamphlet G-7, "Compressed Air for Human Respiration" and Specification G-7.1, "Commodity Specifications for Air."

028213-8

F. Mine Safety and Health Administration (MSHA)

1. Certification of respirators as per 30 CFR Part 11.

G. National Institute for Occupational Safety and Health (NIOSH)

1. NIOSH regulations governing asbestos abatement include, but are not limited to:
 - a. a guide to respiratory protection for the asbestos abatement industry.
 - b. approval of respirators as per 30 CFR PART 11.
 - c. standards for analysis of air samples.

H. American Society for Testing and Materials (ASTM)

1. E 1368-05 Standard Practices for Visual Inspection of Asbestos Abatement Projects.

I. Licenses

1. Contractor shall maintain current licenses as required by applicable state or local jurisdictions for the removal, transportation, disposal, or other regulated activity relative to the work of this Contract.

J. New And Amended Regulations

1. Any and all new or amended federal, state, or local regulations becoming effective during this project and not listed are to be considered as part of this specification. Where copies of standards are needed for proper performance of the work, the Contractor is required to obtain such copies directly from the publication source. Although certain copies of standards

needed for enforcement of the requirements may be required submittals, the Owner reserves the right to require the contractor to submit additional copies of these standards as necessary for enforcement of the requirements.

K. Abbreviations And Names:

1. Where acronyms or abbreviations are used but not identified in specifications or other contract documents they are defined to mean the industry recognized name or trade association, standards generating organization, governing owner or other entity applicable to context of text provision. Refer to "Encyclopedia of Associations," published by Gale Research Co., available in large libraries. The following acronyms or abbreviations as referenced in Contract Documents are defined to mean the associated names. Both names and addresses are subject to change, and are believed to be, but are not assured to be, accurate and up-to-date as of date of Contract Documents:

1.8 NOTICES AND PERMITS:

A. Environmental Protection Agency:

1. At least ten (10) business days prior to beginning work on the asbestos containing materials, Contractor shall prepare and forward a NESHAPS Notification for Demolition and Renovation Activities to the EPA, National Emissions Standards for Hazardous Air Pollutants (NESHAPS) Coordinator, Air Facilities Branch, 26 Federal Plaza, New York, New York 10007; with a copy to the Owner.

2. The notification shall include the following information:

a. Facility Information :Name and Address of Owner/Operator.

b. Name and Address of Abatement Contractor.

c. address and description of the building, including its size and age; amount, in square feet or linear feet, of RACM, friable and non-friable asbestos material to be removed; and the nature of contract work.

d. Scheduled starting and completion dates for removal.

e. Procedures that will be employed to comply with appropriate EPA regulations to accomplish the work under this project.

f. Name and Address of Waste Transporter that will be used to haul/dispose of the removed asbestos waste.

g. Name and Address of waste disposal site where asbestos wastes will be deposited.

B. New York State Division of Safety and Health:

1. At least ten (10) calendar days prior to the start of work, the contractor shall submit written notice to New York State Asbestos Control Bureau, State Office Building Campus, Bldg. 12, Room 161B, Albany, N.Y. 12240, with a copy to the Owner.

2. The notification shall include the following information:

a. Type of Notification (Initial, Renewal, Amended etc.)

b. Name, address and Contractor's License Number of Abatement Contractor.

c. Address and description of the building, including its size, age and current use.

d. Amount, in square feet and/or linear feet, of friable and non friable asbestos material to be removed and the resultant filing fees.

e. The nature of contract work, Variances to be utilized, etc..

f. Scheduled starting and completion dates for removal and whether abatement will be phased.

g. Procedures that will be employed to comply with appropriate federal, state and local regulations to accomplish the work under this project.

h. Name and License No. of 3rd party Air Monitoring Firm

i. Name and ELAP Registration No. of Laboratory performing the analysis of the project air samples.

j. Name and Address of Waste Transporter that will be used to haul/dispose of the removed asbestos waste.

k. Name and Address of waste disposal site where asbestos wastes will be deposited.

C. Building Owner and Occupants:

1. The contractor shall submit to the Owner for review, a draft copy of the written notice to

occupants fifteen days prior to the start of the abatement project. Written notices shall be posted at all entrances to the work area and on 1 floor above and below as required by New York State Department of Labor Code Rule 56, after the Owner's review and approval.

028213-11

1.9 SUBMITTALS:

- A. The Contractor shall submit five (5) separately bound copies of all submittals for approval. A copy of all approved submittals is to be maintained at the work site.
- B. Two (2) copies of each submittal shall be returned to the Contractor with the following notation:
 - 1. Rejected - Revise and Resubmit:
 - a. The Contractor shall make the necessary corrections to the submittal or select alternate removal methods, materials, and/or equipment and resubmit five (5) complete copies.
 - 2. Approved as noted:
 - a. The Contractor may proceed with removal method, materials and/or equipment in accordance with the changes/requirements noted on the submittal. The Contractor shall resubmit two (2) copies of the submittal indicating compliance with notations prior to final payment.
 - 3. Approved:
 - a. The Contractor may proceed with the project and use of removal method, materials and/or equipment.
- C. The Contractor shall not proceed with removal method, materials and/or equipment prior to receipt of approval. Any removal method, material and/or equipment used which are not in compliance with "approved" or "approved as noted" shall be at no cost to the Owner.
- D. The Contractor shall submit to the Owner 15 working days before the start of work:
 - 1. Copies of the NYS Waste Transporter Permit (6 NYCRR part 364) for the entity or entities transporting waste from the Jobsite.
 - 2. Landfill Information and permits where the generated waste will be deposited.
 - 3. Copies of the Contractor's New York State Asbestos Contractor's license.
 - 4. Work Plan – Contractor shall provide detailed abatement work plans for each work area including but not limited to decontamination enclosure location; Negative Air Ventilation Equipment plan as per Section 3.3(C)(1); Site Specific Variance(s).
- E. Documentation that must be maintained on-site as per ICR 56, Subpart 56-3.4(a)(2) – PROJECT RECORD:
 - 1. At all sites where there is an active project, a project record shall be required. The project record shall be maintained on site daily by the Contractor and shall also be available on-site with the building/structure owner or his designated representative. The Project Record shall include the following:
 - a. Copies of licenses of all entities involved with the project;
 - b. Copies of all supervisors and handler certificates;
 - c. Copies of notifications and amendments;
 - d. Copies of all variances, amendments and re-openings being used for the project;
 - e. A copy of the air sample log if the air sampling technician is on site. If the air sampling technician is not on site, a copy of the air sample log shall be supplied within 24 hours of the request to produce a copy there of;
 - f. A copy of all air sampling results, including method of analysis, by date for the entire asbestos project, organized by regulated abatement work area;
 - g. A copy of the project monitor's daily logs during abatement (if a project monitor is used on the project);
 - h. The supervisor's daily log with entry/exit logs organized by date;
 - i. All bulk sample data including all asbestos inspections and surveys completed for affected portions of the building, structure and work site;
- F. Following the completion of abatement activities, the Contractor shall submit the following Project

028213-12

Close-Out Documentation:

1. Work area daily entry/exit logs.
2. Contractor Supervisor's daily activity logs.
3. List of Supervisor/Handler Personnel utilized on the Project and their Asbestos Handling Certificate Number
4. Copies of Project NYSDOL and EPA NESHAP 10 Day Notifications
5. All complete waste shipment records and completed Non Friable Dump tickets/trucking/manifest forms which have been signed and certified by the Landfill's Owner/Manager as having accepted the shipped waste **must be returned directly to the Building Owner.**

a. **NOTE:** Completed Waste Shipment records **MUST** be returned to the Generator (Building Owner) within 35 days of acceptance by the initial waste transporter as per USEPA NESHAP Requirements.

1.10 AIR QUALITY ASSURANCE: (This Section Not Applicable to Exterior Non Friable Abatement Projects)

A. Air monitoring and laboratory analysis shall be provided by an independent firm, which shall be hired by the Owner. The responsibility of required air quality rests with the Contractor.

B. The independent monitoring firm will perform air sampling in work and non-work areas of the building before the start of any contract work to establish the background total fiber concentration. The background total fiber concentration or a total fiber concentration of not more than 0.01 f/cc, whichever is greater, shall not be exceeded outside the work area throughout the duration of the abatement project.

1.11 JOB CONDITIONS:

A. Posting of regulations: Display the following documents in the clean changing area, in public view, for the full duration of the work:

1. OSHA Regulation 1926.1101 Occupational Exposure to Asbestos.
2. EPA 40 CFR, Part 61, Subpart B: National Emission Standard for asbestos, asbestos stripping work practices and disposal of asbestos waste.
3. Industrial Code Rule 56 and any Variances to be used.
4. Instructions for removing injured persons from work area.
5. Post emergency action plan at the work site. This plan shall also include telephone numbers for hospital, doctor and Fire Company.
6. Provide Sign In and Out sheets for all persons entering the work area.
7. All notices and permits as required by NYSDOL ICR #56.

1.12 PRODUCT DELIVERY, STORAGE AND HANDLING:

A. The contractor shall be responsible for the delivery, storage and handling of all materials required to accomplish the work.

B. The contractor shall deliver all materials in the original packages, containers, or bundles bearing the name of the manufacturer and the brand name.

C. The contractor shall store all materials subject to damage off the ground, away from wet or damp surfaces, and under cover sufficient to prevent damage or contamination.

D. Damaged or deteriorated materials shall not be used and shall be removed from the premises at the contractor's expense. Materials that become contaminated with asbestos shall be disposed of in compliance with the provisions of this specification.

028213-13

PART 2 - PRODUCTS AND PROCEDURES

2.1 EMERGENCY PLANNING:

A. Description

1. The Contractor shall prepare an emergency preparedness plan detailing at least the information required in this section and in any applicable federal, state or local regulations.

B. Details of Plan

1. Emergency planning shall be developed prior to abatement initiation and submitted to the

Owner for review under the requirements of section 1.9 of this specification.

2. Emergency procedures shall be in written form and prominently posted in the clean change area and equipment room of the worker decontamination area. Everyone, prior to entering the work area, must read and sign these procedures to acknowledge receipt review and understanding of work site layout, location of emergency exits, and emergency procedures.

3. Emergency planning shall include written notification of police, fire and emergency medical personnel of planned abatement activities, work schedule and layout of work area, particularly barriers that may affect response capabilities.

4. Emergency planning shall include considerations of fire, power failure, explosion, toxic atmospheres, electrical hazards, slips, trips, and falls, confined spaces, spills of releases of hazardous materials and heat related injury. Written procedures shall be developed and employee training in procedures shall be provided.

5. Employees shall be trained in evacuation procedures in the event of work place emergencies.

a. For Non life threatening Situations: Employees injured or otherwise incapacitated shall decontaminate following normal procedures with assistance from fellow workers, if necessary, before exiting the work place to obtain proper medical treatment.

b. For Life threatening Injury or Illness: Worker decontamination shall take least priority. After measures to stabilize the injured worker, he/she shall be removed from the work place and secure proper medical treatment.

6. Telephone numbers of all emergency response personnel shall be prominently posted in the clean area and equipment room, along with the location of the nearest telephone.

2.2 ABATEMENT PRODUCTS:

A. Polyethylene Sheeting

1. Polyethylene sheeting shall be a minimum of 6 mil in thickness, in widths selected to minimize joints.

2. Polyethylene sheeting utilized for worker decontamination enclosure shall be opaque white.

3. All polyethylene sheeting shall be fire retardant/rated.

B. Attachment Materials for Polyethylene: Method of attaching polyethylene sheeting shall be agreed upon in advance by the Contractor and Owner and selected to minimize damage to equipment and surfaces. Method of attachment may include any combination of duct tape or other waterproof tape, furring strips, spray glue, staples, nails, screws, or other effective procedures capable of sealing adjacent sheets of polyethylene and capable of sealing polyethylene to dissimilar finished or unfinished surfaces under both wet and dry conditions (including the use of amended water).

C. Disposal Bags: 6 mil polyethylene, pre-printed with labels as required by OSHA Requirement 29 CFR 1926.1101(k)(8)(iii) or OSHA Requirement 29 CFR 1910.1001(j)(2), shall contain the following information:

DANGER

028213-14

CONTAINS ASBESTOS FIBERS

AVOID CREATING DUST

CANCER AND LUNG DISEASE HAZARD

D. Disposal Drums: metal or fiberboard with locking ring tops, with warning labels as required by OSHA or EPA.

E. Stick-On Labels: consistent with OSHA Requirements (see 29 CFR 1926.1101 (K) (2) for disposal drums.

028213-15

F. Warning Signs: required by OSHA 29 CFR 1910.1001 (j) (1) or 29 CFR 1926.1101(k)(7)(ii)(A) and (B) and shall contain the following information:

DANGER

ASBESTOS

CANCER AND LUNG DISEASE HAZARD

AUTHORIZED PERSONNEL ONLY

RESPIRATORS AND PROTECTIVE CLOTHING ARE REQUIRED IN THIS AREA

G. Glove Bags: minimum 6 mil polyethylene bag for removal of pipe lagging/insulation. Bags shall have long sleeve gloves, a tool pouch, and an opening for water application. Bag shall be labeled with the same label as the disposal bag (see paragraph 2.02 C of this section).

H. Surfactant (Wetting Agent): 50/50 mixture of Polyoxyethylene Ether and Polyoxyethylene Ester, or equivalent, mixed in a proportion of 1 fluid ounce to 5 gallons of water or as specified by manufacturer. (An equivalent surfactant shall be understood to mean a material with a surface tension of 29 dynes/cm as tested in its properly mixed concentration, using ASTM Method D1331-56 "Surface and Interfacial Tension of Solutions of Surface Active Agents"). Where work area temperature may cause freezing of the amended water solution, the addition of Ethylene Glycol in amounts sufficient to prevent freezing is permitted. Encapsulating Agent: provide a bridging type encapsulant specifically designed for application to ACM. Product shall be rated as acceptable for use intended when tested in accordance with draft ASTM proposed Standard E-6.21 Guide or evaluation of encapsulant for friable ACM building materials. All materials used shall have a flame spread of less than 25 when dry (when tested in accordance with ASTM-84).

I. Removal Encapsulant: utilize a penetrating type encapsulant designed specifically for removal of asbestos-containing material.

2.3 GENERAL EQUIPMENT:

A. A sufficient supply of disposable mops, rags, and sponges for work area decontamination shall be available.

B. A sufficient supply of scaffolding, ladders, lifts, and hand tools, (e.g., scrapers, wire cutters, brushes, utility knives, wire saws, etc.) shall be provided as needed.

C. Low pressure or airless sprayers.

D. Rubber dustpans and rubber squeegees.

E. Brushes utilized for removing loose asbestos containing material shall have nylon or fiber bristles, not metal.

F. HEPA filtered vacuum cleaners.

G. Water drain filters: AP-2000 by Creative Innovation or approved equal.

H. Negative pressure machines: shall use centrifugal type fan: HEPA filters shall be closed on all edges with a ridge frame, filters shall be 99.97% effective down to 3 microns; two stage pre-filtration is required. Instrumentation shall include manometer, magnahelic gauge, and safety warning devices.

2.4 PERSONNEL PROTECTION:

028213-16

A. Full body disposable protective clothing, including head, body, and foot covering (unless using footwear as described below) consisting of material impenetrable by asbestos fibers (Tyvek or equivalent) shall be provided to all workers and authorized visitors in sizes adequate to accommodate movement without tearing. Provide a sufficient number for all required changes, for all workers and authorized visitors in the work area.

B. Additional safety equipment (e.g., hard hats meeting the requirements of ANSI Standard Z89.1-1981, eye protection meeting the requirements of ANSI Standard Z87.1-1979, safety shoes meeting the requirements of ANSI Standard Z41.1- 1967, disposable PVC gloves or other work gloves), shall be provided to all workers and authorized visitors.

C. Nonskid footwear shall be provided to all abatement workers. Disposable clothing shall be adequately sealed to the footwear to prevent body contamination.

2.5 TRAINING:

A. All workers shall have current Asbestos Handling Certificates.

B. Supervisory personnel shall be competent people, as defined in 29 CFR 1926.1101, and shall receive training as required in 29 CFR 1926.1101. Additionally, supervisors shall be a certified Contractor/Supervisor under NYSDOL ICR #56 requirements.

2.6 RESPIRATORY PROTECTION:

A. All respiratory protection shall be provided to workers in accordance with the submitted written

respiratory protection program, which includes all items in OSHA 29 CFR 1926.1101 and 1910.134 (B), (D), (E), and (F). This program shall be posted in the clean room of the worker decontamination enclosure system.

B. Workers shall be provided with personally issued, individually identified (marked with waterproof designations) respirators.

C. Respirators shall be selected that meet the following level of protection requirements: The workers will not be exposed to in excess of 0.1 f/cc, 8-Hour TWA.

D. After the installation of the personal decontamination system, full personal protective equipment (PPE) in compliance with current OSHA regulations shall be worn in regulated abatement work areas during all area preparation and abatement activities for all OSHA Class I or Class II asbestos projects. In the absence of a valid Negative Exposure Assessment, the minimum level of acceptable Respiratory Protection shall be the PAPR for Class I work and a ½ Face NAPR for Class II Work. Asbestos Abatement Contractor's respirator selection, filter selection medical surveillance and respiratory training shall be consistent with current OSHA Regulations. Appropriate respiratory protection is also required of authorized visitors in accordance with this Part.

E. Fit Testing

1. Workers must perform positive and negative air pressure fit tests each time a respirator is put on, whenever the respirator design so permits. Powered air-purifying respirators shall be tested for adequate flow as specified by the manufacturer.

2. Workers shall be given a qualitative fit test in accordance with procedures detailed in the OSHA Regulation (29 CFR 1926.1101, Appendix C, Qualitative and Quantitative Fit Testing Procedures) for all respirators to be used on this abatement project. An appropriately administered quantitative fit test may be substituted for the qualitative fit test.

028213-17

3. No one wearing a beard or other facial hair which will reduce the performance of the respirator shall be permitted to don a respirator and enter the work area.

4. Respirator cartridges shall be replaced with new cartridges each time the worker exits the work area. Used cartridges shall be disposed of as asbestos contaminated waste. A sufficient supply of cartridges shall be maintained on site at all times.

2.7 MEDICAL SURVEILLANCE:

A. The Contractor must provide medical surveillance to any employee or agent that may be exposed to asbestos in excess of background levels during any phase of the abatement project. The surveillance and recordkeeping program shall be in accordance with 29 CFR 1926.1101 (M) and (N).

B. Employees shall be given an opportunity to be evaluated by a physician to determine their capability to work safely while breathing through the added resistance of a respirator.

2.8 VISITOR CLOTHING:

A. Authorized visitors shall be provided with suitable protective clothing, headgear, eye protection, and footwear as described herein, whenever they are required to enter the work area.

2.9 PERSONAL AIR MONITORING:

A. Contractor will be responsible for personal air monitoring of workers and short term excursion level testing. Certified copies of the laboratory results shall be provided to the Owner within 24 hours for evaluation and action if required.

B. All personnel samples shall be collected and analyzed according to the OSHA recognized method by the contractor's certified and approved analytical firm. The contractor's laboratory shall be independent of the third party air monitoring firm retained by the Owner and must have the proper certifications and accreditation for analysis by the selected methodology.

PART 3 - EXECUTION

3.1 GENERAL:

A. Secure entire work area to prevent entry of unprotected/unauthorized persons.

B. Cover, isolate, and seal work area walls and floors completely; including fixed equipment, doors, windows, skylights, lighting fixtures, duct openings, and all other openings into work area. Use

polyethylene sheeting and seal edges with polyethylene adhesive tape.

C. Build triple barriers of plastic sheeting at all entrances and exits to the work area so that the area is always closed off by one barrier when workers enter or exit.

D. Establish emergency and fire exits from the work area as part of the written emergency action plan.

E. Locate at the project site the log sheet sign in for all persons entering work area from the beginning to the completion of the final clearance of the abatement project.

3.2 PREPARATION - WORK AREAS:

028213-18

A. The work areas shall be completely isolated from other parts of the building so as to prevent asbestos containing dust or debris from migrating beyond the isolated area. Should the area beyond the work area become contaminated with asbestos-containing dust or debris as a consequence of the work, the Contractor shall immediately notify the Owner and shall be responsible for cleaning, on a daily basis, those areas in accordance with the procedures indicated in paragraphs below. All costs incurred in cleaning, or otherwise decontaminating, nonwork areas and the contents there of shall be borne by the Contractor including, but not limited to air monitoring, project monitoring, Owner labor, consulting service costs and fees. These areas shall be vacated and remain isolated until satisfactory clearance air monitoring results have been achieved.

B. Signs: Caution signs shall be posted at all locations and approaches to a location where airborne concentrations of asbestos may exceed ambient background levels. Signs shall be posted that permit a person to read the sign and take the necessary protective measures to avoid exposure.

C. Utilities: The Contractor will be responsible to provide utilities to the work area. Connection to existing building utilities and services will require written approval of the Owner. All internal building utility connections will be in compliance with NEC, state and local building codes.

1. Electric Power: The Contractor shall shut down and lock out electric power to all work areas. The Contractor shall provide temporary power and lighting, and ensure safe installation of temporary power sources and equipment used where high humidity and/or water shall be sprayed in accordance with all applicable codes. All power to work areas shall be brought in through a ground fault interrupter at the source.

D. Movable Objects: Movable objects within the work area shall be pre-cleaned using HEPA filtered vacuum equipment and/or wet cleaning and such objects shall be removed from the work area to an uncontaminated location. If disposed of as asbestos waste material, cleaning is not required. The Owner shall determine which method is to be utilized.

E. Fixed Objects: Fixed objects, and other items which are to remain within the work area, shall be pre-cleaned using HEPA filtered vacuum equipment and/or wet cleaning. Such objects and items shall be enclosed with two layers of six mil plastic sheeting (minimum) and sealed with tape.

F. Pre-cleaning: The work area shall be cleaned using HEPA filtered vacuum equipment and/or wet cleaning. Methods that raise dust, such as dry sweeping or vacuuming with equipment not equipped with HEPA filters, are prohibited. Asbestos material shall not be disturbed during precleaning.

G. Isolation Barriers - General: Isolation barriers that seal off all openings, including but not limited to windows, doorways, skylights, ducts, grilles, diffusers, and any other penetrations of the area shall be constructed using two layers of a minimum of six mil plastic sheeting sealed with tape. Also, all seams in the system components that pass through the work shall be sealed. Doorways which shall not be used for passage during work shall also be sealed.

1. Isolation Barriers (Hardwalls) - Specific: Separation of the work area from the remaining of the work site by construction of isolation barriers. Walls shall be constructed of wood or metal framing to support barriers in all openings larger than thirty-two square feet, except where any one dimension is one foot or less.

2. Sheathing Thickness: A sheathing material of at least 3/8 inch thickness shall be applied to the work side of the barrier.

H. Sealing of Partitions: Edges of the partition shall be caulked at the floor, ceiling, walls and fixtures to form an airtight seal.

I. Plastic Sheeting: The work area side of the partition shall be covered with a double layer of a minimum of six mil fire resistive plastic sheeting with staggered joints and sealed.

028213-19

J. Plasticizing/Sealing: All floor, wall and ceiling surfaces shall be covered with a minimum of six mil plastic sheeting. The floor shall be plasticized first and its plastic sheeting shall extend up the walls a distance of at least twelve inches on all sides. The walls shall then be plasticized by applying plastic sheeting from ceiling to floor, thus overlapping the floor sheeting by at least twelve inches. This process shall be repeated for the second layer of plastic sheeting for the floor and walls. All seams within a layer shall be separated by a distance of at least six feet and sealed airtight. All seams between layers shall be staggered.

K. Removal of Mounted Objects: After isolation barriers are in place, objects such as light fixtures, ventilation equipment and other items not previously sealed, shall be removed wet cleaned and HEPA vacuumed. Localized HEPA filtered vacuumed equipment shall be used during fixture removal to reduce asbestos disposal.

L. Exits: Emergency and fire exits from the work area shall be maintained or alternate exits shall be established according to all applicable codes.

M. Toilet Facilities: Adequate toilet facilities shall exist either in the clean area of the personal decontamination enclosure or shall be readily accessible to the personal decontamination enclosure.

N. Enclosure Projects: Prior to the placement of isolation barriers, surfaces to be enclosed shall be cleaned using HEPA filtered vacuum equipment and/or wet cleaning.

O. Changing Area (Clean Room):

1. An isolation changing area shall be provided for the purpose of changing into protective clothing. It shall be constructed using fire resistant polyethylene sheeting, at least 6 mil thick, and located such that access to work area shall be from changing area through the shower.

2. Within changing area, provide suitable locker or acceptable substitute, for storage of each worker's street clothing.

3. Visual Barrier: Where work area is immediately adjacent and within view of occupied areas, a visual barrier of opaque polyethylene sheeting at least 6 mil thick shall be provided so that work procedures are not visible to building occupants. Where area adjacent to work area is accessible to public, construct a solid barrier on public side of sheeting to protect sheeting. Barriers shall be constructed with wood or metal studs covered with minimum 3/8" thick hardboard. Where solid barrier is provided, sheeting need not be opaque.

3.3 NEGATIVE AIR PRESSURE SYSTEM - WORK AREAS: (This Section Not Applicable to Exterior, Non Friable Abatement Work Areas)

A. Related Requirements Specified Elsewhere in sections 1 and 2 of this specification.

1. Work area preparation and maintenance.

2. Personnel decontamination enclosure systems and waste pass-out airlock construction.

3. Cleaning up.

B. Provide a negative pressure system for the abatement project areas.

C. Quality Assurance

1. Before start of work, submit a design for the negative air system. Do not begin work until written approval of the system by the Owner is obtained. Include at least the following:

a. the number of machines required plus a spare unit.

b. manufacturers project data on the machines to be used.

c. location of the machines in the work space.

d. description of the methods used to test airflow and pressure differential.

028213-20

2. The system shall maintain a negative pressure of- 0.02 inch of water gauge between the abatement area and the space surrounding the abatement area.

3.4 PRESSURE DIFFERENTIAL METER: (This Section Not Applicable to Exterior, Non Friable Abatement Work Areas)

A. Provide a pressure differential meter (Manometer) for each Class I Abatement work area as required under OSHA 1926.1101((g)(5)(i)(A)(3). Manometric Readings shall be recorded twice per work shift in the Abatement Supervisors Daily Activity Logs.

3.5 SYSTEM OPERATION: (This Section Not Applicable to Exterior, Non Friable Abatement Work Areas)

A. A sufficient quantity of negative pressure ventilation units equipped with HEPA filtration will be operated in accordance with the following standards.

1. ANSI 29.2-79 (Local Exhaust Ventilation) Requirements.
2. EPA Guidance Document DPA 560/5-83-002 guidance for controlling friable asbestos containing materials in buildings, Appendix F: Recommended specifications and operation procedures for the use of negative pressure systems for asbestos abatement.

B. To calculate total air flow requirement:

TOTAL FT

³
/MIN =

VOLUME OF WORK AREA (IN FT

³
)

MINUTES

C. To calculate the number of units needed for the abatement:

NUMBER OF UNITS NEEDED

=

TOTAL FT

³
/MIN

CAPACITY OF UNIT IN FT

³
/MIN

D. If air supplied respirators are utilized, estimate the volume of supplied air and add to work place air volume when calculating ventilation requirements.

E. Provide sufficient number of spare HEPA filtration units to maintain a minimum of two air changes per hour in case of unit failure. At least one spare unit must be provided for every five units utilized during the work.

F. Filters shall be changed as dictated by the job conditions. Used filters shall be disposed of as asbestos contaminated waste. A sufficient supply of new and unused filters shall be maintained at all times.

G. For small enclosures and glove bags, a HEPA filtered vacuum system may be utilized to provide negative air pressure.

H. Air shall flow in through the decontamination chamber and waste exit ports, and exit through the negative air filtration unit by means of a flexible duct leading outside the building.

I. Test the system for a minimum of 24 hours before any ACM is removed to ensure the proper negative pressure is maintained.

J. Install and maintain continuous operation of pressure differential meter. If pressure differential drops below -0.01 inch of water gauge, stop work until proper negative pressure is restored.

028213-21

K. Negative pressure units will be started before removal work begins and be in continuous operation until the area is ready for clearance air monitoring.

L. Do not shut off units at the end of work shift.

M. In case of power failure, the work site will be evacuated and all openings sealed until power is restored and the pressure differential is restored.

N. During clearance air monitoring, the negative air pressure equipment shall be operated at a maximum of two air changes per hour.

3.6 WORKER DECONTAMINATION SYSTEM:

- A. Provide a minimum of three totally enclosed chambers, lined with minimum of two layers of 6 mil thick polyethylene sheeting.
- B. Provide an equipment area for storage of equipment (tools, boots, etc.) to be reused in the abatement work and for removal of disposable clothing. Equipment area shall have two curtained airlocks, one leading to work area and one leading to shower area. A minimum of 6' shall be maintained between airlocks.
- C. Provide a shower area containing at least one shower for every six employees with hot and cold water supply controllable at the tap and with waste drainage piped through filters that meet applicable federal, state and local rules, laws and regulations; specifically NESHAP regulations. Contractor is responsible for providing hot water.
- D. Provide a changing area with suitable lockers, or other storage acceptable to the Owner, for storage of each worker's, or authorized visitor's street clothing, towels, clean disposable clothing for use in work area, and other non contaminated items. Provide two curtained airlocks, one leading to uncontaminated areas and one leading to shower area.
- E. Provide separate facilities for each sex.

3.7 EQUIPMENT DECONTAMINATION SYSTEM:

- A. Provide a minimum of two totally enclosed chambers, lined with minimum of two layers of 6 mil thick polyethylene sheeting.
- B. Provide an equipment washroom for cleaning and decontamination of equipment and containers to be removed from work area. Washroom shall have two curtained airlocks, one leading to work area and one leading to holding area. Provide minimum of 6' between airlocks.
- C. Provide a holding area for temporary storage of decontaminated equipment and containers. Holding area shall have two curtained airlocks, one leading to equipment washroom and one leading to uncontaminated areas.

3.8 PERSONNEL PROTECTION PROCEDURES:

- A. Each worker shall be instructed and trained in the hazards of asbestos exposure and in proper use of respirators.
- B. Each worker and authorized visitor shall always wear a respirator, properly fitted on the face, while in the work area until the whole area is completely decontaminated as evidenced by satisfactory final air clearance monitoring results.

028213-22

- C. In order to enter the work area, each worker or authorized visitor, without exception, shall:
 - 1. Demonstrate their certification to enter the abatement work area and sign the entrance log.
 - 2. Remove street clothes in changing area and put on new disposable coveralls, new head covers, new footwear covers, and a clean respirator with fresh filters each time the work area is to be entered. Perform positive and negative field fit test.
 - 3. If non-disposable footwear is to be used, personnel shall proceed to the equipment area and put on non-disposable footwear therein.
- D. Upon leaving the work area, each worker and/or authorized visitor, without exception, shall:
 - 1. Remove gross contamination in work area before entering equipment area. Once inside equipment area, remove disposable coveralls, disposable head covers, and disposable footwear covers or non-disposable footwear before leaving equipment area.
 - 2. Still wearing respirator, proceed to showers. Showering is mandatory. Care must be taken to follow reasonable procedures in removing respirator and filters to avoid breathing asbestos fibers while showering. The following procedures are required:
 - a. Thoroughly wet body from neck down.
 - b. Wet hair as thoroughly as possible without wetting respirator filter.
 - c. Take a deep breath, hold it and/or exhale slowly, complete wetting of hair, thoroughly wetting face, respirator and filter. While still holding breath, remove respirator and hold it away from face before starting to breathe.
 - d. Dispose of wet filter in container provided in shower.
 - e. Shower completely with soap and water.

f. Rinse thoroughly.

g. Shower each time before entering changing area to change into street clothes or into new disposable work items.

3. NOTE: Seriously injured persons may be removed from the work area without following the above decontamination procedure. Follow posted instructions.

4. Workers shall not eat, drink, smoke, chew gum, or tobacco in the work area. To eat, drink, or smoke, workers shall follow procedure described above, then dress in street clothes before entering non work areas of building.

5. Disposable coveralls, head covers, and footwear covers shall be provided to the Owner, air monitoring technician and others as authorized representatives of the project manager or Owner who may inspect the job site; approximately four complete outfits per day.

6. Personal Air Monitoring: Contractor will be responsible for personal air monitoring of workers, and providing results to the Owner within 24 hours for necessary actions that may be required.

3.9 EQUIPMENT REMOVAL PROCEDURES:

A. All equipment and containers in the work area shall remain in the work area until daily completion of asbestos removal activities. When daily abatement work is completed, equipment and containers shall be removed as follows:

1. While still in work area, clean all external surfaces of equipment and containers by wet sponging or HEPA vacuum.

2. After gross decontamination in work areas, move equipment and containers into airlock, then into equipment room for complete decontamination. Workers shall not cross airlock.

3. When decontamination in equipment wash room is complete, move cleaned equipment and containers into airlock, then into holding area. Do not exit holding area to uncontaminated areas directly; return to work area and exit through worker decontamination system.

4. Periodically, workers dressed in clean disposable coveralls shall enter the holding area from uncontaminated areas to remove clean equipment and containers. Do not enter equipment wash room when removing equipment and containers.

3.10 ASBESTOS REMOVAL (GENERAL):

028213-23

NOTE: CONTRACTOR IS RESPONSIBLE FOR VERIFYING QUANTITIES AND LOCATION OF ASBESTOS MATERIALS.

A. Apply a fine spray of amended water to the asbestos before removal. Saturate the asbestos sufficiently to prevent emission of airborne fibers in excess of the exposure limits prescribed of OSHA standards.

B. Remove the asbestos in small sections. Perform the work with two-person teams. Use staging platforms if necessary.

1. Large components and sharp-edged components shall be removed from the work area and sealed airtight in fiber drums prior to disposal in dumpsters. Dispose in accordance with USEPA and NYSDEC requirements.

C. While the removed asbestos is still moist, place it into plastic bags (6 mil minimum). Do not remove more asbestos than can be bagged immediately, to prevent drying. Seal each bag.

1. Frequency for Containerizing. Cleanup of accumulations of loose asbestos material shall be performed whenever enough loose asbestos material has been removed to fill a single leak tight container of the type commensurate with the material properties. In no case shall cleanup be performed less than once prior to the close of each working day. Asbestos material shall be kept wet until cleaned up.

2. Frequency for Cleaning of Dust. Accumulations of dust shall be cleaned off all surfaces on a daily basis using HEPA vacuum and/or wet cleaning methods.

3. Frequency for Cleaning of Enclosures. Decontamination enclosures shall be HEPA vacuumed and/or wet cleaned at the end of each shift.

4. Cleanup Tools and Equipment. Accumulations of asbestos waste material shall be containerized utilizing HEPA vacuums or rubber or plastic dustpans, squeegees or shovels.

Metal shovels shall not be used to pick up or move waste.

D. Remove sealed bags to load out area, wipe the bags off and place in second disposal bag. Seal outer bag, wet wipe exterior of second bag before loading.

028213-24

3.11 ACM PACKAGING:

A. Asbestos containing materials which are stripped away, or otherwise removed, shall be packed while still wet, into six mil plastic bags. The bags shall be sealed, prepared and placed in the container for transport. The outside of all bags shall be cleaned before leaving work area.

Periodic clean up and bagging of removed materials, while still wet, and used coveralls, headcover, etc., shall be done to prevent accumulation of such material on the floor covering

Contractor shall limit traffic in the area which may cause excessive airborne concentrations of the fibers. Stripped material shall be sprayed as necessary to keep it wet until clean up.

B. Bags shall be in accordance with section 2.02 C and all other applicable rules, laws and regulations.

C. Bags, drums, or other containers shall be removed from the work area in accordance with Section 3.09 "Equipment Removal Procedures".

3.12 FINAL ABATEMENT CLEAN-UP:

A. Remove visible accumulations of materials and debris. Wet clean all surfaces within the work area and within worker/equipment decontamination enclosure system. Sealed drums, bags, and all equipment used in the work area shall be included in the clean up and shall be removed from work area areas, via the equipment decontamination enclosure system, at an appropriate time in the cleaning sequence.

1. Frequency for Containerizing. Cleanup of accumulations of loose asbestos material shall be performed whenever enough loose asbestos material has been removed to fill a single leak tight container of the type commensurate with the material properties. In no case shall cleanup be performed less than once prior to the close of each working day. Asbestos material shall be kept wet until cleaned up.

2. Frequency for Cleaning of Dust. Accumulations of dust shall be cleaned off all surfaces on a daily basis using HEPA vacuum and/or wet cleaning methods.

3. Frequency for Cleaning of Enclosures. Decontamination enclosures shall be HEPA vacuumed and/or wet cleaned at the end of each shift.

4. Clean-Up Tools and Equipment. Accumulations of asbestos waste material shall be containerized using HEPA vacuums or rubber or plastic dustpans, squeegees or shovels. Metal shovels shall not be used to pick up or move waste.

5. First Cleaning. All surfaces in the work area shall be first wet cleaned using rags, mops and sponges. To pick up excess liquid and wet debris, a wet-purpose HEPA vacuum may be used and shall be decontaminated prior to removal from the work area.

B. Remove the top layer of plastic sheeting from the floor and wall, dispose of as asbestos contaminated waste. The first layer shall be left in place. The windows, doors, and HVAC vents shall remain sealed and the HEPA filtered negative air pressure systems, air filtration, and decontamination enclosure systems shall remain in service.

C. Second cleaning and sheeting removal. After the first cleaning, at least twelve hours shall be allowed for asbestos to settle. Thereafter, all objects and surfaces in the work area shall be HEPA vacuumed and/or wet cleaned. The remaining plastic, on walls and floors only, shall then be removed. All windows, doors, HVAC system vents and all other openings shall remain sealed.

D. Contractor shall clean all surfaces with wet wiping and HEPA filtered vacuum equipment, this will include the cleaning of Contractors equipment. After cleaning the work area, wait 12 hours to allow settlement of dust, and again wet clean or clean with HEPA filtered vacuum equipment all surfaces in the work area. After completion of the second cleaning operation, Contractor will perform another complete visual inspection of the work area to ensure that the work area is free

028213-25

of visible debris. Negative pressure ventilation units shall remain in continuous operation during the settling periods and the third cleaning.

1. The visual inspection shall be performed under conditions of adequate lighting provided by the contractor. The work area shall be free of visible debris.

E. When aggressive air sampling demonstrates compliance with the clearance criteria, the worker/equipment decontamination enclosure system, and all window, door, and HVAC vent seals and plastic shall be removed. The area shall be thoroughly wet cleaned, and HEPA vacuumed. A final check shall be carried out to ensure that no dust or debris remains on surfaces as a result of dismantling operations.

F. Repeat the cleaning process as described if either the visual inspection criteria or air monitoring clearance levels are not satisfied.

G. The above air samples, taken under an aggressive sampling technique must show airborne concentrations of total fibers at or below 0.01 fibers per cubic centimeter (f/cc).

H. Apply the lock down/encapsulant in accordance with the manufacturer's instructions to obtain the specified results. Use spray equipment recommended by the manufacturer. Floor and wall plastic (first layer) will be removed and disposed of as contaminated waste. Do not remove seals or plastic around doors, windows, and HVAC vents.

3.13 AIR AND PROJECT MONITORING:

A. Air Sampling and Analysis: Air sampling and analysis shall be conducted in accordance with the requirements of Subpart 56-4 and as detailed in Section 3.14 below. (This Paragraph not Applicable to Exterior, Non Friable Abatement Work Areas)

B. The Owner shall obtain the services of an air monitoring testing laboratory to constantly monitor airborne concentrations of asbestos throughout the course of the abatement project. (This Paragraph not Applicable to Exterior, Non Friable Abatement Work Areas)

C. In accordance with the provisions of Subpart 56-9.1(d)(1), the Owner will obtain the services of a NYS DOL Certified Asbestos Abatement Project Monitor to perform a final visual clearance inspection of all abatement work areas, following the applicable provisions of ASTM Standard E1368, prior to the collection of final air samples.

D. Laboratory services, obtained by the Owner for bulk sampling, area air monitoring, and clearance sampling, are to ensure that contract provisions are met.

E. Results of Owner procured tests will be made available to the contractor. This act shall not be construed as relieving the Contractor of his obligations to provide materials and workmanship in accordance with applicable regulations or the provisions of the contract.

F. The Contractor, at his own expense, shall obtain the testing services of a laboratory that is regularly engaged in personnel sampling as required in 29 CFR Part 1926.1101. It shall not be the same firm that the Owner has hired to conduct air sampling.

G. Laboratory services obtained by the Contractor for personnel sampling shall comply with all applicable regulations.

1. Forward copies of test results to the Owner within 24 hours of sampling.

3.14 QUALITY ASSURANCE: (This Section Not Applicable to Exterior, Non Friable Abatement Work Areas)

028213-26

A. Background Airborne Fiber Counts (Phase I B)

1. The air monitoring firm shall monitor the background fiber counts or those prevalent in the area before work begins by collecting air samples in accordance with the provisions of Code Rule 56, Subparts 56-4 and 56-6.2 and analyzed using the NIOSH 7400 analytical procedure, "A" Counting Rules.

B. Work Area Preparation (Phase II A)

1. The air monitoring firm shall conduct work area preparation air sampling for the full shift on a daily basis in accordance with the provisions of Code Rule 56, Subparts 56-4 and 56-7.1.

C. Work Area Airborne Fiber Counts (Phase II B)

1. The air monitoring firm shall monitor airborne fiber counts outside of the work area during the progress of work for the full work shift in accordance with the provisions of Code Rule 56, Subparts 56-4 and 56-8.1.

D. Work Area Clearance (Phase II C)

1. To determine if the elevated airborne fiber counts encountered during the abatement operations have been reduced to an acceptable level, the air monitoring firm will sample and analyze air as per this section using Phase Contrast Microscopy (PCM) in accordance with the NIOSH 7400 Methodology, "A" Counting Rules. All work areas shall be cleared in accordance with NYS ICR 56, Subpart 56-4.11.

E. The air monitoring firm will be conducting air monitoring throughout the course of the project.

F. Fibers Counted

1. PCM: "Airborne Fibers" referred to above include all fibers regardless of composition as counted in the NIOSH 7400 procedure.

G. The laboratory utilized for analyzing air samples shall be successful participants in the AIHA Proficiency Analytical Testing (PAT) Program for Asbestos Analysis and be accredited for asbestos work by New York State DOH and DOL.

3.15 RESPONSIBILITIES AND DUTIES OF CONTRACTOR:

A. To facilitate testing services, the Contractor shall:

1. Advise the Owner and the testing agency sufficiently in advance of operations to allow for completion of tests and for the assignment of personnel.

2. Ensure the cooperation of the employees and superintendent with the air sampling technician.

3. The Contractor shall hold harmless the Building Owner, Construction Manager and Project Monitor for New York State Department of Labor, EPA and OSHA fines and fees resultant from activities of the Contractor. The Contractor shall be 100% responsible for all regulatory compliance. When other parties such as the Project Monitor, Owner and/or Construction Manager are fined, levied or otherwise caused monetary loss due to the Contractor's action and/or lack of action, said Contractor shall reimburse the entire loss to the affected party. The actual reimbursement shall occur within 30 days of the fine being levied. The failure of the Owner, Project Monitor and/or Construction Manager to enforce the Contractor's regulatory compliance shall in no way relieve the Contractor of responsibility for maintaining such regulatory compliance, or for the reimbursement of fines resulting from their noncompliance. The Contractor shall authorize that money may be withheld from the contract sum in sufficient quantity to reimburse the affected party.

3.16 ANALYTICAL METHODS:

028213-27

A. The following methods may be used by the testing laboratory in analyzing filters used to collect air samples.

1. Cellulose Ester filters will be analyzed using the NIOSH 7400 Method accounting rules.
or

2. Polycarbonate filters with a pore size less than or equal to 0.4 microns or mixed cellulose ester having a pore size less than or equal to 0.45 microns will be analyzed using the method defined in 40 CFR Part 763, Appendix A to Subpart E.

3.17 ADDITIONAL TESTING:

A. The Contractor may conduct its own area air monitoring and laboratory testing. If it elects to do this, the cost shall be included in the contract price(s).

B. If it is necessary to re-sample work areas for clearance testing because the area does not meet the clearance standards, the abatement contractor shall incur all costs for this additional sampling and lab analysis.

3.18 DISPOSAL OF ASBESTOS MATERIAL AND RELATED DEBRIS (GENERAL):

A. Properly containerized waste must be transported by a licensed hauler and shipped to an approved landfill. Waste manifests must show chain of custody. Provide one copy of the waste manifests to the Owner.

B. All contaminated waste shall be carefully loaded on trucks or other appropriate vehicles for transport. Before and during transport, care shall be exercised to insure that no unauthorized persons have access to the material.

C. Transporters of the waste are prohibited from "back hauling" any freight after the disposition of

the Owner's waste stream until decontamination of the vehicle and/or trailer is assured.

3.19 WASTE MANAGEMENT AND DISPOSAL (SPECIFIC):

A. The Contractor shall be responsible for all packaging, labeling, transport, disposal and recordkeeping associated with asbestos containing waste in accordance with all federal, state and local regulations.

B. The Contractor shall be responsible to remove all non ACM debris, rubbish and other materials to be disposed of as non ACM waste resulting from operations produced on the job site and dispose of it in accordance with all state and local regulations.

C. All asbestos containing materials will be sufficiently wet to prevent any visible emission of dust into the air. The Contractor shall examine the asbestos containing waste material at a minimum every 24 hour period to assure that containers and packaging has not been damaged. If packaging has been damaged, materials will be wetted and repackaged.

D. The Contractor shall ensure that the person transporting the waste holds a valid permit issued in accordance with appropriate federal, state, and local regulations.

E. The Contractor shall provide to the transporter at the time of transfer appropriate shipping records as required by the federal, state and local regulations with a copy to the project engineer.

F. Contractor shall maintain proper follow up procedures to assure that waste materials have been received by the designated waste site in a timely manner and in accordance with all federal, state and local regulations.

028213-28

G. The Contractor shall assure that disposal of ACM is at a landfill approved to accept asbestos containing waste and shall provide to the Owner, a fully executed waste shipment record signed by the landfill's owner as having accepted the shipped waste.

AGREEMENT BETWEEN CITY OF DUNKIRK

AND

FOR OF ASBESTOS ABATEMENT AT

Street
(SECTION _____, BLOCK __, LOT __)

This Contract made this _____ day of _____, 20__ by and between the **CITY OF DUNKIRK, NEW YORK**, a municipal corporation hereinafter referred to as "**City**", and _____ hereinafter called "**Contractor**".

WITNESSETH:

WHEREAS, the property located at _____ Street is required to have the identified asbestos removed, and

WHEREAS, it has been determined that such structure is a danger to the health, safety and welfare of the public and the asbestos should be removed prior to demolition, and

WHEREAS, _____, has agreed to perform the removal of the asbestos, now, therefore,

FOR GOOD AND VALUABLE CONSIDERATION, the parties do hereby agree as follows:

1. The Contractor shall remove the asbestos identified in the asbestos survey at the structure at _____, Dunkirk, New York.
2. The Contractor shall:
 - a. Provide documentation satisfying the regulations of the Department of Labor and regulations of the City of Dunkirk. All services shall comply with NYSDOL ICR #56.
 - b. Provide a Certificate of Insurance of proper coverage as required by the city on the attached City of Dunkirk Standard Insurance Certificate together with such other insurance, including but not limited to, Workers' Compensation Insurance, Disability Insurance as required by law.

- c. Provide adequate barrier fencing and signage and take all necessary precautions for the protection of the work and the safety of the public.
- d. Federal Davis-Bacon and New York State Department of Labor wage rates shall apply under this contract. Wage rates may be obtained at the following web sites <http://www.labor.state.ny.us> and <http://www.gpo.gov/davisbacon>. The Contractor shall pay the higher hourly rate of the two. Contractors are required to submit certified payroll reports for all work under this contract. Federal wage rates and payroll report may be obtained on-line at <http://www.dol.gov/esa> (Forms – WH-347).
- e. The Contractor shall be responsible for all traffic control and shall properly barricade the area to insure the public safety during work.
- f. Performance of the covenants of this contract by the Contractor shall be to the satisfaction of the Building Inspector.
- g. The Contractor shall comply with all Federal, State and Local laws, rules and regulations applicable hereto.
- h. The City shall pay the Contractor the total sum of **\$0000.00** () upon completion of all work hereunder and upon certification thereto by the Building Inspector.

3. The Contractor shall hold City harmless from all claims arising out of the operations hereunder.

a. It is mutually agreed that Contractor is an independent contractor and not an employee, agent or servant of the City.

IN WITNESS WHEREOF, the parties have caused this agreement to be executed the day and year first above written.

ADDITIONAL TERMS AND CONDITIONS

1. **Payment.** Payment shall be made upon submission by Vendor to City of a properly executed and itemized City claim voucher in form and content approved by the City Department Head or the Department Head's authorized subordinate, and accompanied by such fiscal records and documentation as may be reasonably requested.
2. **Termination.** This Agreement can be terminated immediately in the event Vendor fails to comply with sections 4, 5, 6, and 8 hereof.
3. **Guarantee.** The Vendor shall fully guarantee the quality and workmanship of the services or goods provided, and shall represent and warrant that such goods or services meet or exceed all applicable industry standards.
4. **Insurance.** The Vendor shall secure and maintain in full force and effect liability and casualty insurance of at least \$1 million or such other liability coverage as accepted by the City Law Department. Unless City otherwise agrees in writing, the City shall be named as additional insured for purposes of coverage but not for payment of premium. Vendor shall file a copy of its certificate of insurance with the City Clerk prior to performing this Agreement or receiving any payment thereunder. All certificates of insurance shall provide that the City be given at least thirty (30) days advance written notice of any intent to cancel coverage.
5. **Statutory Compliance.** The Vendor shall perform in accordance with all federal, state and local laws, rules and regulations, including without limitation any applicable provisions of Article 8 of the Labor Law of the State of New York. All statutory provisions applicable to this Agreement are hereby incorporated by reference. Vendor shall provide at their expense all permits or licenses for the performance of this Agreement, and shall be solely responsible for paying any fines or penalties incurred as a result of any improper services.
6. **Non-discrimination.** The Vendor will not discriminate or permit discrimination against any individual or group on the grounds of age, race, creed, color, national origin, sex, religion, disability or marital status.
7. **Records.** The Vendor shall prepare and maintain in an orderly manner all relevant records and documents relating to the goods or services provided hereunder. All books and records of the Vendor shall be available upon request for inspection and/or audit by the City during the term hereof and for a period of three (3) years thereafter.
8. **Assignment.** The Vendor shall not assign, transfer, convey, sublet or otherwise dispose of this Agreement or any right, title or interest therein, or the power to execute this Agreement, without the prior written consent of the City.
9. **Amendments.** No waiver, modification or amendment of this Agreement or any part thereof shall be valid unless in writing and duly executed by both parties. A waiver of any breach hereof shall not prevent forfeiture for any succeeding breach.

10. Entire Agreement. This Agreement, including all documents regarding the City's participation with the Chautauqua County Land Bank Corporation and the Office of the Attorney General's Community Revitalization initiatives, including any attachments, exhibits and annenda, contains the sole and entire agreement between the parties and shall supersede any and all other agreements between the parties relating to the services provided hereunder. Any other statements or representations made by either party are void and have no force or effect.

11. Iran Divestment Act. By submission of this bid, each bidder and each person signing on behalf of any bidder certifies, and in the case of a joint bid each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each bidder is not on the list created pursuant to paragraph (b) of subdivision 3 of Section 165-a of the State Finance Law.

INSTRUCTIONS FOR CITY OF DUNKIRK STANDARD INSURANCE CERTIFICATE

I. Insurance shall be procured and this certificate delivered before commencement of work or delivery of merchandise or equipment.

CERTIFICATES OF INSURANCE

Shall be made to the "City of Dunkirk, City Attorney, City Hall, 342 Central Avenue, Dunkirk, New York 14048".
 Shall evidence coverage of compliance with all specifications of the contract.
 Shall be executed by an insurance company and/or agency, which is licensed by the Insurance Department of the State of New York. If executed by a broker, a notarized copy of authority to bind or certify coverage must be attached.

The "ACORD" form certificate may be used, providing the following two additional conditions (A and B) are added to the form, verbatim.

ACKNOWLEDGMENT: Insurance companies providing these coverages acknowledge that the named insured is entering into a contract with the City of Dunkirk, in which the named insured agrees to defend, hold harmless and indemnify the City, its officials, employees and volunteers against all claims resulting from work performed, material handled and services rendered. The Contractual Liability coverage evidenced above covers the liability assumed under the City-Contractor Agreement.

CANCELLATION NOTICE: Prior to non-renewal or material change in policy or cancellation of these policies, at least thirty (30) days advance notice shall be given to the City of Dunkirk, City Attorney.

IV. Forward the completed certificate to: "City of Dunkirk, City Attorney, City Hall, 342 Central Avenue, Dunkirk, New York 14048".

Minimum coverage with limits are as follows:

* Coverage requirements may be waived or amounts altered by the City Attorney in appropriate situations.

** Snow removal contracts require evidence of broad form property damage.

*** In the event the concessionaire is required to have a N.Y.S. license to dispense alcoholic beverages, an endorsement for liquor liability is required.

In some circumstances it will be necessary to require alternate coverage and limits which will be defined in the bid specifications, contract, lease or agreement. The alternate coverages and limits should be evidenced on the certificate in lieu of the standards printed above. Coverage requirements may be waived or amounts altered by the City Attorney in appropriate situations.

Appendix A

MWBE REQUIREMENTS

PARTICIPATION OPPORTUNITIES FOR NEW YORK STATE CERTIFIED MWBEs

ESD is required to comply with and implement the provisions of New York State Executive Law Article 15-A and 5 NYCRR Parts 142-144 ("MWBE Regulations") for all State contracts as defined therein, with a value (1) in excess of \$25,000 for labor, services, equipment, materials, or any combination of the foregoing or (2) in excess of \$100,000 for real property renovations and construction.

Approval of funding by ESD, a public benefit corporation of the State of New York, is conditioned upon and subject to the following requirements:

- a) Recipient agrees to fully comply and cooperate with ESD in the implementation of New York State Executive Law Article 15-A. These requirements include contracting opportunities for Minority & Women Owned Business Enterprises (MWBEs).
- b) For purposes of this project, ESD hereby establishes an overall MWBE participation goal requirement of 30% (based on the current availability of qualified certified MWBEs).
- c) Recipient's demonstration of "good faith efforts" pursuant to 5 NYCRR §142.8 shall be a part of these requirements. These provisions shall be deemed supplementary to, and not in lieu of, other applicable federal, state or local laws.
- d) For purposes of providing meaningful participation by MWBEs on the project and achieving the project goals established herein, Recipient should reference the New York State Directory of Certified MWBEs found at the following internet address:

<https://ny.newnycontracts.com>

Additionally, Recipient is encouraged to contact the Office of Contractor and Supplier Diversity at OCS@ESD.NY.GOV to discuss additional methods of maximizing participation by MWBEs on the project.

- e) Recipient is required to submit a MWBE Utilization Plan on Form E4 not later than ten (10) days after the execution of this Incentive Proposal. Any modifications or changes to the MWBE Utilization Plan after the execution of this Incentive Proposal and during the performance of the project must be reported on a revised MWBE Utilization Plan and submitted to ESD.
- f) ESD will review the submitted MWBE Utilization Plan and advise the Recipient of ESD acceptance or issue a notice of deficiency within twenty (20) days of receipt.
- g) If a notice of deficiency is issued, Recipient agrees that it shall respond to the notice of deficiency within seven (7) business days of receipt by submitting to the OFFICE OF CONTRACTOR AND SUPPLIER DIVERSITY, EMPIRE STATE DEVELOPMENT, 633 THIRD AVENUE, 33RD FLOOR, NEW YORK, NY 10017, 212-803-3226 (ph), 212-803-3223 (fax), a written remedy in response to the notice of deficiency. If the written remedy that is submitted is not timely or is found by ESD to be inadequate, ESD shall notify the Recipient and direct the Recipient to submit, within five (5) business days, a request for a partial or total waiver of MWBE

participation goals on Form E5. Failure to file the waiver form in a timely manner may result in a finding that Recipient has intentionally or willfully failed to comply with the requirements of Article 15-A of the Executive Law and the MWBE provisions outlined herein.

- h) ESD may find that Recipient has willfully or intentionally failed to meet the MWBE project requirements under the following circumstances:
1. If a Recipient fails to submit a MWBE Utilization Plan;
 2. If a Recipient fails to submit a written remedy to a notice of deficiency;
 3. If a Recipient fails to submit a request for waiver; or
 4. If ESD determines that the Recipient has failed to document good faith efforts.
- i) Recipient shall attempt to utilize, in good faith, any MBE or WBE identified within its MWBE Utilization Plan, during the performance of the project. Requests for a partial or total waiver of established goal requirements made subsequent to the execution of the Incentive Proposal may be made at any time during the term of the project to ESD, but must be made no later than prior to the submission of a request for final payment on the project.
- j) Recipient is required to submit a Quarterly M/WBE Contractor Compliance & Payment Report on Form E6 to the EMPIRE STATE DEVELOPMENT, 633 THIRD AVENUE, 33RD FLOOR, NEW YORK, NY 10017, 212-803-3244 (ph), 212-803-3223 (fax), by the 10th day following each end of quarter over the term of the project documenting the progress made toward achievement of the MWBE project goals.
- k) Where MWBE goals have been established herein, pursuant to 5 NYCRR §142.8, Recipient must document "good faith efforts" to provide meaningful participation by MWBEs as subcontractors or suppliers in the performance of the project. The Recipient acknowledges that if Recipient is found to have willfully and intentionally failed to comply with the MWBE participation goals and requirements set forth herein, such a finding may result in the recapture of grant proceeds. Such MWBE Recapture shall be calculated as an amount equaling the difference between: (1) all sums identified for payment to MWBEs had the Recipient achieved the MWBE project goals; and (2) all sums actually paid to MWBEs for work performed or materials supplied under the project.

5 NYCRR §142.8 - Contractor's Good Faith Efforts

- (a) The contractor must document its good faith efforts toward meeting certified minority and women-owned business enterprise utilization plans by providing, at a minimum:
 - (1) Copies of its solicitations of certified minority and women-owned business enterprises and any responses thereto;
 - (2) If responses to the contractor's solicitations were received, but a certified minority or woman-owned business enterprise was not selected, the specific reasons that such enterprise was not selected;
 - (3) Copies of any advertisements for participation by certified minority and women-owned business enterprises timely published in appropriate general circulation, trade and minority or women-oriented publications, together with the listing(s) and date(s) of the publication of such advertisements;
 - (4) Copies of any solicitations of certified minority and/or women-owned business enterprises listed in the directory of certified businesses;
 - (5) The dates of attendance at any pre-bid, pre-award, or other meetings, if any, scheduled by the State agency awarding the State contract, with certified minority and women-owned business enterprises which the State agency determined were capable of performing the State contract scope of work for the purpose of fulfilling the contract participation goals;
 - (6) Information describing the specific steps undertaken to reasonably structure the contract scope of work for the purpose of subcontracting with, or obtaining supplies from, certified minority and women-owned business enterprises.

- (b) In addition to the information provided by the contractor in paragraph (a) above, the State agency may also consider the following to determine whether the contractor has demonstrated good faith efforts:
 - (1) Whether the contractor submitted an alternative utilization plan consistent with the subcontract or supplier opportunities in the contract;
 - (2) The number of certified minority and women-owned business enterprises in the region listed in the directory of certified businesses that could, in the judgment of the State agency, perform work required by the State contract scope of work;
 - (3) The actions taken by the contractor to contact and assess the ability of certified minority and women-owned business enterprises located outside of the region in which the State contract scope of work is to be performed to participate on the State contract;
 - (4) Whether the contractor provided relevant plans, specifications or terms and conditions to certified minority and women-owned business enterprises sufficiently in advance to enable them to prepare an informed response to a contractor request for participation as a subcontractor or supplier;
 - (5) The terms and conditions of any subcontract or provision of suppliers offered to certified minority or women-owned business enterprises and a comparison of such terms and conditions

Bidding information for Classifications not listed on the Federal wage decision

See page, HUD 1, 7 & 19 of this document for additional classification information.

Bidders may also visit www.access.gpo.gov/davisbacon/wa.html to review Federal wage determinations for listed classifications.

The City of Kennewick HUD office and the Department of Labor will not process requests for additional classifications unless, and until, the contract has been awarded.

This page is located on the U.S. Department of Housing and Urban Development's Homes and Communities Web site at <http://www.hud.gov/local/shared/working/localpo/xsealr5.cfm?STATE=or>.

Preconstruction Conference Worksheet

1. **Contractors Guide to Davis-Bacon** The attached guide fully outlines each step in meeting labor standards responsibilities. First time HUD assisted project contractors will benefit by reading and using this guide to review payrolls.

2. **Summary of Labor Statutes & Rules** An outline of the Davis-Bacon Act, Contractor Work Hours and Safety Standards Act (not applicable on all projects) and the Copeland Act (Anti-Kickback Law) including a summary regarding approved apprenticeship programs is attached.

3. Labor Standards Provisions

These labor standards provisions are a part of the construction contract, and by signing the contract the Prime Contractor agrees to abide by them. Be sure to read carefully and ask for an explanation of any parts you do not understand. All contracts between the Prime Contractor and Subcontractors, or Subcontractors and Lower-tier Subcontractors, must contain these provisions together with a copy of the wage rates.

- HUD Direct Projects (Insured, 202/811)
- CDBG/HOME Projects
- Public/Indian Housing Authority Projects, Sections 47 & 48

4. Wage Decision

All Subcontractors must have a copy of the wage rates as well as the Federal Labor Standards Provisions. These should be a part of all contracts between the Prime Contractor, Subcontractors and Lower-tier Subcontractors.

5. Additional Classifications

Residential wage decisions usually contain only the most commonly used classifications (i.e., Carpenter, Laborer, Electrician, etc.). The criteria for establishing additional classifications and rates are outlined in the attached copy of 29 CFR, Part 5.5(a)(1)(ii). Generally, rates at least equal to the lowest craft rate on the wage decision will be approved for craft additional classifications.

Please submit a signed letter listing additional classifications and rates you will require. Upon review these will be submitted to the U.S. Department of Labor (DOL) for approval. Additional Classification rates are not official until approval is received from DOL. This process takes 30 to 45 days.

6. Subcontractors

The Prime Contractor must furnish a list of all Subcontractors and update it as necessary (form attached). Also attached are guidelines for owner-operator (self-employed) Subcontractors. **All** Subcontractors and Lower-tier Subcontractors must furnish weekly payrolls.

7. Sample Payrolls and Instructions for Completion

A sample WH-347 and WH-348 and two instructional aids for filling out payrolls and the Statement of Compliance forms are attached.

8. Permissible Payroll Deductions

A memorandum outlining permissible deductions is attached. All other deductions are not acceptable unless approved by U.S. DOL. Voluntary deductions (health insurance, retirement, etc) must be documented with the workers written authorization.

9. Authorization To Sign Payrolls

Unless the owner/corporate officer signs payrolls, all contractors must submit a letter stating whom in the firm is authorized to sign the certified payrolls. More than one person in a firm may be authorized. A new form must be submitted when the authorization changes from one individual to another.

10. WH-347 Payroll Form and No Work Performed Statement

All original payrolls are to be submitted within seven days of the reporting period to the Prime Contractor. The Prime Contractor submits all payrolls to the agency representative.

Include full name, address, and social security number on the first payroll on which the employee appears. After that, unless there is an address change, only the name and social security number is necessary.

"Work Classification" must be one that is shown on the wage decision or additional classification form.

Show hourly wage paid, daily and total weekly number of hours worked and allowable deductions (FICA, state taxes) on every payroll. If "other" deduction box is used, be sure to describe the deduction in detail on the face of the payroll. (Refer to previous attachment for allowable deductions and INSTRUCTIONS FOR COMPLETING PAYROLL FORM, WH-347, Column 8 & 9.)

Depending on whether fringe benefits are paid into a third-party trust or in cash, check box "a" or "b" on the back of the form. If a combination of "a" and "b" is used, explain in detail in box "c." If these are not checked, we will assume they are paid in cash.

Payrolls must be submitted weekly as employees must be paid weekly. Payrolls are to be numbered sequentially. Where there are gaps between sequentially numbered payrolls, contractors should either state on the first payroll following such a gap that to the best of his/her knowledge, no employee worked on the project during the gap or submit the attached "No Work Performed" statement for each gap. Indicate "initial" on the first payroll and "final" on the last

one.

The payroll form may be copied with the repeating information (name of project, names and addresses of employees, name of firm, etc.) entered on the "master." All payrolls submitted must have an **original ink** signature. The signature may **not** be copied or stamped.

For computerized payrolls, make sure all data on the WH-347 is shown on the printout. Often, the trades and days and hours worked are entered by hand. Attach a completed WH-348 or the reverse side of the WH-347, to the computer printout.

11. WH-348 Statement of Compliance

This form is identical to the reverse side of the certified payroll (WH-347). If your payrolls are done by computer attach this completed form to the printout. Be sure the printout contains all the required information and that the WH-348 has an original ink signature.

12. Employee Interview Form (HUD-11)

This is the form used by the project inspector to make on-the-job interviews. Interviews are compared to payrolls to ensure they match the payroll data. Please alert employees that they may be interviewed. All interviews are confidential.

13. Poster(s)

Post the attached poster(s) on the job site in a conspicuous place along with the wage rates, including any additional classification rates.

14. Authority Ladder

The Prime Contractor is responsible for reviewing all payrolls before submitting them to the agency representative. Feel free to use this sample as a guide for reviewing payrolls submitted by Subcontractors and Lower-tier Subcontractors. Please try to submit as correct as possible payrolls by requesting corrections from Subcontractors before submitting to the agency representative. This process may delay submittal to the agency representative; however, late, corrected payrolls are better than timely submitted incorrect ones that will have to be returned for correction. *If it becomes apparent to the agency representative that the Prime Contractor is not reviewing payrolls, they may be returned to the Prime Contractor for review and resubmission prior to further scrutiny.*

The agency representative contract is with the Prime Contractor. Therefore, Subcontractors should address the agency representative through the Prime Contractor and Lower-tier Subcontractors should go through the respective Subcontractor with whom they have a contractual agreement. Normally, Subcontractors and Lower-tier Subcontractors should not contact the agency representative directly.

Summary: Davis-Bacon & Related Acts

Davis-Bacon Act

All laborers and mechanics employed by contractors or subcontractors on the project shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the U.S. Secretary of Labor, regardless of contractual relationship. Wages must be paid weekly.

[Print version](#)

[E-mail this to a friend](#)

Contract Work Hours and Safety Standards Act

The wages for every mechanic and laborer employed on the job shall be computed on the basis of a standard workweek of forty hours. Employees shall be compensated at a rate of not less than one and one half times the basic hourly rate of pay for all hours worked in excess of forty hours in the work week (base rate x 1.5 + fringe benefits = overtime rate).

No person employed on the jobsite shall be required to work in surroundings or any other working conditions, which are unsanitary, hazardous or dangerous to the health and safety of an employee as determined by the Construction Safety and Health standards promulgated by the Secretary of the United State Department of Labor.

Liquidated damages for failure to pay overtime shall be computed at the rate of \$10 for each calendar day for each employee who was required or permitted to work in excess of the standard work week of forty hours without payment of the overtime wages.

Copeland Act (Anti-Kickback Law)

Whoever by force, intimidation, or threat of procuring dismissal from employment or by any other manner whatsoever, induces any person employed in the construction, prosecution, completion or repair of any public building, public work or building or work financed in whole or in part by loans or grants from the United States, to give up any part of the compensation to which he is entitled under his contract or employment, shall be fined not more than \$5,000 or imprisoned not more than five years, or both.

Apprentices

Department of Labor recognizes only apprentices registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Manpower Administration, Bureau of Apprenticeship and Training. In Idaho and Alaska, the U.S. D.O.L. does not recognize a State Apprenticeship Agency. The Washington State Apprenticeship Council and Oregon Bureau of Apprenticeship and Training are approved. The Department of Labor does not recognize a "helper" classification, unless it is on the wage determination, nor do they exempt from Davis-Bacon journeyman rates, apprentices reported in excess of a program journeyman/apprentice ratio.

LABOR LAWS AND REGULATIONS AFFECTING HUD PROGRAMS

INTRODUCTION: The following requirements generally embrace all labor programs and laws having some significance for HUD. This includes both those specifically under the aegis of the Office of Labor Relations and those in which primary responsibility may be in some other office of HUD. HUD's duties in the labor field primarily relate to the prevailing wage provisions of Federal housing laws and the community development act.

THE DEPARTMENT OF LABOR

The general coordination of the administration of labor standards laws, both in construction and in other areas, is vested in the Department of Labor. However, Reorganization Plan No. 14 of 1950 makes it clear that a Federal Agency, administering Federal or Federally-Assisted construction, is primarily responsible for enforcement of the pertinent labor provisions. In order to achieve uniform compliance, with specific enforcement responsibilities, the U.S. DOL has promulgated the following regulations:

29 CFR Part 1: deals essentially with the method of determining prevailing rates.

29 CFR Part 3: details the conditions under which deductions from wages are permitted or not permitted. Contractors are also required to file weekly statements showing wages paid and accounting for any deductions made.

29 CFR Part 5: issued pursuant to Plan No. 14 directive. Part 5 includes regulations regarding requests for wage determinations; use and effectiveness of wage determinations; labor standards clauses which must be included in construction contracts; responsibility of Federal agencies (e.g. HUD) for enforcement measures such as the examination of payrolls, investigations, and withholding of funds, if necessary; it further addresses hearings, rulings and interpretations as well as variations, tolerances and exemptions.

29 CFR Part 7: provides for appeals to the Department of Labor's Wage Appeals Board as to questions concerning both law and fact arising from decisions of the Solicitor of Labor regarding wage determinations, debarment, and other matters relating to labor standards provisions.

THE WAGE DETERMINATIONS

Based on classifications of construction activity, the Department of Labor conducts mail surveys and on-site visits to determine the wages to be paid to the laborers and mechanics employed on construction of Federally funded projects.

The U.S. DOL classifies standard types of construction activity into building and non-building categories. Generally, these two classifications contain the following types of construction activity:

BUILDING Residential--single family dwelling units and garden type apartments up to, and including, 4 stories;

Non-residential--commercial buildings, hospitals, schools, industry/factories, institutional buildings, or building construction exclusive of residential construction. Buildings, Apartment/residential

buildings of 5, or more, stories in height.

NON-BUILDING Heavy--construction which is other than building or highway; this includes such projects as water and sewer installations, wharves, piers, canals, breakwaters, levees, dredgings, shorings, buoys, tunnels and dams.

Highway--paving and preparation for paving of streets, highways, roads, runways and other paving projects.

There are two basic types of wage determinations issued under the Davis-Bacon Act:

1. A **GENERAL** or **AREA** wage determination refers to a wage rate for a defined type of construction in a specific geographic area and is published in the Federal Register. There is no set expiration date for this determination, so it remains in effect until modified. A general wage determination can be used by a contracting agency without notifying the Department of Labor.

2. A **PROJECT** wage determination refers to a wage rate applicable to a specified construction project which does not have a general wage determination. It is issued only at the request of the Federal contracting agency. Such a determination is submitted on an SF-308 and processing takes from 30 to 45 days.

It is important to note that the use of union labor does not in itself mean compliance with the Davis-Bacon standards. DOL wage scales do not necessarily correspond to the "union wages," also, there are other administrative requirements which also must be considered.

Additional Classifications: If the DOL wage determination does not contain rates for certain classifications, laborers and mechanics to be employed under the contract shall be classified or reclassified by the Regional Labor Relations Officer conformably to the wage determination. If there is no appropriate classification in the schedule, the RLRO shall determine if the classification requested is generally used in the construction industry and the rate requested is prevailing locally. Processing the approval/disapproval of additional classifications also takes from 30 to 45 days. **N.B. the Department of Labor will not process requests for additional classifications unless, and until, the contract has been awarded.**

Applicability

The Project or Program to which the construction work covered by this contract pertains is being assisted by the United States of America and the following Federal Labor Standards Provisions are included in this Contract pursuant to the provisions applicable to such Federal assistance.

A. 1. (i) Minimum Wages. All laborers and mechanics employed or working upon the site of the work, will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR Part 3), the full amount of wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics. Contributions made or costs reasonably anticipated for bona fide fringe benefits under Section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of 29 CFR 5.5(a)(1)(iv); also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs, which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period.

Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in 29 CFR 5.5(a)(4). Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: Provided, That the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classification and wage rates conformed under 29 CFR 5.5(a)(1)(ii) and the Davis-Bacon poster (WH-1321) shall be posted at all times by the contractor and its subcontractors at the site of the work in a prominent and accessible, place where it can be easily seen by the workers.

(ii) (a) Any class of laborers or mechanics which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage determination. HUD shall approve an additional classification and wage rate and fringe benefits therefor only when the following criteria have been met:

(1) The work to be performed by the classification requested is not performed by a classification in the wage determination; and

(2) The classification is utilized in the area by the construction industry; and

(3) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

(b) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and HUD or its designee agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by HUD or its designee to the Administrator of the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, D.C. 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise HUD or its designee or will notify HUD or its designee within the 30-day period that additional time is necessary. (Approved by the Office of Management and Budget under OMB control number 1215-0140.)

(c) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and HUD or its designee do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), HUD or its designee shall refer the questions, including the views of all interested parties and the recommendation of HUD or its designee, to the Administrator for determination. The Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise HUD or its designee or will notify HUD or its designee within the 30-day period that additional time is necessary. (Approved by the Office of Management and Budget under OMB Control Number 1215-0140.)

(d) The wage rate (including fringe benefits where appropriate) determined pursuant to subparagraphs (1)(ii)(b) or (c) of this paragraph, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

(iii) Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.

(iv) If the contractor does not make payments to a trustee or other third person, the contractor may consider as part

of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, Provided, That the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account assets for the meeting of obligations under the plan or program. (Approved by the Office of Management and Budget under OMB Control Number 1215-0140.)

2. Withholding. HUD or its designee shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld from the contractor under this contract or any other Federal contract with the same prime contractor, or any other Federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime contractor so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees and helpers, employed by the contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee or helper, employed or working on the site of the work, all or part of the wages required by the contract, HUD or its designee may, after written notice to the contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased. HUD or its designee may, after written notice to the contractor, disburse such amounts withheld for and on account of the contractor or subcontractor to the respective employees to whom they are due. The Comptroller General shall make such disbursements in the case of direct Davis-Bacon Act contracts.

3. (i) Payrolls and basic records. Payrolls and basic records relating thereto shall be maintained by the contractor during the course of the work preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work. Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in Section 1(b)(2)(B) of the Davis-bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5 (a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in Section 1(b)(2)(B) of the Davis-Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been

communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs. (Approved by the Office of Management and Budget under OMB Control Numbers 1215-0140 and 1215-0017.)

(ii) (a) The contractor shall submit weekly for each week in which any contract work is performed a copy of all payrolls to HUD or its designee if the agency is a party to the contract, but if the agency is not such a party, the contractor will submit the payrolls to the applicant sponsor, or owner, as the case may be, for transmission to HUD or its designee. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under 29 CFR 5.5(a)(3)(i) except that full social security numbers and home addresses shall not be included on weekly transmittals. Instead the payrolls shall only need to include an individually identifying number for each employee (e.g., the last four digits of the employee's social security number). The required weekly payroll information may be submitted in any form desired. Optional Form WH-347 is available for this purpose from the Wage and Hour Division Web site at <http://www.dol.gov/esa/whd/forms/wh347instr.htm> or its successor site. The prime contractor is responsible for the submission of copies of payrolls by all subcontractors. Contractors and subcontractors shall maintain the full social security number and current address of each covered worker, and shall provide them upon request to HUD or its designee if the agency is a party to the contract, but if the agency is not such a party, the contractor will submit the payrolls to the applicant sponsor, or owner, as the case may be, for transmission to HUD or its designee, the contractor, or the Wage and Hour Division of the Department of Labor for purposes of an investigation or audit of compliance with prevailing wage requirements. It is not a violation of this subparagraph for a prime contractor to require a subcontractor to provide addresses and social security numbers to the prime contractor for its own records, without weekly submission to HUD or its designee. (Approved by the Office of Management and Budget under OMB Control Number 1215-0149.)

(b) Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:

(1) That the payroll for the payroll period contains the information required to be provided under 29 CFR 5.5 (a)(3)(ii), the appropriate information is being maintained under 29 CFR 5.5(a)(3)(i), and that such information is correct and complete;

(2) That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in 29 CFR Part 3;

(3) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.

(c) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH-347 shall satisfy the requirement for submission of the "Statement of Compliance" required by subparagraph A.3.(ii)(b).

(d) The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under Section 1001 of Title 18 and Section 231 of Title 31 of the United States Code.

(iii) The contractor or subcontractor shall make the records required under subparagraph A.3.(i) available for inspection, copying, or transcription by authorized representatives of HUD or its designee or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the contractor or subcontractor fails to submit the required records or to make them available, HUD or its designee may, after written notice to the contractor, sponsor, applicant or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR 5.12.

4. Apprentices and Trainees.

(i) **Apprentices.** Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship Training, Employer and Labor Services, or with a State Apprenticeship Agency recognized by the Office, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Office of Apprenticeship Training, Employer and Labor Services or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice. The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who

is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the contractor's or subcontractor's registered program shall be observed. Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination. In the event the Office of Apprenticeship Training, Employer and Labor Services, or a State Apprenticeship Agency recognized by the Office, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(ii) **Trainees.** Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration. The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration. Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by

the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. In the event the Employment and Training Administration withdraws approval of a training program, the contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(iii) **Equal employment opportunity.** The utilization of apprentices, trainees and journeymen under 29 CFR Part 5 shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR Part 30.

5. Compliance with Copeland Act requirements. The contractor shall comply with the requirements of 29 CFR Part 3 which are incorporated by reference in this contract

6. Subcontracts. The contractor or subcontractor will insert in any subcontracts the clauses contained in subparagraphs 1 through 11 in this paragraph A and such other clauses as HUD or its designee may by appropriate instructions require, and a copy of the applicable prevailing wage decision, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in this paragraph.

7. Contract termination; debarment. A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract and for debarment as a contractor and a subcontractor as provided in 29 CFR 5.12.

8. Compliance with Davis-Bacon and Related Act Requirements. All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR Parts 1, 3, and 5 are herein incorporated by reference in this contract

9. Disputes concerning labor standards. Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR Parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and HUD or its designee, the U.S. Department of Labor, or the employees or their representatives.

10. (i) Certification of Eligibility. By entering into this contract the contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of Section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1) or to be

awarded HUD contracts or participate in HUD programs pursuant to 24 CFR Part 24.

(ii) No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of Section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1) or to be awarded HUD contracts or participate in HUD programs pursuant to 24 CFR Part 24.

(iii) The penalty for making false statements is prescribed in the U.S. Criminal Code, 18 U.S.C. 1001. Additionally, U.S. Criminal Code, Section 1 01 0, Title 18, U.S.C., "Federal Housing Administration transactions", provides in part: "Whoever, for the purpose of . . . influencing in any way the action of such Administration..... makes, utters or publishes any statement knowing the same to be false..... shall be fined not more than \$5,000 or imprisoned not more than two years, or both."

11. Complaints, Proceedings, or Testimony by Employees. No laborer or mechanic to whom the wage, salary, or other labor standards provisions of this Contract are applicable shall be discharged or in any other manner discriminated against by the Contractor or any subcontractor because such employee has filed any complaint or instituted or caused to be instituted any proceeding or has testified or is about to testify in any proceeding under or relating to the labor standards applicable under this Contract to his employer.

B. Contract Work Hours and Safety Standards Act. The provisions of this paragraph B are applicable where the amount of the prime contract exceeds \$100,000. As used in this paragraph, the terms "laborers" and "mechanics" include watchmen and guards.

(1) **Overtime requirements.** No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which the individual is employed on such work to work in excess of 40 hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of 40 hours in such workweek.

(2) **Violation; liability for unpaid wages; liquidated damages.** In the event of any violation of the clause set forth in subparagraph (1) of this paragraph, the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in subparagraph (1) of this paragraph, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of 40 hours without payment of the overtime wages required by the clause set forth in subparagraph (1) of this paragraph.

(3) Withholding for unpaid wages and liquidated damages. HUD or its designee shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contract, or any other Federally-assisted contract subject to the Contract Work Hours and Safety Standards Act which is held by the same prime contractor such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in subparagraph (2) of this paragraph.

(4) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in subparagraph (1) through (4) of this paragraph and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in subparagraphs (1) through (4) of this paragraph.

C. Health and Safety. The provisions of this paragraph C are applicable where the amount of the prime contract exceeds \$100,000.

(1) No laborer or mechanic shall be required to work in surroundings or under working conditions which are unsanitary, hazardous, or dangerous to his health and safety as determined under construction safety and health standards promulgated by the Secretary of Labor by regulation.

(2) The Contractor shall comply with all regulations issued by the Secretary of Labor pursuant to Title 29 Part 1926 and failure to comply may result in imposition of sanctions pursuant to the Contract Work Hours and Safety Standards Act, (Public Law 91-54, 83 Stat 96). 40 USC 3701 et seq.

(3) The contractor shall include the provisions of this paragraph in every subcontract so that such provisions will be binding on each subcontractor. The contractor shall take such action with respect to any subcontractor as the Secretary of Housing and Urban Development or the Secretary of Labor shall direct as a means of enforcing such provisions.

**CHECKLIST FOR CONTRACTORS
MEETING LABOR STANDARDS CONTRACT REQUIREMENTS**

I. INTRODUCTION

The following checklist has been prepared to assist Contractors and Subcontractors in meeting contractual labor standards responsibilities. All major administrative and procedural activities have been covered in the sequence they will occur as the construction contract progresses. Careful attention to and use of the checklist should result in a minimum number of problems with respect to labor standards.

II. EXPLANATORY NOTES

The word "employer," as used below, refers to the Prime Contractor, each Subcontractor, or each Lower-tier Subcontractor. Payrolls and other documentary evidence of compliance (marked with an) are required to be sent to HUD, the Block Grant Recipient, or the Housing Authority (depending on the source of funds) for review (all to be submitted through the Prime Contractor). The delivery procedure is as follows:

- A. Each Lower-tier Subcontractor, after careful review, submits required documents to the respective Subcontractor.
- B. Each Subcontractor, after checking his own and those of each Lower-tier Subcontractor he may have, submits required documents to the Prime Contractor.
- C. The Prime Contractor, after reviewing all payrolls and other documentation, including his own, and correcting violations where necessary, submits all to HUD, the Block Grant Recipient, or the Housing Authority.

ALL EMPLOYERS SHOULD CHECK EACH OF THE FOLLOWING STATEMENTS AS BEING TRUE. IF ANY STATEMENT IS NOT TRUE, THE CONTRACTOR OR HIS/HER REPRESENTATIVE SHOULD CONTACT THE PRIME CONTRACTOR WHO WILL CONTACT HUD FOR SPECIAL GUIDANCE.

III. BEFORE CONSTRUCTION BEGINS EACH EMPLOYER HAS:

- A. Not been debarred or otherwise made ineligible to participate in any Federal or Federally-assisted project
- B. Received appropriate contract provisions covering labor standards requirements
- C. Reviewed and understands all labor standards contract provisions
- D. Received the wage decision as part of the contract
- E. Requested through HUD, the Block Grant Recipient, or the Housing Authority and received the minimum wage for each classification to be worked on the project which was not included on the wage decision by the additional classification process and before allowing any such

Checklist for Contractors

trade(s) to work on the project

- F. Requested and received certification of his apprentice program from the State's Bureau of Apprenticeship and Training (recognized by U.S.BAT) and submitted copy thereof to the recipient prior to employment on the project. Likewise, "trainee" program certification from U.S. BAT, if applicable, must be submitted

In Idaho and Alaska, the Department of Labor does not recognize the State's apprenticeship program. Therefore, the apprentice must be registered thru the Department of Labor, Bureau of Apprenticeship and Training only.

IV. AT CONSTRUCTION START, THE CONTRACTOR HAS:

- A. Notified HUD, the Block Grant Recipient, or the Housing Authority of construction start date in writing
- B. Has placed each of the following on a bulletin board prominently located on the project site which can be seen easily by the workers (and replaced if lost or unreadable any time during construction):
 - 1. Wage Decision
 - 2. Notice to Employees poster (WH 1321)
 - 3. Oregon Safety and Health Protection on the Job (DOL)
- C. Before assigning each project worker to work, has obtained worker's name, best mailing address, and Social Security Number (for payroll purposes)
- D. Has obtained a copy of each apprentice's certificate with the apprentice's registration number, percentage of wage to be paid and his year of apprenticeship from the State BAT.

Idaho and Alaska - we cannot accept apprenticeship certifications thru the State's apprenticeship program.

- E. Has informed each worker of:
 - 1. his/her work classification (journeyman or job title) as it will appear on the payroll
 - 2. his/her duties of work
 - 3. the U.S. DOL's requirement on this project that he/she is either a journeyman, apprentice, or laborer. If journeyman, he/she is to be paid journeyman's minimum wage rate or more.

If apprentice, he/she is to be paid not less than the apprentice's rate for the trade based on his year of apprenticeship, OR. If laborer, he/she is to do laborer's work only -- not use any tool or tools of the trade and not perform any part of the journeyman's work and is to be paid the laborer's minimum rate or more

- F. Understands the requirements that each laborer or mechanic who performs work on the

Checklist for Contractors

project in more than one classification within the same work week shall be classified and paid at the highest wage rate applicable to any of the work which he performs unless the following requirements are met:

- 1. Accurate daily time records shall be maintained. These records must show the time worked in each classification and the rate of pay for each classification, and must be signed by the worker
 - 2. The payroll shall show the hours worked in each classification and the wage rate paid for each classification
 - 3. The payroll shall be signed by the worker or a signed copy of the daily time record shall be attached thereto.
- G. Has informed each worker of:
 - 1. his/her hourly wages (not less than the minimum wage rate for his work as stated in the Wage Decision)
 - 2. payment of overtime at the rate of time and one half for all work over 40 hours any work week (see Contract Work Hours and Safety Standards Act)

NOTE: <\$10/day liquidated damages will be assessed by DOL for everyday overtime is worked for each employee, but not paid as per CWHSSA.

- 3. fringe benefits, if any (see Wage Decision for any required), paid in cash or into an approved third party trust
 - 4. permissible deductions from his/her pay and/or any *deductions voluntarily requested in writing from employee
- H. Has informed each worker that he is subject to being interviewed on the job by a HUD, Housing Authority or Grantee Official, Department of Labor, or other U.S. Government inspector, to confirm that his/her employer is complying with all labor requirements
 - I. Has informed each foreman, journeyman and apprentice that the proper journeyman ratio must be observed on the job site at all times when an apprentice is working

V. DURING CONSTRUCTION:

- A. Each employer:
 - 1. has not selected, assigned, paid different pay rates to, transferred, upgraded, demoted, laid off, not dismissed any project worker because of race, color, religion, sex, or national origin
 - 2. has employed all registered apprentices referred to him through normal channels up to the applicable ratio of apprentices to journeyman in each trade used by the employer
 - 3. will maintain basic employment records accessible to inspection by HUD, their designee, or other U.S. government representatives
 - 4. is complying with all health and safety standards

Checklist for Contractors

- o 5. has paid all workers weekly
- o 6. has submitted weekly payrolls prepared on either recommended form WH-347 or on computerized printouts cleared by the HUD office and accompanied by form WH-348, Statement of Compliance.

HUD considers the following project workers exempt from labor requirements and does not require them shown on payrolls:

- o project superintendent
- o project engineer
- o supervisory foreman (performing less than 20% in a classification)
- o messenger
- o clerical workers

VI. FILLING OUT PAYROLLS:

- A. Heading on front of payroll (form WH-347) containing 6 blocks of information:
 - o 1. Name of Employer: Name of employer is stated showing whether contractor or subcontractor
 - o 2. Address: Street address or P.O. Box, City, State, and Zip Code of employer is stated
 - o 3. Payroll Number: Each weekly payroll is numbered in sequential order starting with number 1 and marked "initial" Payroll of employer's final work week on the project is marked "final"
 - o 4. For Week Ending: The last date of work week is stated
 - o 5. Project and Location: Name of project and city in which it is located is stated
 - o 6. Project or Contract Number: Number of project is stated
- B. Body on front of payroll containing nine blocks of information:
 - o 1. Column 1: Worker's name as it appears on his/her pay check is stated

Worker's best mailing address and social security number is stated on payroll number 1 or the payroll which his/her name first appears

If worker's address changes, his/her new address is stated on the next applicable payroll

If any two or more workers have the same name, their social security numbers are included on every payroll for clarification

Checklist for Contractors

- o 2. Column 2: Number of withholding exemptions is for employer's convenience and is not required by HUD to be completed
- o 3. Column 3: A work classification or job title for the worker is included in the Wage Decision and denotes the work the worker actually performed

If the applicable classification is not included in the Wage Decision, the Prime Contractor should request a rate and classification from HUD, the Block Grant Recipient, or the Housing Authority thru the Additional Classification process

If worker is an apprentice, his State BAT or DOL registration documentation is attached to the first payroll in which the employee appears

If worker has performed more than one class of work during the work week, such as carpenter and laborer, the division of work will be shown on separate lines of the payroll

Each class of work performed is stated in separate blocks in Column 3

The breakdown of hours worked daily under each work classification is stated in Column 4 and total for week in Column 5

The applicable wage rate for each classification of work is stated in Column 6

The payroll is signed by the workman in the related blocks or a signed copy of the daily time records are attached to the payroll

If the above is not done, the worker is paid at least the highest minimum wage rate of all the classes of work performed for all hours worked

NOTE: Average pay of two classifications is not accepted. The actual hours each worker uses tools of the trade and each hour he does not must be recorded in separate blocks in Columns 3 to 6 of the payroll.

The work classification of "helper" is not accepted by HUD, unless included in the Wage Decision issued by the Secretary of Labor for the project. Any employee listed as "helper" in absence of such classification in the Wage Decision must be paid the journeyman's rate for hours he uses tools of the trade.

- o 4. Column 4: The top half shows day of week and corresponding date for each day
The bottom half shows separately all (O) overtime hours and (S) straight time hours worked by each employee each day
- o 5. Column 5: Total hours worked during the work week are stated (the sum of subcolumns in Column 4) - straight and overtime hours recorded separately
- o 6. Column 6: Rate of pay is not less than the minimum wage rate for work classification (see Wage Decision) is stated

Checklist for Contractors

Overtime rate of pay is not less than 1 1/2 times the worker's straight hourly rate of pay plus any fringe benefits (see Wage Decision)

If a copy of the apprentice's registration certificate has not been submitted with payrolls, apprentice must be paid journeyman's rate

Piece work must be stated in Column 6 at an hourly rate (the gross pay for the project work week divided by the total number of hours worked on the project during the work week)

- 7. Column 7: Gross amount earned equals straight hours shown in Column 5 times straight rate of pay shown in Column 6, plus overtime hours (if any) shown in Column 5 times overtime rate of pay shown in Column 6
- 8. Column 8: Each deduction made is required by law, voluntarily authorized by the worker in writing before the work week began, or provided in a bargaining agreement to be deducted from the respective worker's pay
- 9. Column 9: Net wages stated in Column 7 minus total deductions shown in Column 8
- **C. Back of Payroll (form WH-347 or form WH-348)**
 - 1. Each employer has completed all blank spaces with an understanding of the penalties for falsification
 - 2. Each employer has checked either 4(a), if fringes are paid to an approved fund or union, **OR** Has checked 4(b), if fringes are paid directly to each affected worker - included in pay check for the work week - his pay check representing at least the pay of applicable minimum wage rate plus the amount of required fringe benefits
 - 3. Each employer has listed any exceptions of fringe benefit payments in 4(c)
 - 4. Each employer has signed in ink the payroll in the block marked signature and has stated his/her title
 - 5. The person signing the payroll is either listed on the Subcontract Agreement as the owner or an officer of the company, **OR** has been designated with a 5282 form, Authorization to Sign Payrolls, to sign company payrolls

VIII. WEEKLY PAYROLL REVIEW

- A. Each employer has promptly reviewed the weekly payroll for compliance with all labor standards requirements (using this checklist) and has made any necessary corrections
- B. Each Lower-tier Subcontractor has submitted his weekly payrolls or accounted for work not performed (as outlined on page 5 in Section VI, Part A(3)) to the respective Subcontractor within 3 calendar days from the last date of the work week
- C. Each Subcontractor has submitted his weekly payrolls or accounted for work not performed

Checklist for Contractors

(as outlined on page 5 in Section VI, Part A(3)) to the Prime Contractor within 5 calendar days from the last date of the work week

Has reviewed any payrolls submitted by any Lower-tier Subcontractor for compliance with labor standards requirements, has requested any necessary corrections and submitted them to the Prime Contractor within 5 calendar days from the last date of the work week

- D. The Prime Contractor has received a weekly payroll or accounting for work not performed (as outlined on page 5 in Section VI, Part A(3)) from each Subcontractor or Lower-tier Subcontractor, has reviewed and requested necessary corrections and has submitted all payrolls, including his own, to HUD, the Block Grant Recipient, or the Housing Authority within 7 work days of the last date of the respective work week

IX. AFTER PROJECT COMPLETION

- A. Each employer will keep all weekly payrolls on the project for 3 years after the Prime Contractor's completion date.

END

Subject: Additional Classification Request (Federal Wage Rate)

Dear Ms. Hughs Evans:

We are requesting an additional classification and wage rate for the (Project name) funded with CDBG/HUD funding. The applicable Davis-Bacon wage decision does not contain the work classification and wage rates needed to complete the construction work.

The work to be performed by the additional classification(s) is not performed by a classification in the applicable Federal wage decision. The proposed classification is utilized in the area by the construction industry. The proposed wage rate(s), including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage decision. The interested parties, including the employees or their authorized representatives, agree on the classification(s) and wage rate(s).

Please request from HUD Labor the following work classification(s) and corresponding hourly basic wage rates and fringe benefit rates (if any) requested:

<u>Work classification(s)</u>	<u>Basic Hourly Wage</u>	<u>Fringe Benefits (if any)</u>
(list)	(list)	(list)

Sincerely,

Name of person making request
Contractor/Sub company name
Address
City, State, Zip Code

Report of Additional Classification and Wage Rate	U.S. Department of Housing and Urban Development Office of Labor Relations	OMB Approval No. 2501-0011 (Exp. 09/30/2006)
--	---	---

Public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining data needed, and completing and reviewing the collection of information. The information is considered non-sensitive and does not require special protection. This information is required to obtain benefits. This agency may not collect this information, and you are not required to complete this form, unless it displays a currently valid OMB control number.

Employers engaged on HUD-assisted construction projects subject to Davis-Bacon wage requirements must pay no less than the wages determined to be prevailing by the Secretary of Labor to all laborers and mechanics engaged on the construction work. On occasion, the applicable Davis-Bacon wage decision does not contain all of the work classifications and wage rates needed to complete the construction work. This information collection facilitates the addition of needed work classifications and wage rates for the construction work involved. This form is used by HUD and local agencies administering HUD programs to report employer request(s) for additional classification and wage rates so that an appropriate wage rate can be approved by the Department of Labor for the construction work. This information collection is required by Department of Labor regulations at 29 CFR 5.5. While no assurances of confidentiality are pledged to respondents, HUD generally discloses these data only in response to a Freedom of Information request.

Instructions

General:

Contractors/Employers: Do not need to complete this form. Submit a written, signed request to the responsible contracting agency naming the work classifications and the wage rates, including any fringe benefits, that are proposed.

Local Agency Staff: Complete items 2 through 10. Submit one copy of this form to the responsible HUD Labor Relations Office with a copy of the applicable Davis-Bacon wage decision and the written request from the employer naming the work classifications and wage rates that are proposed. (The employer's request must be made in writing and must be signed.)

1. For HUD or State CDBG Office use. Enter the name and address of HUD Office (or State CDBG office) submitting the report and to which the DOL reply should be sent.
2. Enter the name and number of the project or contract involved.
3. Enter the location of the project involved: city, county and state.
4. Describe the construction involved, e.g., new construction or rehabilitation, number and type of buildings, number of stories, number of units (as applicable). For example, New construction: 3 - 4-story buildings; 120 units.
5. Enter the character of construction as defined by DOL for Davis-Bacon prevailing wage rate purposes.
6. Enter the number of the Davis-Bacon wage decision applicable to the construction work. Include the number of wage decision modifications (if any) applicable to the work.
7. Enter the effective date of the wage decision for the project. (See DOL regulations at 29 CFR 1.6.)
8. Enter the work classifications and corresponding hourly basic wage rates and fringe benefit rates (if any) requested.
9. Self-explanatory.
10. If the requesting employer is not the prime contractor, enter the name and address of the subcontractor/employer making the request.

Remainder of Form: HUD Labor Relations/State CDBG use.

HUD Labor Relations/State CDBG Staff: Evaluate the employer's request against the criteria for approval (see DOL Regulations, 29 CFR Part 5, and related contract labor standards provisions). The criteria are reflected in "checklist" form to ensure that each factor is considered and to ensure that supporting documentation, including a copy of the applicable wage decision, is attached. Check the box next to each criterion that is met; do not check the box next to any criterion that is not met.

If the request meets all criteria, check the appropriate box, enter the name and telephone number of the HUD/State CDBG agency representative, and sign and date the form. Submit one copy of the completed form to the DOL with a copy of the applicable Davis-Bacon wage decision and the written request from the employer involved.

If the request fails to pass all criteria, check the appropriate box, enter agency contact information, and sign and date the form. Submit one copy of the completed form to the DOL with a copy of the applicable Davis-Bacon wage decision, the written request from the employer involved, and a cover letter explaining how the employer's request failed to meet one or more of the criteria.

Submission of Report

Completed forms shall be sent to: Branch of Construction Wage Determinations, U.S. Department of Labor, 200 Constitution Avenue, NW, Room S-3014, Washington, DC 20210.

**U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT
REPORT OF ADDITIONAL CLASSIFICATION AND RATE**

HUD FORM 4230A

10. SUBCONTRACTOR/EMPLOYER, IF APPLICABLE (name, address)

Check All That Apply:

- The work to be performed by the additional classification(s) is not performed by a classification in the applicable wage decision.
 The proposed classification is utilized in the area by the construction industry.
 The proposed wage rate(s), including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage decision.
 The interested parties, including the employees or their authorized representatives, agree on the classification(s) and wage rate(s).
 Supporting documentation attached, including applicable wage decision.

Check One:

- Approved, meets all criteria. DOL confirmation requested.
 One or more classifications fail to meet all criteria as explained in agency referral. DOL decision requested.

Labor Standards Compliance Requirements

Date: December 2, 1996

(Rev 1) Letter No. LR-96-01

Subject: Labor standards compliance requirements for self-employed laborers and mechanics (aka *Working Subcontractors*)

- I. HUD policy on prevailing wage applicability.**
- II. Compliance and certification parameters.**
- III. Owners of businesses working with their crews.**
- IV. Owner-Operators of power equipment.**
- V. Truck drivers.**

The Federal prevailing wage requirements and compliance standards for self-employed laborers and mechanics (also referred to as "working subcontractors") have long been a confusing and contentious area for the Department of Labor (DOL), HUD, the Internal Revenue Service and contractors and subcontractors.

The following policy represents an effort to provide practical guidance for field application. The guidance more specifically concerns the wage certification requirements for self-employed mechanics and laborers on projects subject to Federal labor standards provisions including Davis-Bacon and HUD-determined maintenance and nonroutine maintenance prevailing wage rate determinations. This policy does not attempt to establish whether working subcontractors are subject to Federal labor standards nor whether such working subcontractors are *bona fide*. The clear meaning of statutory provisions and regulatory definitions does not require further examination of applicability. Additionally, statutory and regulatory language are clear that the question of whether certain self-employed laborers and mechanics are *bona fide* subcontractors is not germane to the issue of prevailing wage standard applicability.

Page 2 Letter No. LR-96-01

I. HUD policy on prevailing wage applicability.

The Davis-Bacon Act (DBA), HUD program Related Acts (DBRA) concerning the payment of prevailing wages as determined by the Secretary of Labor, and the U.S. Housing Act of 1937 concerning the payment of prevailing wage rates established by HUD provide that the wage protections afforded in these statutes apply to laborers and mechanics employed on the covered work. The DBA and DBRA Implementing regulations (29 CFR Part 5) specifically stipulate that these protections are provided **regardless of any contractual relationship which may be alleged to exist** between the contractor and such laborers and mechanics. Additionally, all laborers and mechanics must be paid unconditionally and not less often than once per week. HUD has followed DBA/DBRA prevailing wage parameters in its implementation, administration and enforcement of HUD-determined maintenance and nonroutine maintenance prevailing wage standards. (NOTE: The requirement to pay weekly wages is not applicable to the payment of prevailing routine maintenance wage rates related to laborers and mechanics engaged in the operation of PHA and IHA housing developments.)

Therefore, it is HUD policy that in all cases where laborers and mechanics are employed on Federal prevailing wage-covered construction, maintenance and nonroutine maintenance work, laborers and mechanics shall be entitled to compensation (in the case of Davis-Bacon wages, *weekly* compensation) at wage rates not less than the prevailing rate for the type of work they perform **regardless of any contractual relationship alleged to exist between a contractor or subcontractor and such laborers or mechanics.**

The above policy statement is not a departure from previous HUD directives. The guidance presented below establishes uniform HUD-assisted program contract administration and enforcement parameters for labor standards compliance and prevailing wage certification.

II. Compliance and certification parameters.

HUD policy clearly affords prevailing wage protection for all laborers and mechanics, regardless of contractual relationship. There is no exception to this protection for self-employed laborers or mechanics, including owners of businesses, sole-proprietors, partners, corporate officers, or others. This policy in no way precludes or limits any business or individual from participating in HUD-assisted construction, maintenance, or nonroutine maintenance work. The

Page 3 Letter No. LR-96-01

issue is not one of *eligibility*, whether such persons are permitted to work on HUD-assisted projects, but of compliance standards - what HUD will accept from contractors and subcontractors to demonstrate that proper compliance has been achieved.

In this context, this Letter establishes a HUD administrative policy that laborers and mechanics may not certify to the payment of their **own** prevailing wages **EXCEPT** where the laborer or mechanic is the owner of a business working on the site of the work with his/her own crew. (This exception is described in detail in Paragraph III. Owner-operators of power equipment are discussed in Paragraph IV; Truck drivers are discussed in Paragraph V.)

The most frequent occurrence of self-employed workers on HUD-assisted projects involves mechanic/trade classifications (i.e., not laborer classifications). (For ease of reference, laborers and mechanics in this context are referred to as "mechanics" and include any case involving laborers.) These mechanics may be represented as sole-proprietors, self-employed mechanics, partners, or

Labor Standards Compliance Requirements - HUD

corporate officers - all with no direct employees engaged in the covered work.

Accordingly, HUD, and program participants responsible for labor standards administration and enforcement (e.g., PHAs, IHAs, CDBG recipients), may not accept certified payrolls reporting single or multiple owners (e.g., partners) certifying that they have paid to themselves the prevailing wage for their craft. For example, a sole-proprietor may not submit a payroll reporting himself or herself as simply "Owner" signing the certification as to his/her own wage payment from "draws" or other payment methods. Neither may several mechanics submit a payroll reporting themselves as "partners" with one or more certifying as to the payment of their wages or salaries. Such mechanics must instead be carried on the certified payroll of the contractor or subcontractor (the "responsible employer") for whom they are working and with whom they have executed a "contract" for services.

In these cases, maintenance of an accurate accounting of weekly work hours including any overtime hours for such mechanics is essential. Whatever method of compensation computation is utilized (piecework, weekly contract draw for performance), the amount of weekly compensation divided by the actual hours of work performed for that week must result in an "effective" hourly wage rate for that week that is not less than the prevailing hourly rate for the type of work involved. This computation must take into account overtime pay rates (i.e., one and one half) for all hours worked in excess of 40 hours per

Page 4 Letter No. LR-96-01

week, pursuant to the Contract Work Hours and Safety Standards Act (CWHSSA), where applicable, and pursuant to the Fair Labor Standards Act where CWHSSA is not applicable.

The name, work classification, actual hours of work, effective hourly wage rate, and wage payment for each such mechanic must be reported and certified on the responsible employer's weekly payroll. Note that the effective hourly wage rate for such mechanics may fluctuate from week to week. However, the effective hourly wage rate **may not** be less than the minimum prevailing rate for the respective craft. In any case where the effective rate falls below the corresponding craft prevailing wage rate, the responsible employer must compensate the mechanic at no less than the prevailing rate on the wage determination for that craft.

III. *Owners of businesses working with their crew.*

Owners of businesses working with their crew on the same HUD-assisted job site may certify to the payment of their own prevailing wages in conjunction with the prevailing wages paid to their employees. This exception to reporting standards *does not* suggest that such owners are not likewise entitled to prevailing wages for their labor. Rather, it accepts the wage payment certification on weekly payroll reports by the owner for his/her own wages as that certification *accompanies* the certification offered for the payment of prevailing wages to his/her employees. Such owners need only list their name, work classification including "owner," and the daily and total hours worked. (Such owners *do not* need to list a rate of pay or amounts earned.)

IV. *Owner-operators of power equipment.*

Frequently, *owner-operators of power equipment* (e.g., backhoes, front-end loaders) will contract for services at a rate for both "man and machine." In these cases, the owner-operator includes liability, equipment maintenance, and salary in an hourly or contract rate for services. Because of the prevalence of such practice and the inherent difficulty in ascribing costs for liability and maintenance costs versus hourly *labor* salary, HUD and its program clients may accept a combined ("man and machine") hourly rate on the responsible contractor's certified payroll provided that

Labor Standards Compliance Requirements - HUD

such hourly rate may not be less than the rate on the wage determination for the respective power equipment operator.

Page 5 Letter No. LR-96-01

Note: Owner-operators of power equipment, like self-employed mechanics, may not submit their own payrolls certifying to the payment of their own wages BUT must be carried on the responsible contractor's certified payroll report.

V. *Truck drivers.*

As outlined earlier in this Letter, a DOL administrative policy excludes *bona fide owner-operators of trucks who are independent contractors* from DBRA/CWHSSA provisions concerning their own hours of work and rate(s) of pay. These truck "owner-operators" must be reported on weekly payrolls *but* the payrolls do not need to show the hours worked or rates - only the notation "Owner-operator."

Note that any laborers or mechanics, including truck drivers, employed by the owner-operator/independent contractor are subject to DBRA/CWHSSA provisions in the usual manner.

This policy **does not** pertain to owner-operators of other equipment such as backhoes, bulldozers, cranes and scrapers (i.e., power equipment as noted in paragraph IV, above).

These compliance standards shall take effect immediately. Any exceptions to these standards must be approved in advance in writing by HUD Headquarters Office of Labor Relations.

Any questions concerning this *Letter* may be directed to the Office of Labor Relations at (202)708-0370 or, in the case of HUD program participants, to the HUD Field Labor Relations Staff with jurisdiction for your area.

CONTRACTOR/SUBCONTRACTOR CERTIFICATIONS

(Addendum to Contract Between Contractor and Subcontractor)

DATE: _____ PRIME CONTRACTOR: _____
 PROJECT #: _____ ADDRESS: _____
 PROJECT NAME: _____ DAY PHONE: _____

Contract Provisions & Eligibility

1. The parties, having executed a contract for _____ in the amount of \$ _____ in the construction of the above-identified project acknowledge and agree that:
 - a. The Labor Standards provisions are included in the aforesaid contract;
 - b. The applicable Davis-Bacon wage rates are included in aforesaid contract;
 - c. The addendum to the Contract between Contractor and Subcontractor is part of the contract;
2. The parties certify that:
 - a. Neither they nor any firm, partnership or association in which they have substantial interest is designated as an ineligible contractor by the Comptroller General of the United States pursuant to Section 5.6(b) of the Regulations of the Secretary of Labor, Part 5 (29 CFR Part 5) or pursuant to 3(a) of the Davis-Bacon Act, as amended (40 USC 276a-2(a)).
 - b. No part of the aforementioned contract has been or will be subcontracted to any subcontractor if such subcontractor or any firm, corporation, partnership or association in which such subcontractor has a substantial interest is designated as an ineligible contractor pursuant to any of the aforementioned regulatory or statutory provisions.
3. The contractor agrees to obtain and forward to the aforementioned contractor within ten days after the execution of any subcontract, including those executed by the subcontractor and any lower tier subcontractors, copy of said contract containing fully executed items 1(a), 1(b) and 1(c) listed above.
4. The Subcontractor certifies that:
 - a. The legal name and the business address is:

_____ Employer ID: _____
 _____ License #: _____
 _____ Telephone #: _____

b. The subcontractor is:

<input type="checkbox"/> A single proprietorship	<input type="checkbox"/> A corporation organized and licensed in the State of _____
<input type="checkbox"/> A partnership	<input type="checkbox"/> Other organization (describe) _____

c. The name, title and address of the owner, partners or officers of the subcontractor are (Use additional list if needed):

Name _____ Address _____
 Title _____

Payroll Signature Authorization

Since an owner, partner or corporate officer is not signing the certified payrolls, I, as an owner, partner or corporate officer certify that I have appointed _____, whose signature appears below to supervise the payment of the company's employees beginning (date): _____ and that he/she is in a position to have full knowledge of the facts set forth in the payroll documents and in the statement of compliance required by the so-called Kick-Back Statue which he/she is to execute with my full authority and approval until such time as I submit to the local agency administering the contract a new certificate appointing some other person for the purposes stated above.

Instructions For Completing Payroll Form, WH-347

General: The use of the WH-347 payroll form is not mandatory. This form has been made available for the convenience of contractors and subcontractors required by their Federal or Federally-aided construction-type contracts and subcontracts to submit weekly payrolls. Properly filled out, this form will satisfy the requirements of Regulations, Parts 3 and 5 (29 CFR, Subtitle A), as to payrolls submitted in connection with contracts subject to the Davis-Bacon and related Acts.

This form meets needs resulting from the amendment of Davis-Bacon Act to include fringe benefits provisions. Under this amended law, the contractor is required to pay not less than fringe benefits as predetermined by the Department of Labor, in addition to payment of not less than the predetermined rates. The contractor's obligation to pay fringe benefits may be met either by payment of the fringes to the various plans, funds or programs or by making these payments to the employees as cash in lieu of fringes.

This payroll provides for the contractor's showing on the face of the payroll all monies to the employees, whether as basic rates or as cash in lieu of fringes and provides for the contractor's representation in the statement of compliance on the rear of the payroll that he is paying to other fringes required by the contract and not paid as cash in lieu of fringes. Detailed instructions concerning the preparation of the payroll follow:

Contractor or Subcontractor: Fill in your firm's name and check appropriate box.

Address: Fill in your firm's address.

Column 1 - Name, Address, and Social Security Number of Employee: The employee's full name and Social Security Number must be shown on each weekly payroll submitted. The employee's address must also be shown on the payroll covering the first week in which the employee works on the project. The address need not be shown on subsequent weekly payrolls unless the address changes.

Column 2 - Withholding Exemptions: This column is merely inserted for the employer's convenience and is not a requirement of Regulations, Part 3 and 5.

Column 3 - Work Classifications: List classification descriptive of work actually performed by employees. Consult classification and minimum wage schedule set forth in contract specifications. If additional classifications are deemed necessary, see Contracting Officer or Agency representative. Employee may be shown as having worked in more than one classification provided accurate breakdown or hours so worked is maintained and shown on submitted payroll by use of separate entries.

Column 4 - Hours worked: On all contracts subject to the Contract Work Hours Standard Act enter as overtime hours worked in excess of 8 hours per day and 40 hours a week.

Column 5 - Total: Self-explanatory

Column 6 - Rate of Pay, including Fringe Benefits: In straight time box, list actual hourly rate paid the employee for straight time worked plus in cash in lieu of fringes paid the employee. When recording the straight time hourly rate, any cash paid in lieu of fringes may be shown separately from the basic rate, thus \$3.25/.40. This is of assistance in correctly computing overtime. See "Fringe Benefits" below. In overtime box shown overtime hourly rate paid, plus any cash in lieu of fringes paid the employee. See "Fringe Benefits" below. Payment of not less than time and one-half the basic or regular rate paid is required for overtime under the Contract Work Hours Standard Act of 1962. In addition to paying no less than the predetermined rate for the classification which the employee works, the contractor shall pay to approved plans, funds or programs or shall pay as cash in lieu of fringes amounts predetermined as fringe benefits in the wage decision made part of the contract. See "FRINGE BENEFITS" below.

FRINGE BENEFITS - Contractors who pay all required fringe benefits: A contractor who pays fringe benefits to approved plans, funds, or programs in amounts not less than were determined in the applicable wage decision of the Secretary of labor shall continue to show on the face of the payroll the basic cash hourly rate and overtime rate paid to his employees just as he has always done. Such a contractor shall check paragraph 4(a) of the statement on the reverse of the payroll to indicate that he is also paying to approved plans, funds or programs not less than the amount predetermined as fringe benefits for each craft. Any exceptions shall be noted in section 4(c).

Contractors who pay no fringe benefits: A contractor who pays no fringe benefits shall pay to the employee, and insert in the straight time hourly rate column of the payroll, an amount not less than the predetermined rate for each classification plus the amount of fringe benefits determined for each classification in the applicable wage decision. Inasmuch as it is not necessary to pay time and a half on cash paid in lieu of fringes, the overtime rate shall be not less than the sum of the basic predetermined rate, plus the half time premium on basic or regular rate, plus the required cash in lieu of fringes at the straight time rate. In addition, the contractor shall check paragraph 4(b) of the statement on the reverse of the payroll to indicate that he is paying fringe benefits in cash directly to his employees. Any exceptions shall be noted in Section 4(c).

Use of Section 4(c), Exceptions

Any contractor who is making payment to approved plans, funds, or programs in amounts less than the wage determination requires is obliged to pay the deficiency directly to the employees as cash in lieu of fringes. Any exceptions to Section 4(a) or 4(b), whichever the contractor may check, shall be entered in section 4(c). Enter in the Exception column the craft, and enter in the Explanation column the hourly amount paid the employee as cash in lieu of fringes and the hourly amount paid to plans, funds, or programs as fringes. The contractor shall pay, and shall show that he is paying to each such employee for all hours (unless otherwise provided by applicable determination) worked on Federal or Federally assisted project an amount not less than the predetermined rate plus cash in lieu of fringes as shown in Section 4(c). The rate paid and amount of cash paid in lieu of fringe benefits per hour should be entered in column 6 on the payroll. See paragraph on "Contractors who pay no fringe benefits" for computation of overtime rate.

Column 7 - Gross Amount Earned: Enter gross amount earned on this project. If part of the employees' weekly wage was earned on projects other than the project described on this payroll, enter in column 7 first the amount earned on the Federal or Federally assisted project and then the gross amount earned during the week on all projects, thus \$63.00/\$120.00.

Column 8 - Deductions: Five columns are provided for showing deductions made. If more

than five deduction should be involved, use first 4 columns; show the balance deductions under "Other" column; show actual total under "Total Deductions" column: and in the attachment to the payroll describe the deduction contained in the "Other" column. All deductions must be in accordance with the provisions of the Copeland Act Regulations, 29 CFR, Part 3. If the employee worked on other jobs in addition to this project, show actual deductions from his weekly gross wage, but indicate that deductions are based on his gross wages.

Column 9 - Net Wages Paid for Week: Self-explanatory

Totals - Space has been left at the bottom of the columns so that totals may be shown if the contractor so desires.

Statement Required by Regulations, Parts 3 and 5: While this form need not be notarized, the statement on the back of the payroll is subject to the penalties provided by 18 USV 1001, namely, possible imprisonment of 5 years or \$10,000.00 fine or both. Accordingly, the party signing this statement should have knowledge of the facts represented as true.

Space has been provided between item (1) and (2) of the statement for describing any deductions made. If all deductions made are adequately described in the "Deductions" column above, state "See Deductions column in this payroll." See paragraph entitled "FRINGE BENEFITS" above for instructions concerning filling out paragraph 4 of the statement.

**INSTRUCTIONS FOR PREPARATION OF
STATEMENT OF COMPLIANCE**

This statement of compliance meets needs resulting from the amendment of the Davis-Bacon Act to include fringe benefits provisions. Under this amended law, the contractor is required to pay fringe benefits as predetermined by the Department of Labor, in addition to payment of the minimum rates. The contractor's obligation to pay fringe benefits may be met by payment of the fringes to the various plans, funds, or programs by making these payments to the employees as cash in lieu of fringes.

The contractor should show on the face of his payroll all monies paid to the employees whether as basic rates or as cash in lieu of fringes. The contractor shall represent in the statement of compliance that he is paying to others fringes required by the contract and not paid as cash in lieu of fringes. Detailed instructions follow:

Contractors who pay all required fringe benefits:

A contractor who pays fringe benefits to approved plans, funds, or programs in amounts not less than predetermined in the applicable wage decision of the Secretary of Labor shall continue to show on the face of this payroll the basic cash hourly rate and overtime rate paid to his employees, just as he has always done. Such a contractor shall check paragraph 4(a) of the statement to indicate that he is also paying to approved plans, funds, or programs not less than the amount predetermined as fringe benefits for each craft. Any exception shall be noted in Section 4(c).

Contractors who pay no fringe benefits:

A contractor who pays no fringe benefits shall pay to the employee and insert in the straight time hourly rate column of his payroll an amount not less than the predetermined rate for each classification plus the amount of fringe benefits determined for each classification in the applicable wage decision. Inasmuch as it is not necessary to pay time and a half on cash paid in lieu of fringes, the overtime rate shall be not less than the sum of the basic predetermined rate, plus the half time premium of the basic or regular rate plus the required cash in lieu of fringes at the straight time rate. To simplify computation of overtime, it is suggested that the straight time basic rate and cash in lieu of fringes be separately stated in the hourly rate column, thus \$3.25/.40. In addition, the contractor shall check paragraph 4(b) of the statement to indicate that he is paying fringe benefits in cash directly to his employees. Any exception shall be noted in Section 4(c).

Use of Section 4(c), Exceptions

Any contractor who is making payment to approved plans, funds, or programs in amounts less than the wage determination requires is obligated to pay the deficiency directly to the employees as cash in lieu of fringes. Any exception to Section 4(a) or 4(b), whichever the contractor may check, shall be entered in Section 4(c). Enter in the Exception column the craft and enter in the Explanation column the hourly amount paid the employees as cash in lieu of fringes, and the hourly amount paid to plans, funds, or programs as fringes.

EXHIBIT VIII-T

STATEMENT OF COMPLIANCE, Form WH-348

U.S. DEPARTMENT OF LABOR
WAGE AND HOUR DIVISION

Form Approved
Budget Bureau No. 44-R1093

Date _____

I, _____, _____ do hereby state:
(Name of Signatory Party) (Title)

(1) That I paid or supervised the payment of the person employed by _____
(Contractor or Subcontractor) on the _____
(Building or Work)

during the payroll period commencing on the _____ day of _____
20__ and ending on the _____ day of _____ 20__ all persons employed on said project have
been paid the full weekly wages earned, that no rebates have been or will be made either directly or
indirectly to or on behalf of said

(Contractor or Subcontractor)

person and that no deductions have been made either directly or indirectly from the full wages earned by
any person, other than permissible deductions as defined in Regulations, Part 3 (29 CFR Subtitle A),
issued by the Secretary of Labor under the Copeland Act, as amended (48 Stat. 948.63 Stat. 180, 72
Stat. 967; 76 Stat. 357; 40 U.S.C. 276c), and described below:

(2) That any payrolls otherwise under this contract required to be submitted for the above period are
correct and complete; that the wage rates for laborers or mechanics contained therein are not less than
the applicable wage rates contained in any wage determination incorporated into the contract; that the
classifications set forth therein for each laborer or mechanic conform with the work he performed.

(3) That any apprentices employed in the above period are duly registered in a bona fide apprenticeship
program registered with a State apprenticeship agency recognized by the Bureau of Apprenticeship and
Training, United States Department of Labor, or if no such recognized agency exists in a State, are
registered with the Bureau of Apprenticeship and Training, United States Department of Labor.

EXHIBIT VIII-T, Cont.

(4) That:

(a) WHERE FRINGE BENEFITS ARE PAID TO APPROVED PLANS, FUNDS, OR PROGRAMS

In addition to the basic hourly wage rates paid to each labor or mechanic listed in the above referenced payroll, payments of fringe benefits as listed in the contract have been or will be made to appropriate programs for the benefit of such employees, except as noted in Section 4(c) below.

(b) WHERE FRINGE BENEFITS ARE PAID IN CASH

Each laborer or mechanic listed in the above referenced payroll has been paid as indicated on the payroll, an amount not less than the sum of the applicable basic hourly wage rate plus the amount of the required fringe benefits as listed in the contract, except as noted in Section 4(c) below.

(c) EXCEPTIONS

EXCEPTIONS (CRAFT)	EXPLANATION

REMARKS:

NAME AND TITLE (Typed)

SIGNATURE

THE LAWFUL FALSIFICATION OF ANY OF THE ABOVE STATEMENTS MAY SUBJECT THE CONTRACTOR OR SUBCONTRACTOR TO CIVIL OR CRIMINAL PROSECUTION (SEE SECTION 1001 OF TITLE 16 AND SECTION 231 OF TITLE 31 OF THE UNITED STATES CODE.)

PERMISSIBLE PAYROLL DEDUCTIONS

THE FOLLOWING PAYROLL DEDUCTIONS MAY BE MADE WITHOUT REQUESTING APPROVAL:

- (a) Any deductions made in compliance with the requirements of Federal, State or local law, such as Federal or State withholding income taxes and Federal social security taxes.
- (b) Any deduction of sums previously paid to the employees as a bona fide prepayment of wages when such prepayment is made without discount or interest. A "bona fide prepayment of wages" is considered to have been made only when cash or its equivalent has been advanced to the person employed in such manner as to give the person complete freedom of disposition of the advanced funds.
- (c) Any deduction of amounts required by court process to be paid to another, unless the deduction is in favor of the contractor, subcontractor, or any affiliated person, or when collusion or collaboration exists.
- (d) Any deduction constituting a contribution on behalf of the person employed to funds established by the employer or representatives of employees, or both, for the purpose of providing either from principal or income, or both, medical or hospital care, pensions or annuities on retirement, death benefits, compensation for injuries, illness, accidents, sickness, or disability, or for vacation pay, savings accounts, or similar payments for the benefit of employees, their families and dependents; Provided, however, that the following standards are met:
 - 1. The deduction is not otherwise prohibited by law,
 - 2. It is either (i) voluntarily consented to by the employee in writing and in advance of the period in which the work is to be done and such consent is not a condition either for the obtaining of or for the continuation of employment, or (ii) provided for in a bona fide collective bargaining agreement between the contractor or subcontractor and representatives of its employees.
 - 3. No profit or other benefit is otherwise obtained, directly or indirectly, by the contractor or subcontractor, dividend, or otherwise; and
 - 4. The deduction shall serve the convenience and interest of the employee.
- (e) Any deduction contributing toward the purchase of United States Savings Bonds when voluntarily authorized by the employee.
- (f) Any deduction requested by the employee to enable him/her to repay loans or to purchase shares in credit unions organized and operated in accordance with Federal and State credit union statutes.
- (g) Any deduction voluntarily authorized by the employee for the making of contributions to governmental or quasi-governmental agencies, such as the American Red Cross.
- (h) Any deductions voluntarily authorized by the employee for the making of contributions to Community Chests, United Givers Funds, and similar charitable organizations.
- (i) Any deductions to pay regular union initiation fees and membership dues, not including fines and special assessments. Provided, however, that a collective bargaining agreement between the contractor or subcontractor and representatives of its employees provided for such deductions and are not otherwise prohibited by law.
- (j) Any deduction not more than for the "reasonable cost" of board, lodging, or other facilities meeting the requirements of Section 3(m) of the Fair Labor Standards Act of 1938, as amended, and Part 531 of Title 29, Code of Federal Regulations. When such a deduction is made the additional records required under Section 516.25(a) of Title 29, Code of Federal Regulations, shall be kept.

MEMORANDUM

TO: Contractors Working on Federally Funded Projects Who do not Pay Fringe Benefits in Cash

FROM: Labor Relations Division, Housing and Urban Development

SUBJECT: Procedure for Determining Adequacy of Fringe Benefit Programs/Plans

Fringe benefit plans, funds or programs established to provide coverage for employees working of Federally funded projects must be approved in accordance with Federal regulations.

Adequacy of fringe benefits will be determined by the U.S. Department of Housing and Urban Development based upon a review of the following information which you are requested to submit:

1. Description of the coverage that you provided those employees working at project site.
2. Signed authorization of those employees to accept those specific employer-paid contribution amounts considered bona fide fringe benefits; AND/OR
3. The provider's proof of payment into the plan, fund or program (e.g. monthly billing statement).

If the fringe benefits are paid into a union plan, submission of a copy of the signed collective bargaining agreement can substitute for the above requirements.

The above requested information should be submitted to:

U.S. Dept. of Housing & Urban Development
Seattle Federal Office Building
Labor Relations, 10SRL
909 First Avenue, Suite 200
Seattle, WA 98104-1000

NO WORK PERFORMED NOTICE

(Optional format where payrolls are not sequentially numbered.)

I hereby certify that no work was performed by the undersigned contractor and/or employees on the construction of:

Project No.: _____

Project Name: _____

During the period dating from _____, 200__

through _____, 200__.

By: _____
(original signature)

Name: _____

Title: _____

Date: _____

Contractor: _____

PRIME CONTRACTOR / SUBCONTRACTOR ACTIVITY & LIST

HUD needs the following information for the prime contractor and all of the subcontractors at the time of the pre-construction meeting.

Project Name _____

Contractor / Subcontractor Name, Address & Zip Code	Day time Phone	Applicable Trades Utilizing for This Project	Contractor ID Number 91-	Amount of Contract	Owner's Racial / Ethnic Code (see below)	Woman Owned Business? (yes / no)

Racial/Ethnic Codes: 1 = White American 2 = Black American 3 = Native American
 4 = Hispanic American 5 = Asian/Pacific American 6 = Hasidic Jews

NOTE: Please return this form to Carol Hughs Evans, HUD CDBG Coordinator at the Pre-construction Meeting or mail to P.O. Box 6108 Kennewick, WA 99336

Section 3 Components of Construction Contracting City of Kennewick

Pre-Bid Conference

City explains Section 3 in bid document and answers individual questions.

Bids Received

Bids include Section 3 form completed by contractor.

Apparent Low Bidder Identified

Contractor and subcontractors meets with City to discuss hiring needs and organizations that may assist in identifying Section 3 residents.

Contract Signed

Contract includes a signed Hiring/Section 3 Utilization Plan and Section 3 Clause (clause may be in contract or by reference to bid specifications document).

Pre-Construction Conference

City explains reporting forms. Reviews Section 3 goals and requirements.

Contractor and subcontractors provide a list of current employees, and their titles, expected to work on this contract.

Work Start

City collects reports from prime contractor (who, what, where, when, how long).

City checks reports for reasonableness, compiles information on all Section 3 construction hires, and totals project hires periodically.

City CDBG unit compiles information on Section 3 contractor contract dollar amounts and total contract dollars.

City CDBG unit includes information in annual report for HUD and other organizations.

Solicitation Provisions and Contract Clauses for Section 3 Implementation

Solicitation Provisions

- S1. Section 3 Goals and Results.** This is a brief overview to potential bidders of basic Section 3 requirements.
- S2. Section 3 Business Concern Representation.** This form is to be submitted by the contractor as part of the bid. On this form the bidder identifies whether or not it is a Section 3 business concern, information on subcontractors (if any), and if new hires are anticipated to carry out the work included in this contract.
- S3. Contractor Section 3 Opportunities Plan.** A Section 3 Plan is developed after the apparent successful bidder has been identified. The apparent successful bidder prepares a plan for complying with Section 3 with assistance from the City. S3 outlines what will be required in the plan and includes a blank plan form.
- S4. How will Section 3 impact awarding the contract?** S4 states how the contractor will be chosen. Section 3 requirements are only one of a number of federal, state, and local requirements that will be considered. Except in the unusual case of a tied bid, there will be no preference exercised which is based on Section 3.

Contract Sections pertaining to Section 3

- C1. Section 3 Clause.** This set of clauses is provided to inform bidders of final contract language. This clause is required by section 135.38 of the regulations to be inserted in the final contract.
- C2. Contractor Section 3 Opportunities Plan and Reporting.** This clause is provided to inform bidders of final contract language that will incorporate the Contractor Section 3 Opportunities Plan in the contract. It outlines contractor's reporting responsibilities.

S1. Section 3 Goals and Results

(a) Goals of Section 3 (12 U.S.C. 1701u) of the Housing and Urban Development Act of 1968, as amended. Section 3 requires that employment and other economic opportunities generated by certain HUD financial assistance for construction, to the greatest extent feasible, be directed to: (1) low-income persons, particularly those who are recipients of government assistance for housing; and (2) business concerns which provide economic opportunities to low-income persons. This project, *(insert name of project being bid here)*, is covered by Section 3 requirements. Requirements, which will be included in all contracts, are summarized below. Further information is available in HUD interim regulations at 24 CFR Part 135, published at 59 Fed. regulation 33866 (June 30, 1994).

(b) Definitions. For the purposes of this construction project:

(1) "Section 3 resident" means:

(i) Public housing resident; or

(ii) An individual who resides in the Tri-Cities MSA, in which the proposed contract will be performed and who is defined by HUD as *low-income* (80% of the area median income or less, based on household size.)

Number in Household	Annual Household Income less than:
1	\$ 36,300
2	\$ 41,500
3	\$ 46,650
4	\$ 51,850
5	\$ 56,000
6	\$ 60,150
7	\$ 64,300
8	\$ 68,450

Rev 4/15/09

(2) "Business concern" means a business entity formed in accordance with State law, and which is licensed under State, county, or municipal law to engage in the type of business activity for which it was formed.

(3) "Section 3 business concern" means a business concern:

- (i) That is 51 percent or more owned by Section 3 residents; or
 - (ii) Whose permanent, full-time employees include persons, at least 30 percent of whom are currently Section 3 residents, or within three years of the date of their first employment with the business were Section 3 residents; or
 - (iii) That provides evidence of a commitment to subcontract in excess of 25 percent of the dollar award of all subcontracts to be awarded by the business under the proposed contract to Section 3 businesses as defined in (i) and (ii) above;
- (c) Results-Oriented Approach: Numerical Goals. All contractors, whether they are currently a Section 3 business concern or not, upon pre-award of the contract, must agree to develop a Section 3 hiring opportunities and subcontracting plan (hereafter called the Section 3 plan). A Section 3 plan is a plan formulated between the City and the business concern that includes at least 30% of new hires from Section 3 residents. The City will provide to the apparent low bidding contractor, income verification forms for self-certification by job candidates or new hires to verify Section 3 resident status.

The Section 3 plan must be satisfactory to the City; otherwise the contractor shall not be considered responsible with respect to Section 3 requirements.

(1) Contractors are advised of the following numerical goals that have been set by HUD for contractors and subcontractors on Section 3 covered projects:

(i) Employment of Section 3 Residents

30% of the aggregate number of contractor's new hires for Section 3 covered projects bid during the one-year period beginning January 1, 2004.

S2. Section 3 Business Concern Representation

(This form must be completed by the bidder and submitted with the bid)

(a) The contractor represents and certifies as part of its bid/offer that it:

- (i) is a Section 3 business concern [*Bidder check applicable box*]:
 - (A) That is 51 percent or more owned by Section 3 residents; or
 - (B) Whose permanent, full-time employees include persons, at least 30 percent of whom are currently Section 3 residents, or within three years of the date of their first employment with the business were Section 3 residents; or
 - (C) That hereby commits to subcontract in excess of 25 percent of the dollar amount of all subcontracts to be awarded by the business under the proposed contract to Section 3 businesses as defined above in "Section 3 Goals and Results" and identified below

<u>Proposed subcontractor (name and address)</u>	<u>Amount of subcontract</u>
_____	\$ _____
_____	\$ _____
_____	\$ _____
_____	\$ _____

(Continue on separate sheet as needed)

(Section 3 businesses will be required to identify the need for any additional new hire(s) as a result of this contract and prepare or participate in the preparation of a Section 3 Plan.)

- (ii) is not a Section 3 business but will complete a Section 3 plan, which is acceptable to the awarding entity (City of Kennewick). The business shall commit to following the Section 3 hiring plan. The Section 3 hiring plan will detail how a minimum of 30% of any new hire(s) as a result of work under this contract shall be Section 3 residents. List below the estimated number of new hires by prime and named subcontractors:

<u>Contractor(s) - prime and subcontractor(s)</u>	<u>Est.# of New Hires</u>
_____	_____
_____	_____
_____	_____
_____	_____

(Continue on separate sheet as needed)

(b) If a Section 3 business, the bidder also represents and certifies as part of its bid/offer that it is a (check the appropriate box):

- Category 1 Business: A Section 3 business concern that provides economic opportunities for Section 3 residents in the service area or neighborhood in which the Section 3 covered project is located.

Describe below the economic opportunities for Section 3 residents in the service area or neighborhood in which the Section 3 covered project is located.

- Category 2 Business: An entity selected to carry out a HUD Youth-build program in the Tri-Cities MSA, in which the Section 3-covered funding is expended. Describe details of the HUD Youth-build Agreement with the local Youth-build agency.

- Other Section 3 business concern as indicated in (a)(i)(A), (B) and (C) above.

Name of person certifying information on this form _____

Position of person certifying information _____

Signature of certifying person _____

S3. Contractor Section 3 Opportunities Plan

The apparent successful bidder, upon request by the awarding agency, shall develop and submit within 2 weeks after notification of status as apparent successful bidder, a Section 3 hiring opportunities and subcontracting plan (hereafter called the Section 3 plan). A Section 3 Plan is a written plan formulated between the bidder and the City. Section 3 residents may be identified through recognized or licensed apprenticeship programs, training programs of such institutions as Columbia Basin College or WorkSource, unions and unemployed individuals registered with a public or private employment agency. The Plan Form is the one page Section 3 Employment Opportunities Plan: Status Report, which is used to first, outline hiring goals, and then, second, make monthly reports on progress.

The City will provide assistance in developing the Section 3 plan. This Section 3 plan shall address training and employment opportunities for Section 3 residents within the bidder's work force. If subcontractors are being used, the Section 3 Plan will address their training and workforce hiring opportunities within their workforces.

The City will provide a self-certification form that new hires will be asked to complete to verify their income and other demographic information. Without a signed self-certification form, indicating low-income status, a newly hired employee cannot be considered a Section 3 resident.

If the prime utilizes subcontractors that meet the definition of Section 3 business concern, the plan will include a listing of those businesses and the dollar amounts of the subcontracts.

The City must approve the plan. The approved plan shall become a part of all construction contracts. Failure to submit a plan or to demonstrate compliance through a submitted plan with the "greatest extent feasible" requirement of 24 CFR Part 135 shall result in the bidder being determined non-responsible with respect to Section 3 requirements and ineligible for award of the contract.

The submitted plan shall include the following:

- (1) Training and employment opportunities:
 - (a) Goals for the proposed contract for the training and employment of Section 3 residents. The plan must show, at a minimum, 30% of new hires as Section 3 residents.
 - (b) A list of the job titles and number of positions for each title identified.
 - (c) A description of the method used to develop the goals in (a) above and the efforts to be undertaken by the contractor/subcontractors to meet the goal.
 - (d) A certification that any vacant employment positions, including training positions, that are filled (1) after the bidder is selected but before the contract is executed, and (2) with other than Section 3 residents, were not and will not be filled to circumvent the contractor's obligations under 24 CFR Part 135. (This certification will be a part

of all contracts signed by the developer, contractor and subcontractors).

(2) A list of Section 3 Subcontractors (applies to all bidders that use one or more Section 3 subcontractors). This is part of the bid submittal or collected shortly after identification of the prime contractor and subcontractors.

(i) A statement of the total dollars to be subcontracted to Section 3 business concerns for building trades work (included on 1-page plan form).

(3) If applicable, identification of each Section 3 covered contract or subcontract awarded to the bidder since August 1, 1994, the goals established under each such contractor subcontract, and the present status of the bidder's efforts to implement the goals.

S4. How Will Section 3 Impact Awarding the Contract?

- (a) According to HUD procurement regulations, contract award will be made to the responsible firm whose responsive bid proposal is most advantageous to the awarding agency, with price and other factors considered. A responsible firm means a business concern that possesses the ability to perform successfully under the terms and conditions of the construction contract, including the condition to meet Section 3 requirements. Consideration will be given to such matters, for example, as contractor integrity, past and intended compliance with public policies (including Section 3 requirements), record of past performance, financial and technical resources, etc.
- (b) If other factors, including price, are equal:
 - (i) Section 3 business concerns will be given preference over other bidders, and
 - (ii) Section 3 business concerns with higher category rankings, 1 being highest, will be given preference over section 3 business concerns with lower category rankings.

C1 and C2. Contract Sections pertaining to Section 3

The following will be included in all Contracts between the agency and all construction contractors (prime and subcontractors):

C1. Section 3 Clause.

- (a) The work to be performed under this contract is subject to the requirements of Section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u (Section 3). The purpose of Section 3 is to ensure that employment and other economic opportunities generated by HUD assistance or HUD-assisted projects covered by Section 3, shall, to the greatest extent feasible, be directed to low- and very low-income persons, particularly persons who are recipients of HUD assistance for housing.
- (b) The parties to this contract agree to comply with HUD's regulations in 24 CFR part 135, which implement Section 3. As evidenced by their execution of this contract, the parties to this contract certify that they are under no contractual or other impediment that would prevent them from complying with the part 135 regulations.
- (c) The contractor agrees to send a notice to each labor organization or representative of workers with whom the contractor has a collective bargaining agreement or other understanding. This notice informs the labor organization or workers' representative of the contractor's commitments under the Section 3 clause. Copies of the notice shall be posted in conspicuous places at the work site where both employees and applicants for training and employment positions can see the notice. The notice describes the Section 3 preference, sets the minimum number and the job titles being hired, availability of apprenticeship and training positions, qualifications for each position, the name and location of the person(s) taking applications for each of the positions and the date when work will begin.
- (d) The contractor shall include this Section 3 clause in every subcontract subject to compliance with regulations in 24 CFR part 135. The contractor shall take appropriate action, as provided in an applicable provision of the subcontract or in this Section 3 clause, upon a finding that the subcontractor is in violation of the regulations in 24 CFR part 135. The contractor will not subcontract with any subcontractor where the contractor has notice or knowledge that the subcontractor has been found in violation of the regulations in 24 CFR part 135.
- (e) The contractor, after having been selected but before a contract was executed, certifies that any vacant employment or training positions filled with person other than those directed by the regulations of 24 CFR part 135, were not filled in order to circumvent the contractor's obligations under 24 CFR part 135.
- (f) Noncompliance with HUD's regulations in 24 CFR part 135 may result in sanctions, termination of this contract for default, and debarment or suspension from future HUD assisted contracts.

- (g) With respect to work performed in connection with Section 3 covered Indian housing assistance, section 7(b) of the Indian Self-determination and Education Assistance Act (25 U.S.C. 450e) also applies to the work to be performed under this contract. Section 7(b) requires to the greatest extent feasible:
 - (i) Preference and opportunities for training and employment shall be given to Indians, and
 - (ii) Preference in the award of contracts and subcontracts shall be given to Indian organizations and Indian-owned Economic Enterprises. Parties to this contract that are subject to the provisions of Section 3 and Section 7(b) agree to comply with Section 3 to the maximum extent feasible, but not in derogation of compliance with Section 7(b).

C2. Contractor Section 3 Opportunities Plan and Reporting.

- (a) A specific Section 3 Plan has been established for this contract. The plan is included as an attachment to this contract.
- (b) The contractor, with the assistance of the City, shall provide regular status reports throughout the contract period as negotiated and agreed upon during the Section 3 planning process. The status reports shall be submitted no later than 10 days after the end of each negotiated period. The status report shall be in at least the same level of detail as the approved plan. For any goal not met, the report shall identify the impediments encountered and the contractor's actual and future actions to overcome such impediments. The report shall also identify any other economic opportunities that the contractor has taken or intends to take.
- (c) The failure of the contractor to comply in good faith with the approved plan shall be a material breach of the contract.

PREVAILING WAGE SCHEDULE FOR ARTICLE 8 PUBLIC WORK PROJECT

Attached is the current schedule(s) of the prevailing wage rates and prevailing hourly supplements for the project referenced above. A unique Prevailing Wage Case Number (PRC#) has been assigned to the schedule(s) for your project.

The schedule is effective from July 2014 through June 2015. All updates, corrections, posted on the 1st business day of each month, and future copies of the annual determination are available on the Department's website www.labor.state.ny.us. Updated PDF copies of your schedule can be accessed by entering your assigned PRC# at the proper location on the website.

It is the responsibility of the contracting agency or its agent to annex and make part, the attached schedule, to the specifications for this project, when it is advertised for bids and /or to forward said schedules to the successful bidder(s), immediately upon receipt, in order to insure the proper payment of wages.

Please refer to the "General Provisions of Laws Covering Workers on Public Work Contracts" provided with this schedule, for the specific details relating to other responsibilities of the Department of Jurisdiction.

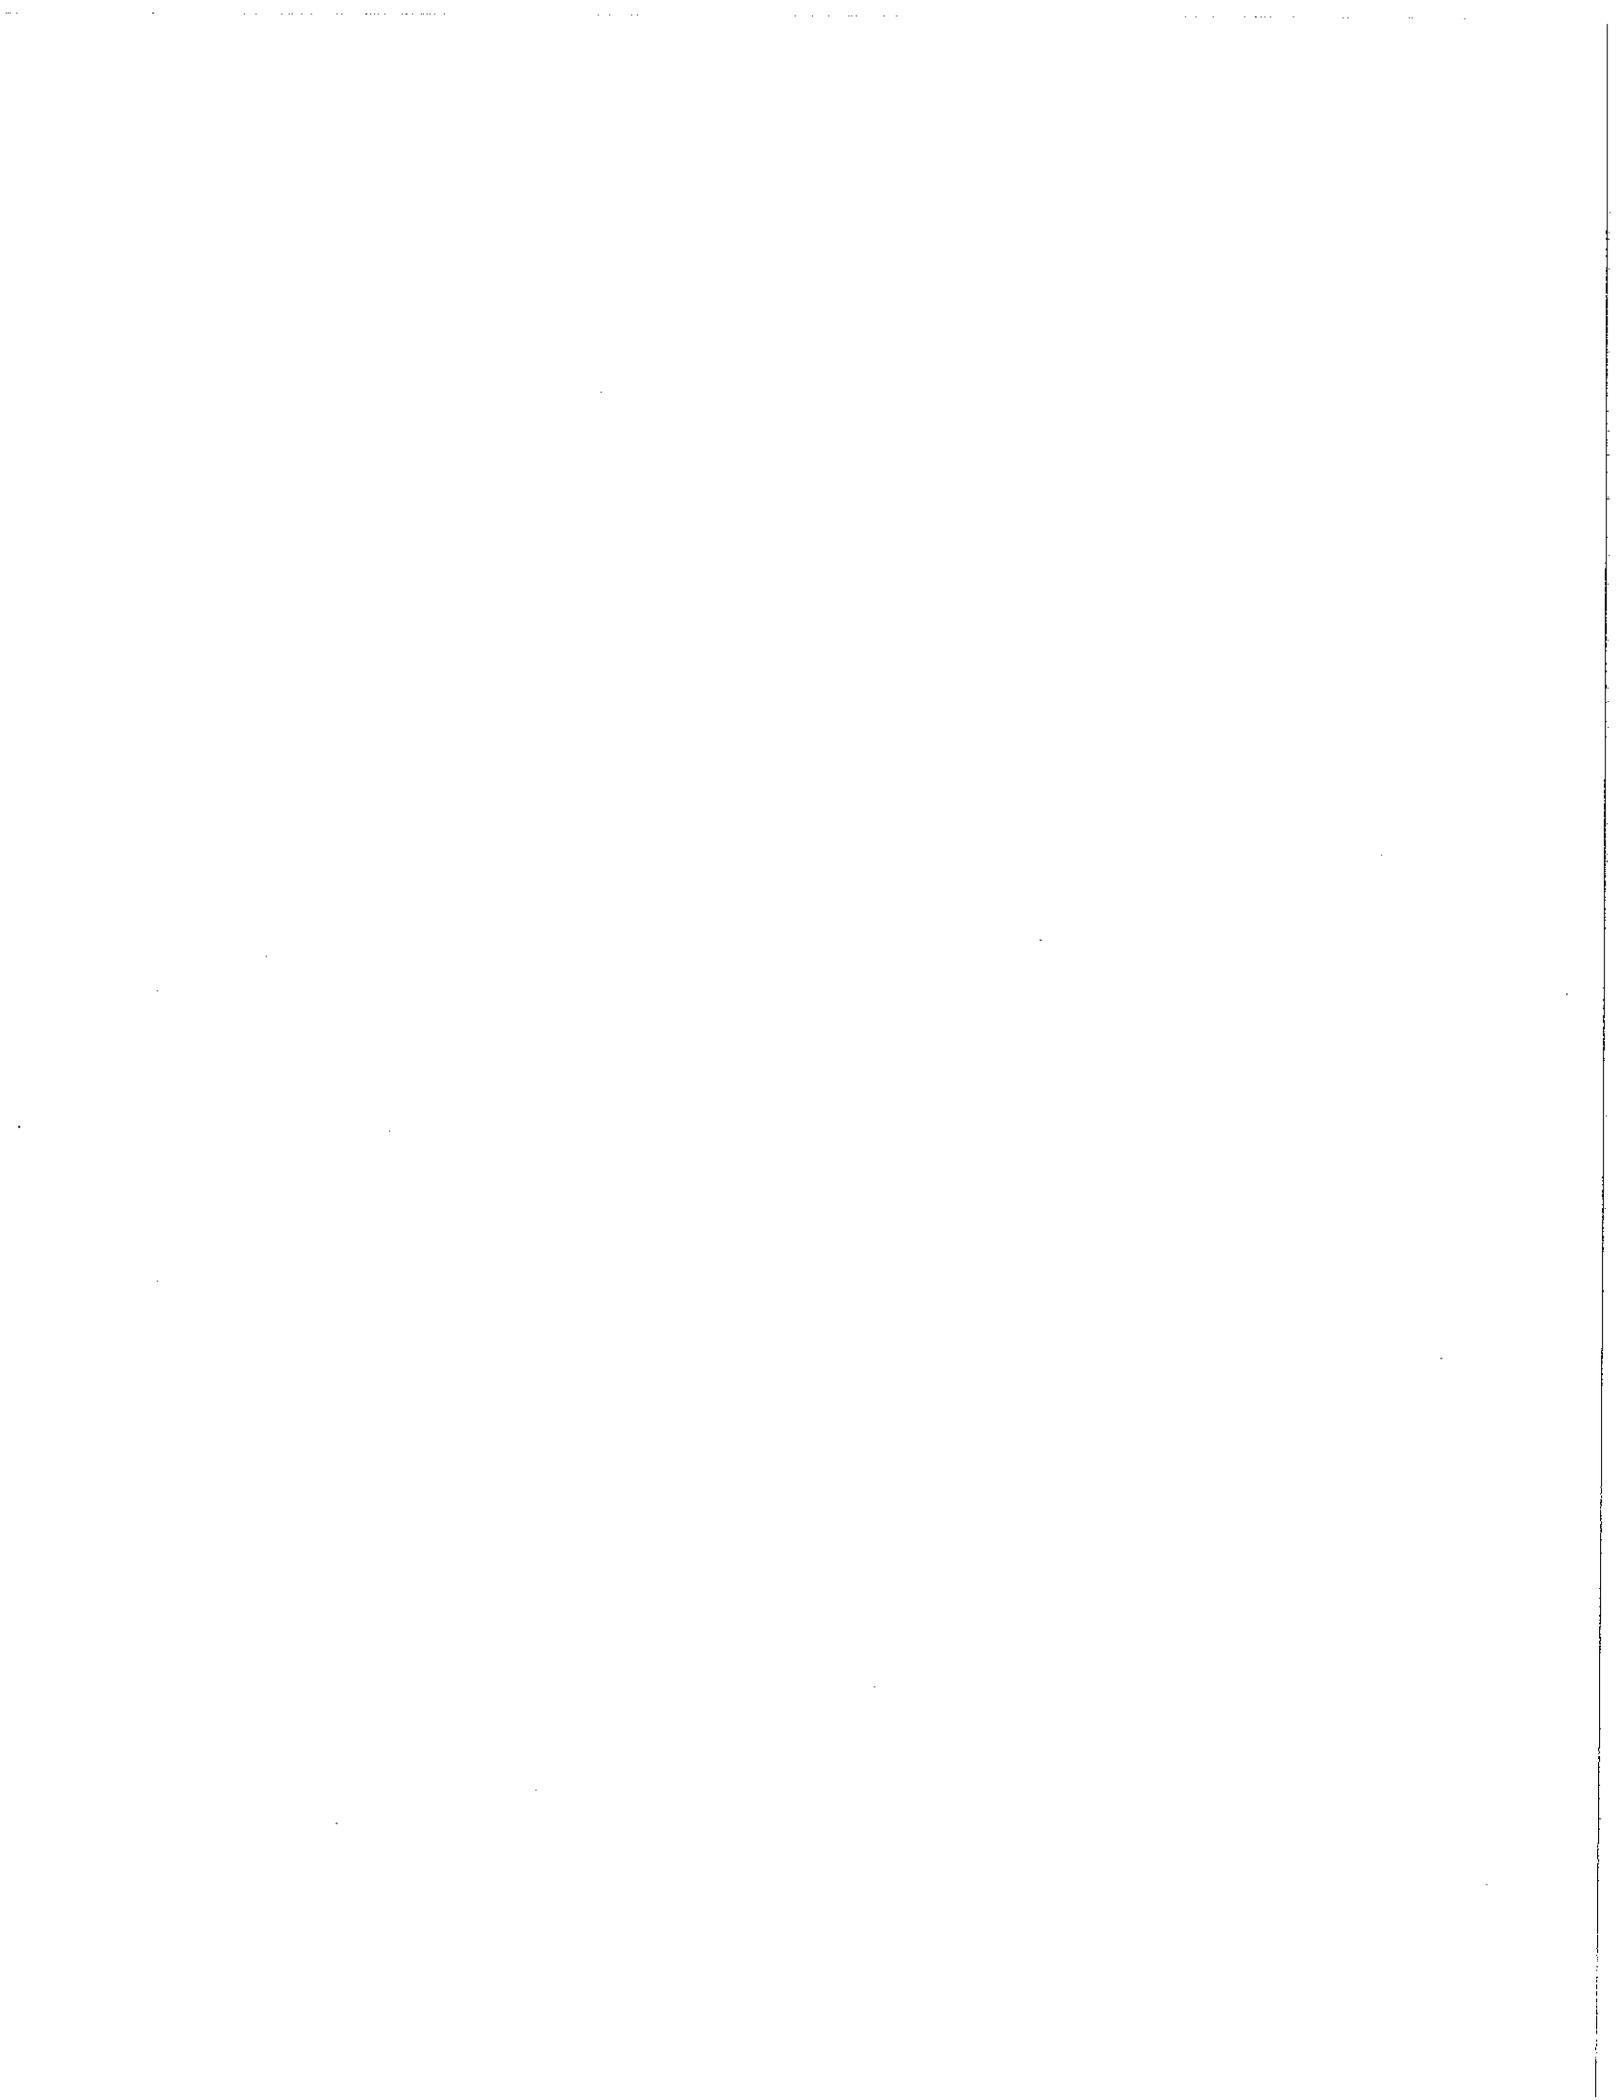

Upon completion or cancellation of this project, enter the required information and mail OR fax this form to the office shown at the bottom of this notice, OR fill out the electronic version via the NYSDOL website.

General Provisions of Laws Covering Workers on Article 8 Public Work Contracts

Introduction

The Labor Law requires public work contractors and subcontractors to pay laborers, workers, or mechanics employed in the performance of a public work contract not less than the prevailing rate of wage and supplements (fringe benefits) in the locality where the work is performed.

Responsibilities of the Department of Jurisdiction

A Department of Jurisdiction (Contracting Agency) includes a state department, agency, board or commission; a county, city, town or village; a school district, board of education or board of cooperative educational services; a sewer, water, fire, improvement and other district corporation; a public benefit corporation; and a public authority awarding a public work contract.

The Department of Jurisdiction (Contracting Agency) awarding a public work contract MUST obtain a Prevailing Rate Schedule listing the hourly rates of wages and supplements due the workers to be employed on a public work project. This schedule may be obtained by completing and forwarding a "Request for wage and Supplement Information" form (PW 39) to the Bureau of Public Work. The Prevailing Rate Schedule MUST be included in the specifications for the contract to be awarded and is deemed part of the public work contract.

Upon the awarding of the contract, the law requires that the Department of Jurisdiction (Contracting Agency) furnish the following information to the Bureau: the name and address of the contractor, the date the contract was let and the approximate dollar value of the contract. To facilitate compliance with this provision of the Labor Law, a copy of the Department's "Notice of Contract Award" form (PW 16) is provided with the original Prevailing Rate Schedule.

The Department of Jurisdiction (Contracting Agency) is required to notify the Bureau of the completion or cancellation of any public work project. The Department's PW 200 form is provided for that purpose.

Both the PW 16 and PW 200 forms are available for completion online.

Hours

No laborer, worker, or mechanic in the employ of a contractor or subcontractor engaged in the performance of any public work project shall be permitted to work more than eight hours in any day or more than five days in any week, except in cases of extraordinary emergency. The contractor and the Department of Jurisdiction (Contracting Agency) may apply to the Bureau of Public Work for a dispensation permitting workers to work additional hours or days per week on a particular public work project.

There are very few exceptions to this rule. Complete information regarding these exceptions is available on the "4 Day / 10 Hour Work Schedule" form (PW 30R).

Wages and Supplements

The wages and supplements to be paid and/or provided to laborers, workers, and mechanics employed on a public work project shall be not less than those listed in the current Prevailing Rate Schedule for the locality where the work is performed. If a prime contractor on a public work project has not been provided with a Prevailing Rate Schedule, the contractor must notify the Department of Jurisdiction (Contracting Agency) who in turn must request an original Prevailing Rate Schedule from the Bureau of Public Work. Requests may be submitted by: mail to NYSDOL, Bureau of Public Work, State Office Bldg. Campus, Bldg. 12, Rm. 130, Albany, NY 12240; Fax to Bureau of Public Work (518) 485-1870; or electronically at the NYSDOL website www.labor.state.ny.us.

Upon receiving the original schedule, the Department of Jurisdiction (Contracting Agency) is REQUIRED to provide complete copies to all prime contractors who in turn MUST, by law, provide copies of all applicable county schedules to each subcontractor and obtain from each subcontractor, an affidavit certifying such schedules were received. If the original schedule expired, the contractor may obtain a copy of the new annual determination from the NYSDOL website www.labor.state.ny.us.

The Commissioner of Labor makes an annual determination of the prevailing rates. This determination is in effect from July 1st through June 30th of the following year. The annual determination is available on the NYSDOL website www.labor.state.ny.us.

Payrolls and Payroll Records

Every contractor and subcontractor MUST keep original payrolls or transcripts subscribed and affirmed as true under penalty of perjury. Payrolls must be maintained for at least three (3) years from the project's date of completion. At a minimum, payrolls must show the following information for each person employed on a public work project: Name, Address, Last 4 Digits of Social Security Number, Classification(s) in which the worker was employed, Hourly wage rate(s) paid, Supplements paid or provided, and Daily and weekly number of hours worked in each classification.

Every contractor and subcontractor shall submit to the Department of Jurisdiction (Contracting Agency), within thirty (30) days after issuance of its first payroll and every thirty (30) days thereafter, a transcript of the original payrolls, subscribed and affirmed as true under penalty of perjury. The Department of Jurisdiction (Contracting Agency) shall collect, review for facial validity, and maintain such payrolls.

In addition, the Commissioner of Labor may require contractors to furnish, with ten (10) days of a request, payroll records sworn to as their validity and accuracy for public work and private work. Payroll records include, but are not limited to time cards, work description sheets, proof that supplements were provided, cancelled payroll checks and payrolls. Failure to provide the requested information within the allotted ten (10) days will result in the withholding of up to 25% of the contract, not to exceed \$100,000.00. If the contractor or subcontractor does not maintain a place of business in New York State and the amount of the contract exceeds \$25,000.00, payroll records and certifications must be kept on the project worksite.

The prime contractor is responsible for any underpayments of prevailing wages or supplements by any subcontractor.

All contractors or their subcontractors shall provide to their subcontractors a copy of the Prevailing Rate Schedule specified in the public work contract as well as any subsequently issued schedules. A failure to provide these schedules by a contractor or subcontractor is a violation of Article 8, Section 220-a of the Labor Law.

All subcontractors engaged by a public work project contractor or its subcontractor, upon receipt of the original schedule and any subsequently issued schedules, shall provide to such contractor a verified statement attesting that the subcontractor has received the Prevailing Rate Schedule and will pay or provide the applicable rates of wages and supplements specified therein. (See NYS Labor Laws, Article 8, Section 220-a).

Determination of Prevailing Wage and Supplement Rate Updates Applicable to All Counties

The wages and supplements contained in the annual determination become effective July 1st whether or not the new determination has been received by a given contractor. Care should be taken to review the rates for obvious errors. Any corrections should be brought to the Department's attention immediately. It is the responsibility of the public work contractor to use the proper rates. If there is a question on the proper classification to be used, please call the district office located nearest the project. Any errors in the annual determination will be corrected and posted to the NYSDOL website on the first business day of each month. Contractors are responsible for paying these updated rates as well, retroactive to July 1st.

When you review the schedule for a particular occupation, your attention should be directed to the dates above the column of rates. These are the dates for which a given set of rates is effective. To the extent possible, the Department posts rates in its possession that cover periods of time beyond the July 1st to June 30th time frame covered by a particular annual determination. Rates that extend beyond that instant time period are informational ONLY and may be updated in future annual determinations that actually cover the then appropriate July 1st to June 30th time period.

Withholding of Payments

When a complaint is filed with the Commissioner of Labor alleging the failure of a contractor or subcontractor to pay or provide the prevailing wages or supplements, or when the Commissioner of Labor believes that unpaid wages or supplements may be due, payments on the public work contract shall be withheld from the prime contractor in a sufficient amount to satisfy the alleged unpaid wages and supplements, including interest and civil penalty, pending a final determination.

When the Bureau of Public Work finds that a contractor or subcontractor on a public work project failed to pay or provide the requisite prevailing wages or supplements, the Bureau is authorized by Sections 220-b and 235.2 of the Labor Law to so notify the financial officer of the Department of Jurisdiction (Contracting Agency) that awarded the public work contract. Such officer MUST then withhold or cause to be withheld from any payment due the prime contractor on account of such contract the amount indicated by the Bureau as sufficient to satisfy the unpaid wages and supplements, including interest and any civil penalty that may be assessed by the Commissioner of Labor. The withholding continues until there is a final determination of the underpayment by the Commissioner of Labor or by the court in the event a legal proceeding is instituted for review of the determination of the Commissioner of Labor.

The Department of Jurisdiction (Contracting Agency) shall comply with this order of the Commissioner of Labor or of the court with respect to the release of the funds so withheld.

Summary of Notice Posting Requirements

The current Prevailing Rate Schedule must be posted in a prominent and accessible place on the site of the public work project. The prevailing wage schedule must be encased in, or constructed of, materials capable of withstanding adverse weather conditions and be titled "PREVAILING RATE OF WAGES" in letters no smaller than two (2) inches by two (2) inches.

The "Public Work Project" notice must be posted at the beginning of the performance of every public work contract, on each job site.

Every employer providing workers' compensation insurance and disability benefits must post notices of such coverage in the format prescribed by the Workers' Compensation Board in a conspicuous place on the jobsite.

Every employer subject to the NYS Human Rights Law must conspicuously post at its offices, places of employment, or employment training centers, notices furnished by the State Division of Human Rights.

Employers liable for contributions under the Unemployment Insurance Law must conspicuously post on the jobsite notices furnished by the NYS Department of Labor.

Apprentices

Employees cannot be paid apprentice rates unless they are individually registered in a program registered with the NYS Commissioner of Labor. The allowable ratio of apprentices to journeymen in any craft classification can be no greater than the statewide building trade ratios promulgated by the Department of Labor and included with the Prevailing Rate Schedule. An employee listed on a payroll as an apprentice who is not registered as above or is performing work outside the classification of work for which the apprentice is indentured, must be paid the prevailing journeyworker's wage rate for the classification of work the employee is actually performing.

NYSDOL Labor Law, Article 8, Section 220-3, require that only apprentices individually registered with the NYS Department of Labor may be paid apprenticeship rates on a public work project. No other Federal or State Agency of office registers apprentices in New York State.

Persons wishing to verify the apprentice registration of any person must do so in writing by mail, to the NYSDOL Office of Employability Development / Apprenticeship Training, State Office Bldg. Campus, Bldg. 12, Albany, NY 12240 or by Fax to NYSDOL Apprenticeship Training (518) 457-7154. All requests for verification must include the name and social security number of the person for whom the information is requested.

The only conclusive proof of individual apprentice registration is written verification from the NYSDOL Apprenticeship Training Albany Central office. Neither Federal nor State Apprenticeship Training offices outside of Albany can provide conclusive registration information.

It should be noted that the existence of a registered apprenticeship program is not conclusive proof that any person is registered in that program. Furthermore, the existence or possession of wallet cards, identification cards, or copies of state forms is not conclusive proof of the registration of any person as an apprentice.

Interest and Penalties

In the event that an underpayment of wages and/or supplements is found:

- Interest shall be assessed at the rate then in effect as prescribed by the Superintendent of Banks pursuant to section 14-a of the Banking Law, per annum from the date of underpayment to the date restitution is made.
- A Civil Penalty may also be assessed, not to exceed 25% of the total of wages, supplements, and interest due.

Debarment

Any contractor or subcontractor and/or its successor shall be ineligible to submit a bid on or be awarded any public work contract or subcontract with any state, municipal corporation or public body for a period of five (5) years when:

- Two (2) willful determinations have been rendered against that contractor or subcontractor and/or its successor within any consecutive six (6) year period.
- There is any willful determination that involves the falsification of payroll records or the kickback of wages or supplements.

Criminal Sanctions

Willful violations of the Prevailing Wage Law (Article 8 of the Labor Law) may be a felony punishable by fine or imprisonment of up to 15 years, or both.

Discrimination

No employee or applicant for employment may be discriminated against on account of age, race, creed, color, national origin, sex, disability or marital status.

No contractor, subcontractor nor any person acting on its behalf, shall by reason of race, creed, color, disability, sex or national origin discriminate against any citizen of the State of New York who is qualified and available to perform the work to which the employment relates (NYS Labor Law, Article 8, Section 220-e(a)).

No contractor, subcontractor, nor any person acting on its behalf, shall in any manner, discriminate against or intimidate any employee on account of race, creed, color, disability, sex, or national origin (NYS Labor Law, Article 8, Section 220-e(b)).

The Human Rights Law also prohibits discrimination in employment because of age, marital status, or religion.

There may be deducted from the amount payable to the contractor under the contract a penalty of \$50.00 for each calendar day during which such person was discriminated against or intimidated in violation of the provision of the contract (NYS Labor Law, Article 8, Section 220-e(c)).

The contract may be cancelled or terminated by the State or municipality. All monies due or to become due thereunder may be forfeited for a second or any subsequent violation of the terms or conditions of the anti-discrimination sections of the contract (NYS Labor Law, Article 8, Section 220-e(d)).

Every employer subject to the New York State Human Rights Law must conspicuously post at its offices, places of employment, or employment training centers notices furnished by the State Division of Human Rights.

Workers' Compensation

In accordance with Section 142 of the State Finance Law, the contractor shall maintain coverage during the life of the contract for the benefit of such employees as required by the provisions of the New York State Workers' Compensation Law.

A contractor who is awarded a public work contract must provide proof of workers' compensation coverage prior to being allowed to begin work.

The insurance policy must be issued by a company authorized to provide workers' compensation coverage in New York State. Proof of coverage must be on form C-105.2 (Certificate of Workers' Compensation Insurance) and must name this agency as a certificate holder.

If New York State coverage is added to an existing out-of-state policy, it can only be added to a policy from a company authorized to write workers' compensation coverage in this state. The coverage must be listed under item 3A of the information page.

The contractor must maintain proof that subcontractors doing work covered under this contract secured and maintained a workers' compensation policy for all employees working in New York State.

Every employer providing worker's compensation insurance and disability benefits must post notices of such coverage in the format prescribed by the Workers' Compensation Board in a conspicuous place on the jobsite.

Unemployment Insurance

Employers liable for contributions under the Unemployment Insurance Law must conspicuously post on the jobsite notices furnished by the New York State Department of Labor.

IMPORTANT NOTICE

FOR

CONTRACTORS & CONTRACTING AGENCIES

Social Security Numbers on Certified Payrolls

The Department of Labor is cognizant of the concerns of the potential for misuse or inadvertent disclosure of social security numbers. Identity theft is a growing problem and we are sympathetic to contractors' concerns with regard to inclusion of this information on payrolls if another identifier will suffice.

For these reasons, *the substitution of the use of the last four digits of the social security number on certified payrolls submitted to contracting agencies on public work projects is now acceptable to the Department of Labor.*

NOTE: This change does not affect the Department's ability to request and receive the entire social security number from employers during the course of its public work / prevailing wage investigations.

**To all State Departments, Agency Heads and Public Benefit Corporations
IMPORTANT NOTICE REGARDING PUBLIC WORK ENFORCEMENT FUND**

Budget Policy & Reporting Manual

B-610

Public Work Enforcement Fund

effective date December 7, 2005

1. Purpose and Scope:

This Item describes the Public Work Enforcement Fund (the Fund, PWEF) and its relevance to State agencies and public benefit corporations engaged in construction or reconstruction contracts, maintenance and repair, and announces the recently-enacted increase to the percentage of the dollar value of such contracts that must be deposited into the Fund. This item also describes the roles of the following entities with respect to the Fund:

- New York State Department of Labor (DOL),
- The Office of the State of Comptroller (OSC), and
- State agencies and public benefit corporations.

2. Background and Statutory References:

DOL uses the Fund to enforce the State's Labor Law as it relates to contracts for construction or reconstruction, maintenance and repair, as defined in subdivision two of Section 220 of the Labor Law. State agencies and public benefit corporations participating in such contracts are required to make payments to the Fund.

Chapter 511 of the Laws of 1995 (as amended by Chapter 513 of the Laws of 1997, Chapter 655 of the Laws of 1999, Chapter 376 of the Laws of 2003 and Chapter 407 of the Laws of 2005) established the Fund.

3. Procedures and Agency Responsibilities:

The Fund is supported by transfers and deposits based on the value of contracts for construction and reconstruction, maintenance and repair, as defined in subdivision two of Section 220 of the Labor Law, into which all State agencies and public benefit corporations enter.

Chapter 407 of the Laws of 2005 increased the amount required to be provided to this fund to .10 of one-percent of the total cost of each such contract, to be calculated at the time agencies or public benefit corporations enter into a new contract or if a contract is amended. The provisions of this bill became effective August 2, 2005.

**To all State Departments, Agency Heads and Public Benefit Corporations
IMPORTANT NOTICE REGARDING PUBLIC WORK ENFORCEMENT FUND**

OSC will report to DOL on all construction-related ("D") contracts approved during the month, including contract amendments, and then DOL will bill agencies the appropriate assessment monthly. An agency may then make a determination if any of the billed contracts are exempt and so note on the bill submitted back to DOL. For any instance where an agency is unsure if a contract is or is not exempt, they can call the Bureau of Public Work at the number noted below for a determination. Payment by check or journal voucher is due to DOL within thirty days from the date of the billing. DOL will verify the amounts and forward them to OSC for processing.

For those contracts which are not approved or administered by the Comptroller, monthly reports and payments for deposit into the Public Work Enforcement Fund must be provided to the Administrative Finance Bureau at the DOL within 30 days of the end of each month or on a payment schedule mutually agreed upon with DOL.

Reports should contain the following information:

- Name and billing address of State agency or public benefit corporation;
- State agency or public benefit corporation contact and phone number;
- Name and address of contractor receiving the award;
- Contract number and effective dates;
- Contract amount and PWEF assessment charge (if contract amount has been amended, reflect increase or decrease to original contract and the adjustment in the PWEF charge); and
- Brief description of the work to be performed under each contract.

Checks and Journal Vouchers, payable to the "New York State Department of Labor" should be sent to:

Department of Labor
Administrative Finance Bureau-PWEF Unit
Building 12, Room 464
State Office Campus
Albany, NY 12240

Any questions regarding billing should be directed to NYSDOL's Administrative Finance Bureau-PWEF Unit at (518) 457-3624 and any questions regarding Public Work Contracts should be directed to the Bureau of Public Work at (518) 457-5589.

Construction Industry Fair Play Act

Required Posting For Labor Law Article 25-B § 861-d

Construction industry employers must post the "Construction Industry Fair Play Act" notice in a prominent and accessible place on the job site.

Failure to post the notice can result in penalties of up to \$1,500 for a first offense and up to \$5,000 for a second offense.

The posting is included as part of this wage schedule. Additional copies may be obtained from the NYS DOL website, www.labor.ny.gov.

If you have any questions concerning the Fair Play Act, please call the State Labor Department toll-free at 1-866-435-1499 or email us at: dol.misclassified@labor.state.ny.us .

WORKER NOTIFICATION

(Labor Law §220, paragraph a of subdivision 3-a)

Effective February 24, 2008

This provision is an addition to the existing prevailing wage rate law, Labor Law §220, paragraph a of subdivision 3-a. It requires contractors and subcontractors to provide written notice to all laborers, workers or mechanics of the *prevailing wage rate* for their particular job classification *on each pay stub**. It also requires contractors and subcontractors to *post a notice* at the beginning of the performance of every public work contract *on each job site* that includes the telephone number and address for the Department of Labor and a statement informing laborers, workers or mechanics of their right to contact the Department of Labor if he/she is not receiving the proper prevailing rate of wages and/or supplements for his/her particular job classification. The required notification will be provided with each wage schedule, may be downloaded from our website www.labor.state.ny.us or made available upon request by contacting the Bureau of Public Work at 518-457-5589.

* In the event that the required information will not fit on the pay stub, an accompanying sheet or attachment of the information will suffice.

New York State Department of Labor
Bureau of Public Work

Attention Employees

THIS IS A:

PUBLIC WORK PROJECT

If you are employed on this project as a **worker, laborer, or mechanic** you are entitled to receive the **prevailing wage and supplements rate** for the classification at which you are working.

Chapter 629 of
the Labor Laws
of 2007:

**These wages are set by law and must be posted
at the work site. They can also be found at:
www.labor.ny.gov**

If you feel that you have not received proper wages or benefits,
please call our nearest office.*

OSHA 10-hour Construction Safety and Health Course – S1537-A

Effective July 18, 2008

This provision is an addition to the existing prevailing wage rate law, Labor Law §220, section 220-h. It requires that on all public work projects of at least \$250,000.00, all laborers, workers and mechanics working on the site, be certified as having successfully completed the OSHA 10-hour construction safety and health course. It further requires that the advertised bids and contracts for every public work contract of at least \$250,000.00, contain a provision of this requirement.

NOTE: The OSHA 10 Legislation only applies to workers on a public work project that are required, under Article 8, to receive the prevailing wage.

Where to find OSHA 10-hour Construction Course

Requirements for OSHA 10 Compliance

Chapter 282 of the Laws of 2007, codified as Labor Law 220-h took effect on July 18, 2008. The statute provides as follows:

The advertised specifications for every contract for public work of \$250,000.00 or more must contain a provision requiring that every worker employed in the performance of a public work contract shall be certified as having completed an OSHA 10 safety training course. The clear intent of this provision is to require that all employees of public work contractors, required to be paid prevailing rates, receive such training "prior to the performing any work on the project."

The Bureau will enforce the statute as follows:

All contractors and sub contractors must attach a copy of proof of completion of the OSHA 10 course to the first certified payroll submitted to the contracting agency and on each succeeding payroll where any new or additional employee is first listed.

Proof of completion may include but is not limited to:

- Copies of bona fide course completion card (*Note: Completion cards do not have an expiration date.*)
- Training roster, attendance record of other documentation from the certified trainer pending the issuance of the card.
- Other valid proof

****A certification by the employer attesting that all employees have completed such a course is not sufficient proof that the course has been completed.**

Any questions regarding this statute may be directed to the New York State Department of Labor, Bureau of Public Work at 518-485-5696.

WICKS Reform 2008

(For all contracts advertised or solicited for bid on or after 7/1/08)

- Raises the threshold for public work projects subject to the Wicks Law requiring separate specifications and bidding for the plumbing, heating and electrical work. The total project's threshold would increase from \$50,000 to: \$3 million in Bronx, Kings, New York, Queens and Richmond counties; \$1.5 million in Nassau, Suffolk and Westchester counties; and \$500,000 in all other counties.
- For projects below the monetary threshold, bidders must submit a sealed list naming each subcontractor for the plumbing, HVAC and electrical work and the amount to be paid to each. The list may not be changed unless the public owner finds a legitimate construction need, including a change in specifications or costs or use of a Project Labor Agreement (PLA), and must be open to public inspection.
- Allows the state and local agencies and authorities to waive the Wicks Law and use a PLA if it will provide the best work at the lowest possible price. If a PLA is used, all contractors shall participate in apprentice training programs in the trades of work it employs that have been approved by the Department of Labor (DOL) for not less than three years. They shall also have at least one graduate in the last three years and use affirmative efforts to retain minority apprentices. PLA's would be exempt from Wicks, but deemed to be public work subject to prevailing wage enforcement.
- The Commissioner of Labor shall have the power to enforce separate specification requirements on projects, and may issue stop-bid orders against public owners for non-compliance.
- Other new monetary thresholds, and similar sealed bidding for non-Wicks projects, would apply to certain public authorities including municipal housing authorities, NYC Construction Fund, Yonkers Educational Construction Fund, NYC Municipal Water Finance Authority, Buffalo Municipal Water Finance Authority, Westchester County Health Care Association, Nassau County Health Care Corp., Clifton-Fine Health Care Corp., Erie County Medical Center Corp., NYC Solid Waste Management Facilities, and the Dormitory Authority.
- Reduces from 15 to 7 days the period in which contractors must pay subcontractors.

IMPORTANT INFORMATION

Regarding Use of Form PW30R

"Employer Registration for Use of 4 Day / 10 Hour Work Schedule"

To use the '4 Day / 10 Hour Work Schedule':

There **MUST** be a *Dispensation of Hours (PW30)* in place on the project

AND

You **MUST** register your intent to work 4 / 10 hour days, by completing the PW30R Form.

REMEMBER...

The '4 Day / 10 Hour Work Schedule' applies **ONLY** to Job Classifications and Counties listed on the PW30R Form.

Do not write in any additional Classifications or Counties.

(Please note : For each Job Classification check the individual wage schedule for specific details regarding their 4/10 hour day posting.)

Instructions for Completing Form PW30R

"Employer Registration for Use of 4 Day / 10 Hour Work Schedule"

Before completing Form PW30R check to be sure ...

- There is a *Dispensation of Hours* in place on the project.
- The 4 Day / 10 Hour Work Schedule applies to the Job Classifications you will be using.
- The 4 Day / 10 Hour Work Schedule applies to the County / Counties where the work will take place.

Instructions (Type or Print legibly):

Contractor Information:

- Enter the Legal Name of the business, FEIN, Street Address, City, State, Zip Code; the Company's Phone and Fax numbers; and the Company's email address (if applicable)
- Enter the Name of a Contact Person for the Company along with their Phone and Fax numbers, and the personal email address (if applicable)

Project Information:

- Enter the Prevailing Rate Case number (PRC#) assigned to this project
- Enter the Project Name / Type (i.e. Smithtown CSD – Replacement of HS Roof)
- Enter the Exact Location of Project (i.e. Smithtown HS, 143 County Route #2, Smithtown, NY; Bldgs. 1 & 2)
- If you are a Subcontractor, enter the name of the Prime Contractor for which you work
- On the Checklist of Job Classifications -
 - Go to pages 2 and 3 of the form
 - Place a checkmark in the box to the right of the Job Classification you are choosing
 - Mark all Job Classifications that apply

Do not write in any additional Classifications or Counties.

Requestor Information:

- Enter the name of the person submitting the registration, their title with the company, and the date the registration is filled out

Return Completed Form:

- **Mail** the completed PW30R form (3 pages) to: NYSDOL Bureau of Public Work, SOBC – Bldg.12 – Rm.130, Albany, NY 12240 -OR -
- **Fax** the completed PW30R form (3 pages) to: NYSDOL Bureau of Public Work at (518)485-1870

Introduction to the Prevailing Rate Schedule

Information About Prevailing Rate Schedule

This information is provided to assist you in the interpretation of particular requirements for each classification of worker contained in the attached Schedule of Prevailing Rates.

Classification

It is the duty of the Commissioner of Labor to make the proper classification of workers taking into account whether the work is heavy and highway, building, sewer and water, tunnel work, or residential, and to make a determination of wages and supplements to be paid or provided. It is the responsibility of the public work contractor to use the proper rate. If there is a question on the proper classification to be used, please call the district office located nearest the project. District office locations and phone numbers are listed below.

Prevailing Wage Schedules are issued separately for "General Construction Projects" and "Residential Construction Projects" on a county-by-county basis.

General Construction Rates apply to projects such as: Buildings, Heavy & Highway, and Tunnel and Water & Sewer rates.

Residential Construction Rates generally apply to construction, reconstruction, repair, alteration, or demolition of one family, two family, row housing, or rental type units intended for residential use.

Some rates listed in the Residential Construction Rate Schedule have a very limited applicability listed along with the rate. Rates for occupations or locations not shown on the residential schedule must be obtained from the General Construction Rate Schedule. Please contact the local Bureau of Public Work office before using Residential Rate Schedules, to ensure that the project meets the required criteria.

Paid Holidays

Paid Holidays are days for which an eligible employee receives a regular day's pay, but is not required to perform work. If an employee works on a day listed as a paid holiday, this remuneration is in addition to payment of the required prevailing rate for the work actually performed.

Overtime

At a minimum, all work performed on a public work project in excess of eight hours in any one day or more than five days in any workweek is overtime. However, the specific overtime requirements for each trade or occupation on a public work project may differ. Specific overtime requirements for each trade or occupation are contained in the prevailing rate schedules.

Overtime holiday pay is the premium pay that is required for work performed on specified holidays. It is only required where the employee actually performs work on such holidays.

The applicable holidays are listed under HOLIDAYS: OVERTIME. The required rate of pay for these covered holidays can be found in the OVERTIME PAY section listings for each classification.

Supplemental Benefits

Particular attention should be given to the supplemental benefit requirements. In most cases the payment or provision of supplements is for each hour worked (noted in the schedule as 'Per hour worked'). Some classifications require the payment or provision of supplements for each hour paid (noted in the schedule as 'Per hour paid'), which require supplements to be paid or provided at a premium rate for premium hours worked. Some classifications may also require the payment or provision of supplements for paid holidays on which no work is performed.

Effective Dates

When you review the schedule for a particular occupation, your attention should be directed to the dates above the column of rates. These are the dates for which a given set of rates is effective. The rate listed is valid until the next effective rate change or until the new annual determination which takes effect on July 1 of each year. All contractors and subcontractors are required to pay the current prevailing rates of wages and supplements. If you have any questions please contact the Bureau of Public Work or visit the New York State Department of Labor website (www.labor.state.ny.us) for current wage rate information.

Apprentice Training Ratios

The following are the allowable ratios of registered Apprentices to Journey-workers.

For example, the ratio 1:1,1:3 indicates the allowable initial ratio is one Apprentice to one Journeyworker. The Journeyworker must be in place on the project before an Apprentice is allowed. Then three additional Journeyworkers are needed before a second Apprentice is allowed. The last ratio repeats indefinitely. Therefore, three more Journeyworkers must be present before a third Apprentice can be hired, and so on.

Please call Apprentice Training Central Office at (518) 457-6820 if you have any questions.

Title (Trade)	Ratio
Boilermaker (Construction)	1:1,1:4
Boilermaker (Shop)	1:1,1:3
Carpenter (Bldg.,H&H, Pile Driver/Dockbuilder)	1:1,1:4
Carpenter (Residential)	1:1,1:3

Electrical (Outside) Lineman	1:1,1:2
Electrician (Inside)	1:1,1:3
Elevator/Escalator Construction & Modernizer	1:1,1:2
Glazier	1:1,1:3
Insulation & Asbestos Worker	1:1,1:3
Iron Worker	1:1,1:4
Laborer	1:1,1:3
Mason	1:1,1:4
Millwright	1:1,1:4
Op Engineer	1:1,1:5
Painter	1:1,1:3
Plumber & Steamfitter	1:1,1:3
Roofer	1:1,1:2
Sheet Metal Worker	1:1,1:3
Sprinkler Fitter	1:1,1:2

- (U) Four times the hourly rate for Holidays, if worked
- (V) Including benefits at SAME PREMIUM as shown for overtime
- (W) Time and one half for benefits on all overtime hours.

Holiday Codes

PAID Holidays:

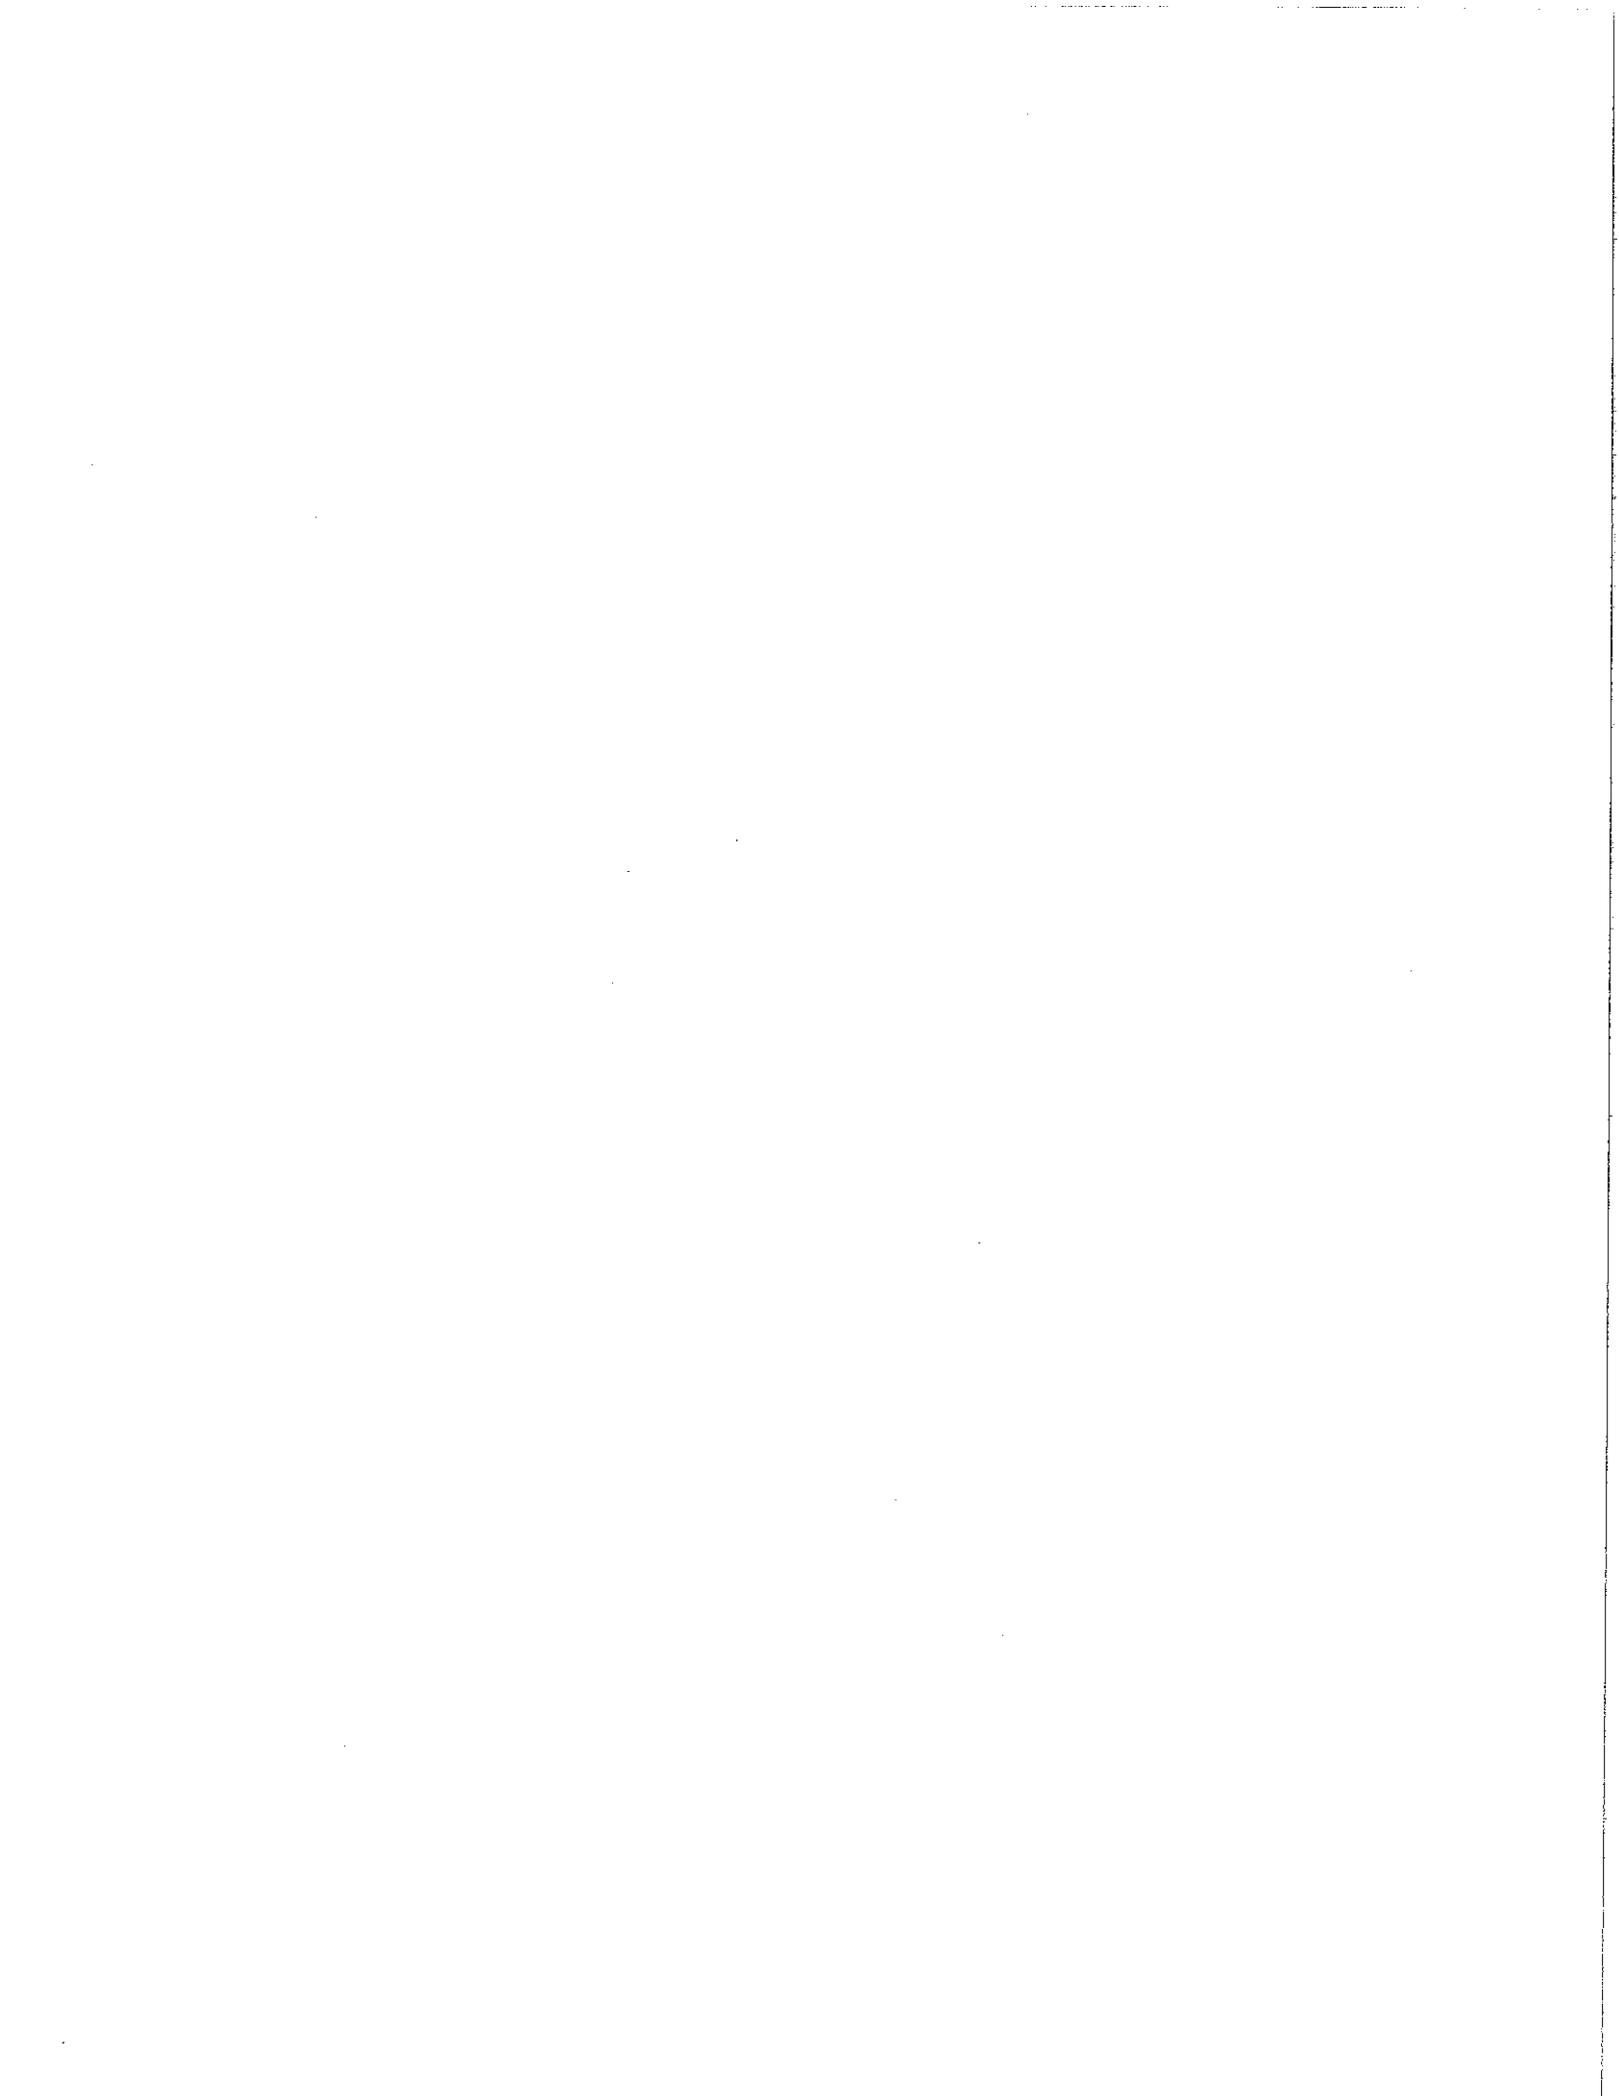

Paid Holidays are days for which an eligible employee receives a regular day's pay, but is not required to perform work. If an employee works on a day listed as a paid holiday, this remuneration is in addition to payment of the required prevailing rate for the work actually performed.

OVERTIME Holiday Pay:

Overtime holiday pay is the premium pay that is required for work performed on specified holidays. It is only required where the employee actually performs work on such holidays. The applicable holidays are listed under HOLIDAYS: OVERTIME. The required rate of pay for these covered holidays can be found in the OVERTIME PAY section listings for each classification.

Following is an explanation of the code(s) listed in the HOLIDAY section of each classification contained in the attached schedule. The Holidays as listed below are to be paid at the wage rates at which the employee is normally classified.

- (1) None
- (2) Labor Day
- (3) Memorial Day and Labor Day
- (4) Memorial Day and July 4th
- (5) Memorial Day, July 4th, and Labor Day
- (6) New Year's, Thanksgiving, and Christmas
- (7) Lincoln's Birthday, Washington's Birthday, and Veterans Day
- (8) Good Friday
- (9) Lincoln's Birthday
- (10) Washington's Birthday
- (11) Columbus Day
- (12) Election Day
- (13) Presidential Election Day
- (14) 1/2 Day on Presidential Election Day
- (15) Veterans Day
- (16) Day after Thanksgiving
- (17) July 4th
- (18) 1/2 Day before Christmas
- (19) 1/2 Day before New Years
- (20) Thanksgiving
- (21) New Year's Day
- (22) Christmas
- (23) Day before Christmas
- (24) Day before New Year's
- (25) Presidents' Day
- (26) Martin Luther King, Jr. Day
- (27) Memorial Day

NEW YORK STATE DEPARTMENT OF LABOR
Bureau of Public Work - Debarment List

**LIST OF EMPLOYERS INELIGIBLE TO BID ON OR BE
AWARDED ANY PUBLIC WORK CONTRACT**

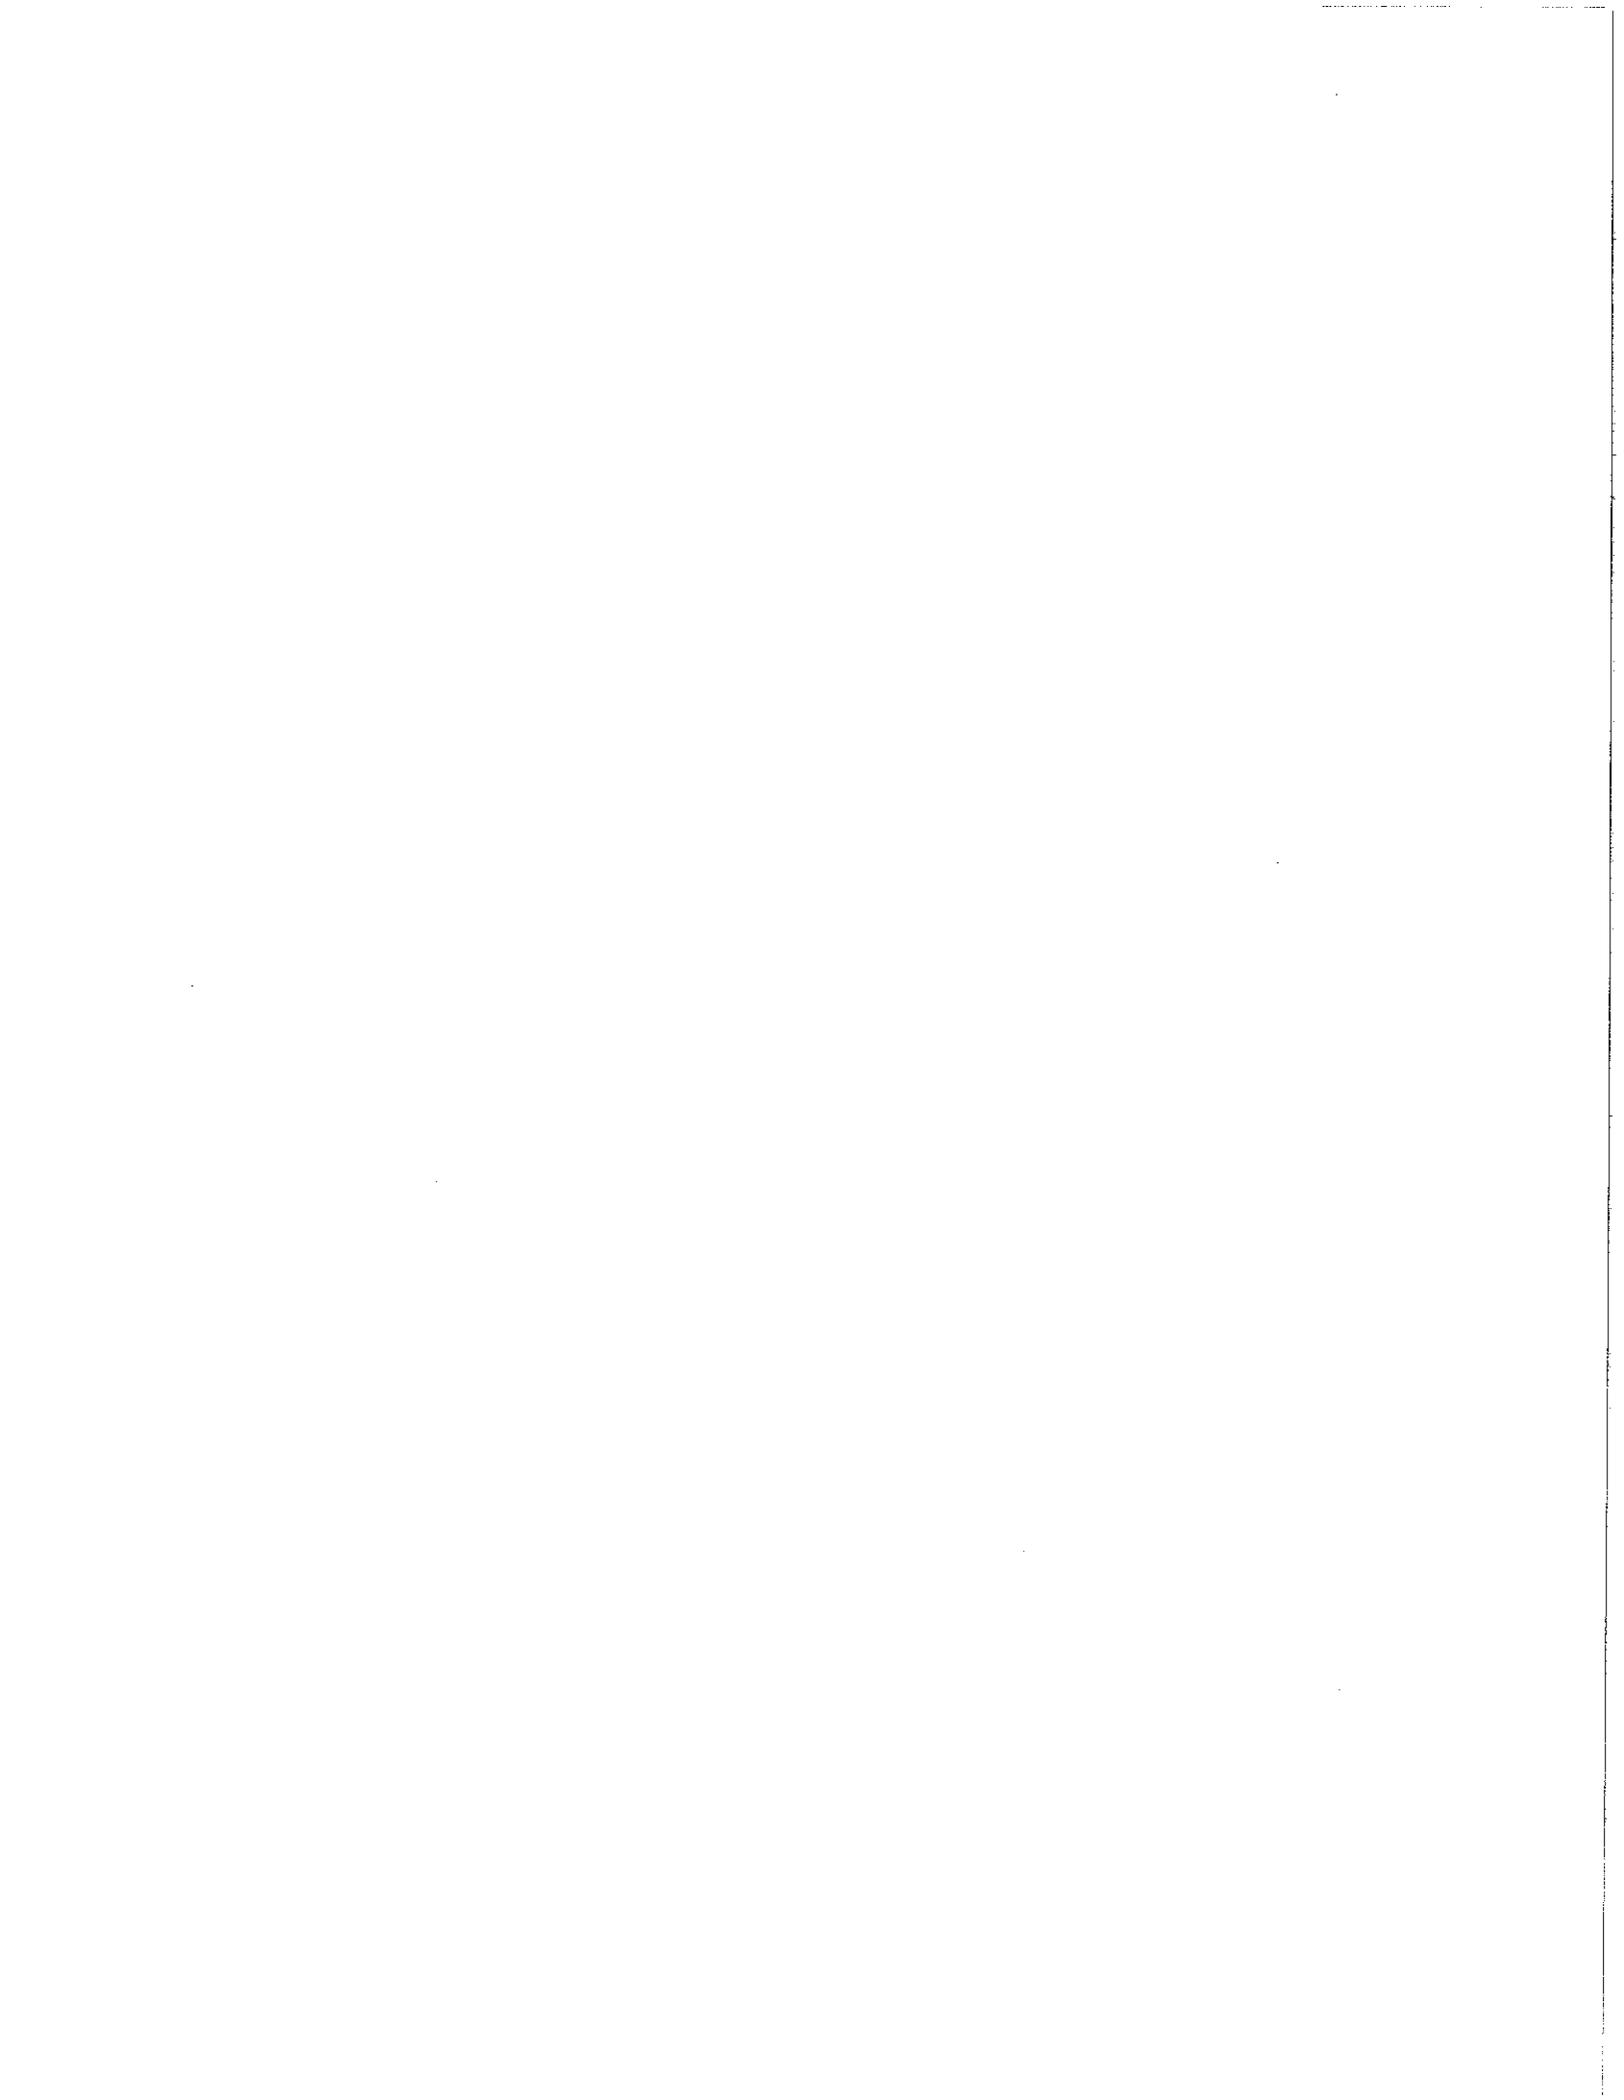

Under Article 8 and Article 9 of the NYS Labor Law, a contractor, sub-contractor and/or its successor shall be debarred and ineligible to submit a bid on or be awarded any public work or public building service contract/sub-contract with the state, any municipal corporation or public body for a period of five (5) years from the date of debarment when:

- Two (2) final determinations have been rendered within any consecutive six-year (6) period determining that such contractor, sub-contractor and/or its successor has **WILLFULLY** failed to pay the prevailing wage and/or supplements
- One (1) final determination involves falsification of payroll records or the kickback of wages and/or supplements

NOTE: The agency issuing the determination and providing the information, is denoted under the heading 'Fiscal Officer'. DOL = NYS Dept. of Labor; NYC = New York City Comptroller's Office; AG = NYS Attorney General's Office; DA = County District Attorney's Office.

A list of those barred from bidding, or being awarded, any public work contract or subcontract with the State, under section 141-b of the Workers' Compensation Law, may be obtained at the following link, on the NYS DOL Website:

DAVIS BACON WAGES
RESIDENTIAL

General Decision Number: NY150062 01/09/2015 NY62

Superseded General Decision Number: NY20140062

State: New York

Construction Type: Residential

County: Chautauqua County in New York.

RESIDENTIAL CONSTRUCTION PROJECTS (consisting of single family homes and apartments up to and including 4 stories).

Note: Executive Order (EO) 13658 establishes an hourly minimum wage of \$10.10 for 2015 that applies to all contracts subject to the Davis-Bacon Act for which the solicitation is issued on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least \$10.10 (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract. The EO minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the

Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor

200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

END OF GENERAL DECISION

=====
Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198

indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on

- a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

END OF GENERAL DECISION
