**DETERMINATION**

**APPEAL #2015-01**      **In the appeal of the Dunkirk Housing Authority it was the unanimous decision of the Board that this installation be granted with the following stipulations:**

1. The appellant must comply with all testimony and information presented at the Zoning Board of Appeals meeting held Wednesday, January 21, 2015.
2. The antennas shall be painted to match the color of the building.

The Board stated the following findings of fact in their determination:

1. This is the best location for the antennas because of the height of the building and the location of the building.
2. The new data plans have made communication from cellular towers weak. Additional antennas need to be erected to provide proper coverage in the area.
3. It will not alter the essential character of the neighborhood.
